CONFIDENTIAL

REQUESTS BY THE UNITED STATES OF AMERICA
FOR CONCESSIONS FROM FINLAND AT THE FORTHCOMING
TARIFF NEGOTIATIONS OPENING AT ANNECY, APRIL 11, 1949

CONFIDENTIAL

Excellency:

I have the honor to refer to paragraph IV (iv) of the "Memorandum on Tariff Negotiations to be Held in Geneva Commencing 11 April 1949" (GATT/CP.2/26). Pursuant to that paragraph I enclose, under instructions from my Government, two copies of a list of the specific tariff concessions which it will request from the Government of Finland in these negotiations. As Your Excellency is doubtless aware, it is now planned to hold these negotiations at Annecy, France, instead of Geneva as originally contemplated.

In communicating this list to the Government of Finland, my Government wishes to reserve the right to submit a supplementary list of request items which may result from studies now in progress of information obtained pursuant to the formal public notice of United States intention to participate in negotiations with the Government of Finland which was issued on November 5, 1948, and of the supplementary notice issued on December 17, 1948. Pursuant to the notice of November 5, public hearings were held from December 7 to 14, 1948, inclusive, and the notice dated December 17 provides for a public hearing beginning January 25, 1949. Furthermore, my Government wishes to reserve the right to discuss in these negotiations any other charges, restrictions, or regulations affecting the importation into, or the sale or distribution within, Finland of products covered by the attached list or a supplementary list, including such matters as turnover and similar internal taxes applicable to imports.

In accordance with the aforementioned paragraph IV (iv), my Government is also transmitting forty copies of the enclosed list and of this note to Mr. Eric Wyndham-White, Executive Secretary, Interim Commission for the International Trade Organization, for transmission to the other Governments which will participate in the negotiations at Annecy.

Accept, Excellency, the assurances of my most distinguished consideration.

Enclosure:

"Requests by the United States of America for Concessions from Finland at the Forthcoming Tariff Negotiations Opening at Annecy, April 11, 1949"

United States Delegation
3rd Session of the Contracting Parties
General Agreement on Tariffs and Trade

MEMORANDUM

As the Delegation of Finland is doubtless aware, the granting of tariff concessions by the United States of America is made pursuant to the Trade Agreements Act. Under this Act, public announcement of intention to enter into tariff negotiations with each country is made, and a list of products on which the United States will consider granting concessions is issued. Also, under the Act as presently in force, copies of these lists are transmitted to the United States Tariff Commission. The Commission is required to make a report to the President not later than 120 days after receipt of the list with respect to each article in the list.

This report has been made in respect of the lists of items made public on November 5, 1948. However, pending the submission to the President, and consideration by the interdepartmental Trade Agreements Committee, of the Tariff Commission's report on the lists of items made public on December 17, 1948, the United States Delegation is not in a position to make offers on the items included in these lists. Consequently, the offers contained in the attached list are limited to the tariff concessions which the United States is prepared to make in respect of the items on the Finish list which accompanied the public notice of November 5, 1948. The United States Delegation hopes within the near future to be in a position to submit its offers in respect to the lists of items made public on December 17, 1948.

The offers in the attached list are expressed in terms which will facilitate reference to United States import statistics; the items are identified by statistical class numbers as well as by tariff paragraphs. In the final agreement slight variations in the language used may be necessary in order to have a definitive legal description of the product involved, but the coverage of products will not be changed.

The United States Delegation also desires to make clear that the offers of tariff concessions made by the United States, including those to be submitted later, are made (1) in the light of the requests for tariff concessions made by the United States upon the acceding countries, and (2) on the assumption that the tariff negotiations between the other governments participating in the Annecy negotiations will result in substantial benefits to the United States.

General Notes.

- p. placed before the weight unit indicates that the dutiable weight of the merchandise includes the internal packing such as etuis, boxes, cases, bottles, tins, jars, tubes, foils, tissues, paper and pasteboard. If there are several kinds of internal packing, all these together are taken into consideration when assessing the dutiable weight. This weight also comprises leaves, inserted leaves, and other inserted material. The expression "inserted material" does not include, however, iron frames with hooks on which shag, plush and velvet is fastened for safety during transit, nor drums on which electric lines or cables are wound.
- P. placed before the weight unit indicates that the external and internal packing are both comprised in the dutiable weight. External packing includes casks, barrels, tin-plate containers, tins, wicker bottles, stone- and earthenware jars, sacks, boxes, baskets and similar heavy packing.
