United States Delegation
3rd Session of the Contracting Parties
General Agreement on Tariffs and Trade

MEMORANDUM TO ACCOMPANY UNITED STATES INITIAL OFFER
LIST TO DENMARK

As the Delegation of Denmark is doubtless aware, the granting of tariff concessions by the United States of America is made pursuant to the Trade Agreements Act. Under this Act, public announcement of intention to enter into tariff negotiations with each country is made, and a list of products on which the United States will consider granting concessions is issued. Also, under the Act as presently in force, copies of these lists are transmitted to the United States Tariff Commission. The Commission is required to make a report to the President not later than 120 days after receipt of the list with respect to each article in the list.

This report has been made in respect of the lists of items made public on November 5, 1948. However, pending the submission to the President, and consideration by the interdepartmental Trade Agreements Committee, of the Tariff Commission's report on the lists of items made public on December 17, 1948, the United States Delegation is not in a position to make offers on the items included in these lists. Consequently, the offers contained in the attached list are limited to the tariff concessions which the United States is prepared to make in respect of the items on the Danish list which accompanied the public notice of November 5, 1948. The United States Delegation hopes within the near future to be in a position to submit its offers in respect to the lists of items made public on December 17, 1948.

The offers in the attached list are expressed in terms which will facilitate reference to United States import statistics; the items are identified by statistical class numbers as well as by tariff paragraphs. In the final agreement slight variations in the language used may be necessary in order to have a definitive legal description of the product involved, but the coverage of products will not be changed.

Offers in this list which affect Cuban preferential margins are provisional pending consultations with the Delegation of Cuba. In each case in which Cuba at present enjoys a margin of preference, the Cuban rate is indicated under the most-favored-nation rate in the column headed "Present".

The United States Delegation also desires to make clear that the offers of tariff concessions made by the United States, including those to be submitted later, are made (1) in the light of the requests for tariff concessions made by the United States upon the acceding countries, and (2) on the assumption that the tariff negotiations between the other governments participating in the Annecy negotiations will result in substantial benefits to the United States.

August 4, 1949

Dear Mr. Maggio:

We are pleased to inform you that the bilateral stage of the tariff negotiations between Denmark and the United States of America has been completed. Attached hereto are two copies each of the exchange of letters recording the conclusion of the negotiations and of the final lists of offers exchanged.

However, as stated in the letter dated August 2 to the Secretariat from the United States Delegation, that Delegation for the time being must consider each of its bilateral negotiations as uncompleted within the meaning of the procedures set forth in GATT/TN.1/28, July 20, 1949. It is not anticipated, however, that this will require any substantive change in the results of these bilateral negotiations as they are being communicated to you.

SECRETLIST OF ITEMS UPON WHICH THE UNITED STATES OF AMERICA
OFFERS TARIFF CONCESSIONS TO DENMARKSECRET

August 4, 1949

My dear Mr. Hassard:

This will confirm that, as a consequence of the tariff negotiations between our Delegations, the understanding arrived at in respect of adjustments in the United States Tariff is as set forth in the schedule attached hereto.

The United States offers are made in consideration of Denmark's offers, appended to your letter to me of August 4, which meet the requests of the United States in a satisfactory manner. The United States offers are made subject to the approval of the President of the United States.

Our offers of tariff adjustments, which may be subject to some modification in the light of the bilateral tariff negotiations still to be concluded, will become effective pursuant to the Annex Protocol of Terms of Accession which has been approved by the Tariff Negotiations Committee. These offers, which are in the form of the United States statistical classifications, will, in their final form, be in the statutory language of the United States Tariff Laws.

I wish to take this opportunity to express, on behalf of the United States negotiators, our deep appreciation of the competence and good will which the Danish negotiators evidenced throughout the discussions of our mutual problems. I believe that an agreement reached in this spirit will prove to be mutually advantageous.

Sincerely yours,

F. N. Dean
