CONFIDENTIAL

REQUESTS BY THE UNITED STATES OF AMERICA
FOR CONCESSIONS FROM GREECE AT THE FORTHCOMING
TARIFF NEGOTIATIONS OPENING AT ANNECY, APRIL 11, 1949

CONFIDENTIAL

Excellency:

I have the honor to refer to paragraph IV (iv) of the "Memorandum on Tariff Negotiations to be Held in Geneva Commencing 11 April 1949" (GATT/CP.2/26). Pursuant to that paragraph I enclose, under instructions from my Government, two copies of a list of the tariff concessions which it will request from the Greek Government in these negotiations. As the Government of Greece is doubtless aware, it is now planned to hold these negotiations at Annecy, France, instead of Geneva as originally contemplated.

The difficulties arising from the Greek practice of levying duties in metallic drachmas and converting them into paper drachmas for purposes of duty collection, particularly during a period of wide currency fluctuations, have already been discussed with the Government of Greece. In these discussions it was suggested to the Government of Greece that concessions made by Greece might best be safeguarded against impairment if ad valorem rates rather than specific rates were used in the Greek schedule of tariff concessions to be negotiated at Annecy. In line with this suggestion, my Government is submitting its requests for tariff concessions in the form of maximum ad valorem rates, which in conformity with Greek regulations have been determined on the basis of CIF values. My Government wishes to assure the Government of Greece, nevertheless, that it will be glad to consider carefully and sympathetically any alternative solution of this problem which the Government of Greece may wish to propose. Regardless of the form in which the Greek schedule of concessions will be finally stated in the Agreement, the ad valorem rates requested in the attached list represent the extent of the concession my Government wishes to obtain on each item.

It is the understanding of my Government that the 4 percent tax on imports substituted for the third party tax by law effective January 10, 1949, and the various special consumption taxes on imports, would be bound against increase in the negotiations at Annecy. Moreover it is understood that the Luxury Tax, the Turnover Tax, the Handicraft Tax, and the Queen's Tax are "internal taxes" under Articles II and III of the General Agreement. Although these taxes may be internal taxes, they frequently impose a heavier burden on imports than on products of domestic origin; there would appear to be no doubt that the terms of paragraphs 1, 2, and 3 of amended Article III of the General Agreement on Tariffs and Trade (and in most instances the language of the original Article III), and the corresponding provisions of Article 18 of the ITO Charter, would require revision of these taxes at such time as the General Agreement should be put into force definitively, or Greece should join the ITO. This would chiefly entail:

1. Eliminating the differential in the rates applicable by law to certain imported and domestically-produced items;
2. Abolition of taxes on certain imported items or the imposition of a comparable tax on the like or similar domestic products; and
3. Elimination of the exemption from internal tax of that portion of domestic production manufactured from domestic raw materials or extension of the exemption to like articles manufactured from imported raw materials.

In this

CONFIDENTIAL

In this connection the attention of the Government of Greece is drawn to the fact that any conversion from an internal tax to a duty on scheduled articles would have to be agreed to in the negotiations at Annecy.

In formulating its requests my Government has found that in many instances it does not have adequate information regarding the Greek tariff and internal tax structure. For example, at the time it mailed its requests to Athens for transmittal to the Government of Greece it had received little information regarding the law effective January 10, 1949 abolishing third party taxes and substituting a 4 percent tax on imports. Therefore, my Government wishes to reserve the right to amend its requests and, particularly, to discuss in the negotiations any other charges, restrictions, or regulations affecting the importation into, or the sale or distribution within, Greece of products covered by the attached list.

In accordance with the aforementioned paragraph IV (iv), my Government is also transmitting forty copies of the enclosed list and of this note to Mr. Eric Wyndham-White, Executive Secretary, Interim Commission for the International Trade Organization, for transmission to the other Governments which will participate in the negotiations at Annecy.

Accept, Excellency, the assurances of my most distinguished consideration.

Enclosure:

"Requests by the United States
for Concessions from Greece"

United States Delegation
3rd Session of the Contracting Parties
General Agreement on Tariffs and Trade

MEMORANDUM TO ACCOMPANY UNITED STATES INITIAL OFFER LIST
TO GREECE

As the Delegation of Greece is doubtless aware, the granting of tariff concessions by the United States is made pursuant to the Trade Agreements Act. Under this Act, public announcement of intention to enter into tariff negotiations with each country is made, and a list of products on which the United States will consider granting concessions is issued. Also, under the Act as presently in force, copies of these lists are transmitted to the United States Tariff Commission. The Commission is required to make a report to the President not later than 120 days after receipt of the list with respect to each article in the list.

This report has been made in respect of the lists of items made public on November 5, 1948. However, pending the submission to the President, and consideration by the inter-departmental Trade Agreements Committee, of the Tariff Commission's report on the lists of items made public on December 17, 1948, the United States Delegation is not in a position to make offers on the items included in these lists. Consequently, the offers contained in the attached list are limited to the tariff concessions which the United States is prepared to make in respect of the items on the Greek list which accompanied the public notice of November 5, 1948. The United States

SECRET

SECRET

- 2 -

Delegation hopes within the near future to be in a position to submit its offers in respect to the list of items made public on December 17, 1946.

The offers in the attached list are expressed, not in the language of the United States tariff, but in the language of Schedule A, United States Department of Commerce Statistical Classification of Imports into the United States, September 1946 edition. The language of Schedule A is not to be taken as a definitive legal description of the product involved, a description will have to be included in the final agreement.

Offers in this list which affect Cuban preferential margins are provisional pending consultations with the Delegation of Cuba. In each case in which Cuba at present enjoys a margin of preference, the Cuban rate is indicated under the most-favored-nation rate in the column headed "Present". The United States Delegation also desires to make clear that the offers of tariff concessions made by the United States, including those on the lists to be submitted later as explained in the preceding paragraph, are made (1) in the light of the requests for tariff concessions made by the United States to the acceding countries and (2) on the assumption that the tariff negotiations between the other governments participating in the Annex negotiations will result in substantial concessions to the United States.

Tariff Paragraph	1947 Statistical Number	Commodity Description	Rate of Duty	
			Present	Proposed
30	2345.100	Valonia tanning extract (not containing alcohol)	7 1/2%	5 3/4%
53	1425.000	Olive oil, edible: In packages of 40 pounds or over	6 1/2% lb.	3 1/4% lb.
328	6115.000	Tanks, or vessels, cylin- drical or tubular, for holding gas, liquids, or other materials, full or empty	25% (MFN)	12 1/2%
601	2605.000	Cigarette leaf tobacco, unstemmed, other than smoke-cured having the flavor and aroma charac- teristic of smoke-cured Latania leaf tobacco	20% Cuba	
742	1321.000	Currents, Zante or other	2¢ lb.	1¢ lb.
744		Olives: In brine, not green in color, not pitted or stuffed, and not packed in air-tight containers of glass or metal:		
	1305.000 (part)	Green or ripe	20¢ or 30¢ gal.	15¢ gal.
	1305.100 (part)	F.o.b. in Paragraph 744, Tariff Act of 1930	5¢ lb.	2 1/2¢ lb.
	1305.700 (part)	Dried ripe	5¢ lb.	2 1/2¢ lb.
781	1549.100	Bay (laurel) leaves, un- ground	25%	12 1/2%
1515(b)	0751.720	Plates, mats, linings, shoes, strips and crosses (other than of silver or black fox, dog, goat, kid, squirrel, hare, and lamb and sheep other than caracul and Persian lamb) if dyed	22 1/2%	20%
1545	0970.900	Sponges, manufactures of, n.e.s.i.	25%	12 1/2%
1686	2171.400	Resin gums and resins (n.e.s.i.)	Free	Free
1732	2244.000	Olive oil, medicinal; Sulphured or foots	Free	Free
	2245.000	Other	Free	Free

DELEGATION HELLENIQUE
à la
CONFERENCE TARIFAIRE
d'ANNECY.

Annecy le 26 Avril 1949.

No 14.

Monsieur le Secrétaire Général,

J'ai l'honneur de vous transmettre, ci-joint, deux copies
des concessions tarifaires que la Délégation Hellénique a faites
à la Délégation des Etats-Unis et qu'elle a fait parvenir
aujourd'hui même à cette dernière Délégation.

Veuillez agréer, Monsieur le Secrétaire Général,
l'assurance de ma considération distinguée

Ath. POLITIS

Président de la Délégation Hellénique

M. WYNDHAM WHITE
Secrétaire Exécutif
ANNECY.

Greek Delegation to the Conference
on General Agreement on Tariff and
Trade
Beginning at Annecy, France April II, 1949

April 25, 1949.

MEMORANDUM TO ACCOMPANY INITIAL OFFER LIST FROM GREECE
TO THE UNITED STATES.

As the Delegation of the United States is doubtless aware, the Government of Greece has recently taken steps to revise its tariff system and has now working at highest Government levels a committee empowered to draft a law providing for the earliest possible conversion of the Greek tariff schedule from its present basis, under which most of the items therein are subject to specific rates, to a schedule under which most of the items will be subject to ad valorem rates. In addition the Committee is to insure that this law makes provision for the establishment of a system of evaluation of imports for tariff and all taxation purposes based upon the C.I.F. landed cost with foreign market values as standard, in accordance with Article VII of the GATT and Article 35 of the ITO Charter, as well as to insure the equalization of all internal tax burdens on items identical with or similar to imported items, in accordance with the provisions of Article III of GATT and Article 18 of the ITO Charter. Furthermore the Committee will provide for the replacement of the existing customs tariff classification and nomenclature by one modeled after the customs nomenclature recommended by the League of Nations and to utilize for statistical purposes the Minimum List of Commodities for International Trade Statistics recommended by the League of Nations.

Despite the fact that the Greek Government is bending every effort to establish an advalorem system category by category as rapidly as possible, our offer list must be submitted on the basis of the existing tariff system and schedule of rates. Inasmuch as almost all of the items upon which the United States has requested concessions are now listed on a specific duty basis, our offer list is largely in terms of reductions of metallic drachma scheduled rates. In this connection attention is invited to the fact that for many months past there have been discussion within the Ministries of Finance and Foreign Affairs and National Economy and Coordination regarding the necessity of rei-

-sing at the earliest possible moment the coefficients for converting metallic drachms into paper drachms for duty payment purposes. While there was much pressure to readjust these coefficients in such a manner as to restore the traditional direct relationship between the metallic drachma and the current open market value of the gold sovereign in terms of drachms, it was decided that it would be desirable to refrain from any readjustment in the coefficients until the conclusion of the present Conference at Athens. The principal reason for this decision to delay action was to prevent unnecessary disruption of trade as a result of increasing the import tax burden on many items which would be subject to negotiation during the present Conference that would in all likelihood have to be readjusted to points near current levels after only a few weeks or months of operation under readjusted rates.

In order to provide a sound basis for judgment of the practical effect at recent foreign market price levels of commodities and of the gold sovereign of the reductions that are being offered in the metallic drachma scheduled rates, the Greek Government has authorized this Mission to inform the United States Delegation that it is the intention of the Greek Government to establish a new coefficient of 9000 paper drachms for one metallic drachma based on the assumption that the gold sovereign will remain for the time being at approximately its present level of 220 to 230 thousand paper drachms per gold sovereign. It is also authorized to inform you that it is the intention of the Greek Government to abolish concurrently the scaled system of preferential coefficients, and to apply only a single coefficient stabilized currently on the basis of the approximate value of the gold sovereign and pledged to follow proportionately any major shifts in the value of the gold sovereign in terms of the Greek paper drachms.

As will be noted from the attached list, in effect substantial and valuable reductions below the 1938 import duties are offered.

In addition to offering the reduced metallic drachma rates shown in the attached list, in view of the form of the request made by the United States Government on November 17, 1948 in which concessions

were requested from us on an ad valorem rather than on a specific duty basis and the Greek Government desire to establish as many items as possible on appropriate ad valorem bases, this Delegation has been authorized by the Greek Government to assure the United States Delegation that if any of the items listed below become subject to ad valorem rates, during the period of the existence of this Agreement that they will not be assessed at higher than the ad valorem amounts indicated for the respective item in the list below.

While it is obvious that the Greek Government must be free to exercise its best judgement in determining the time and amount of any increases that may be called for in the metallic drachma conversion rate as a result of any increases in the value of the gold sovereign in terms of paper drachma, the Greek Government has authorized this Delegation, in accordance with the general tenor of Article II(6) of the General Agreement on Tariffs and Trade, to offer to undertake that at any time that the official bank of Greece selling rates for gold sovereigns drop by more than 20 per cent from the rate current at the time of the latest revision of the coefficient of metallic drachma conversion, an appropriate reduction will be promptly made by the Greek Government in the coefficient.

It should be noted, of course, that the offers in the attached list are made on the assumption that satisfactory concessions will be secured from the Government of the United States during the course of the present negotiations.

LIST OF ITEMS UPON WHICH GREECE OFFERS TARIFF CONCESSION
TO THE UNITED STATES OF AMERICA.

Tariff Para.	Description of Item	Rate of Duty in metallic drachmas	
		Present	Proposed
3 c 2	Milk, with or without sugar. (no tare allowance for the receptacles) : Condensed with or without sugar.	10.00	4.00
Ex 3c3	Whole dried milk and non-fat dry milk solids	20.00	11.00
7a	Wheat	6.00	Reserved
8a	Wheat flour	10.70	"
Ex37fd	Calfskin & kipskin, colored or otherwise prepared	380.00	"
Ex37fI	Goat and sheep skins, colored or otherwise prepared, weighing more than 40 grams per square foot	400.00	Reserved
Ex37fI bis	Goat and sheep skins, colored or otherwise prepared, weighing 40 grams or less per square foot	600.00	Reserved
37g	Patent leather	400.00	Reserved
43a	Furs consisting of scraps or irregular shape sewn together but not making up finished ar- ticles. (per kilo)	8.00	Reserved
43a	Furs scraps of irregular shape, each of which is incapable of forming a complete article	Free	Free (1)
60d	Lubricating mineral oils and greases, even containing vege- table or animal oils or greases also refined mineral oils, in liquid state	15.00	6.00
95b1	Centrifugal pumps, also rotary pumps, weighing :		
	1. up to 100 Kgs	60.00	25.00
95b2	Centrifugal pumps, also rotary pumps, weighing:		
	2. more than 100 Kgs	40.00	15.00

		Present	Proposed
3x 217b	Ginned Cotton of a staple length from 7/8 to 1-1/16" inclusive	7.00	7.00
266a	Motor vehicles, new or used: a) trucks also their trailers	10.00	3.50
266a2	Motor vehicles new or used: c) passenger cars, weighing 2. more than 800 kgs	50.00	35.00
266d1	Parts of motor vehicles: I. Chassis with motor attached or without motor	6.00	7.00
Ex266d4	Tires of rubber, natural or syn- thetic, for motor driven or drawn vehicles, even if combined with other materials	30.00	15.00
Ex266d6	Inner tubes including those of na- tural or synthetic rubber	140.00	33.00
70c, 70d, 99a, 99b, etc.	Replacement or repair parts for passenger cars, trucks and busses including engine and chassis com- ponents (parts necessary for func- tioning of motor vehicle) except storage batteries, spark plugs, brake lining, clutch facing, and tires and tubes, provided shipment does not include all the parts necessary for the assembly of a complete passenger car, truck or bus	20.00, 5.00, 25.00, 5.00, etc.	Reserved
266d1, e2, etc.	Body repair parts & accessories for passenger cars, trucks & busses such as fenders, headlights, wind- shield wipers, rear view mirrors, shock absorbers, spot lights, horns and other non-functional parts & extra equipment	(260.00 350.00 (etc	Reserved
288c	Fountain pens		
Ex 3I	Blended flavoring preparations in fluid or dry form without sweetening with or without added coloring, to serve as a base for non-alcoholic beverages	100.00	30% (3)
Ex 181 I	Abrasive paper and cloth	40.00	22.00

Footnotes:

(1) Reduce to, 5% ad valorem, the 5% to cover all charges now levied on free items in lieu of the 75% import surcharge now applicable to dutiable items (namely municipal tax, additional municipal tax, and forced loan tax.)

(2) Luxury tax to be discussed

(3) Subject to special reclassification.

May 3, 1949

Greek Delegation to the Conference on
General Agreement on Tariffs and Trade
beginning at Annecy, France April 11, 1949

SUPPLEMENTARY LIST OF ITEMS UPON WHICH
GREECE OFFERS TARIFF CONCESSIONS TO THE UNITED STATES

The attached list contains the offers of Greece with respect to the "Reserved" items on its list of April 28, 1949.

The Greek Delegation wishes particularly to emphasize that on these items, as well as the items on the April 28, 1949 list, the Government of Greece offers to change the present basis of computing the turnover tax on all items from the present "fair market price" basis to a "Havana Charter import value" basis, and to reduce on or before the effective date of the forthcoming Agreement the total rate of the turnover tax from 14% to 10% and within twelve months after the conclusion of the present hostilities to further reduce this total rate to 6% ad valorem.

In this connection it is also necessary to point out that 28 taxes burdening importation have been abolished by compulsory law No. 843, of the 16th December 1948 "concerning abolition of taxes on the circulation of goods in Greece" which has been in force since the 10th of January 1949. The above-mentioned abolished taxes are the following:

TABLE I

3/5	Tax on currants paid by Autonomous Currant Organisation (ASO)
3/7	Tax on currants except in Corinth and Crete
3/8	Tax on Cretan currants
3/13	Olive oil and olives land tax
4/1	Livestock tax

SECRET

- 2 -

- 11/7 additional tax on wine for prevention of phylloxera
- 12/5 Consumption tax on caustic sodium, potash
- 12/8 Additional tax in favor of fund of agriculture livestock and forests
- 12/4 Additional tax in favor of erection of lawcourts
- 13/5 Additional tax in favor of funds livestock and forests
- 17/1 Dues of sea passages
- 17/2 Dues of freight of vessels
- 20/9 Ship agents and immigration dues
- 46/67 Various subscriptions and receipts not specified in the above articles

TABLE II

A 2	In favor of	Greek Sea Union
A 3	"	" Maritime Chamber of Commerce
A 7	"	" Unemployed workers of a china Fund
A 12	"	" Rural Guards General Fund
A 13	"	" Agricultural Insurance Funds
A 15	"	" the Office of Protection of Flgs
A 16	"	" Courthouses and prisons
A 17	"	" Municipalities and Communes
A 18	"	" special a/c of unemployment
A 19	"	" Merchants
A 20	"	" the Fund of Artisan small industrialists
A 25	"	" pensions of the Navy
A 26	"	" maritime agents
A 28	"	" welfare, of crews of Merchant Marine
A 32	"	" tubercular sea workers

There are also a few additional charges on imports which the Greek Government offers to abolish on or before the effective date of the forthcoming Agreement insofar as these charges are levied on imports. These charges include the following:

- B/4 Contributions in favor of the Foreign Trade Organisation
- A/21 In favor of add. insurance of personnel, of Company of Wines and beer manufacturers
- A/22 In favor of pensions of Civil Servants
- A/27 In favor of pensions of Civil Servants welfare
- A/30 In favor of pensions of Clearing Agents
- A/32 In favor of pensions of Law Officers
- A/14 In favor of Fund of Agriculture Livestock Forest (domestic fly)

SECRET

- A/25 In favor of machinery of sort works
 A/31 In favor of pensions of Engineers and Contractors

As in the case of the initial offer list, in addition to offering the reduced drachma rates quoted in the attached list, in view of the form of the request made by the United States Government on November 17, 1948 in which concessions were requested from us on an ad valorem rather than on a specific duty basis and the Greek Government's desire to establish as many items as possible on appropriate ad valorem basis, this Delegation has been authorized by the Greek Government to assure the United States Delegation that if any of the items listed below become subject to ad valorem rates during the period of the existence of the Agreement that they will not be assessed at higher than the ad valorem amounts indicated for the respective item in the list below.

It will also be noted that the Greek negotiating team proposes to convert on the effective date of the Agreement the present specific duty on automotive repair parts to an ad valorem duty of 25%.

The offers in the attached list are made, of course, on the assumption that satisfactory concessions will be secured from the United States during the course of the present negotiations.

Dear Sir,

U.S.A. - Greece.
Completion of Tariff Negotiations

In conformity with the procedure set forth in Document GATT/TN.I/I6 we have pleasure in informing the Secretariat that agreement has been reached in the bilateral tariff negotiations between Greece and the United States of America.

We attach herewith :

- 1) Two copies numbered 1 and 2 of the List of final offers made by the U.S.A. to Greece
- 2) Two copies numbered 1 and 2 of the list of final offers made by Greece to the U.S.A.

Yours faithfully

For the United States
of America

Woodbury Willoughby
WOODBURY WILLOUGHBY
Chairman of U.S.A. Delegation

For Greece

SECRET

PROPOSED HEADNOTE TO THE GREEK SCHEDULE OF CONCESSIONS

1. With respect to each item provided for in this Schedule to which a specific duty is applicable, the rate of duty in the currency of Greece (currently the paper drachma) shall not exceed the sum of (1) the product of multiplication of (a) the metallic drachma rate specified in the column immediately to the right of the description of the item, (b) the corresponding enumerated coefficient of currency conversion, and (c) an additional coefficient of conversion which shall initially not exceed 228, provided that the value of the gold sovereign in terms of the currency of Greece on the date this Schedule becomes effective is approximately 228,000 drachmas (otherwise, the additional coefficient of conversion shall be established in accordance with the applicable provisions of paragraphs 2 or 3 hereunder) and (2) the existing 75 percent surtax calculated on the total basic duty determined under (1) above.

2. Prior to the establishment, acceptance or provisional recognition by the International Monetary Fund of a par value for the currency of Greece, the Government of Greece (1) may increase the additional coefficient of conversion proportionately, if at any time the value of the gold sovereign in terms of the currency of Greece increases substantially to a new level at which it remains relatively stable or from which level it does not recede for an appreciable period of time, (2) shall lower the additional coefficient proportionately, if at any time the value of the gold sovereign in terms of the currency of Greece decreases substantially to a new level at which it remains relatively stable or above which level it does not rise for an appreciable period of time, and (3) shall lower immediately and proportionately the additional coefficient if the value of the gold sovereign in terms of the currency of Greece decreases by 20 percent or more. The value of the gold sovereign in terms of the currency of Greece shall be measured by the selling rate therefor of the Bank of Greece so long as it continues to sell or to offer to sell at the approximate average Athens Stock Exchange open market selling rate on the same day. If the Bank of Greece ceases to sell or to offer to sell the gold sovereign at that rate for any period, the daily average Athens Stock Exchange open market selling rate for the gold sovereign shall be used.

3. Promptly upon the establishment, acceptance or provisional recognition by the International Monetary Fund of a par value for the currency of Greece, the Government of Greece shall make such proportionate adjustment in the additional coefficient of conversion as may be necessary to bring the

rates of duty in the currency of Greece in terms of such par value in line with duties payable in drachma currency on that date. The rates of duty in the currency of Greece (in terms of the par value established, accepted or recognized by the International Monetary Fund) resulting from the multiplication of (1) the rates specified in metallic drachma, (2) the corresponding enumerated coefficient of conversion, and (3) the additional coefficient of conversion modified in accordance with this paragraph, shall be deemed to be rates in terms of the par value accepted or recognized by the International Monetary Fund, within the meaning of paragraph 6(a) of Article II of the General Agreement on Tariffs and Trade, and the provisions of that paragraph shall be fully applicable to the Government of Greece.

4. The Government of Greece shall promptly notify each contracting party of any modification of the additional coefficient of conversion pursuant to paragraph 2 or paragraph 3, and of the facts justifying or requiring such modification.

P R E A M B U L E

1. En ce qui concerne chacun des articles figurant dans cette liste auquel un droit spécifique est applicable, le taux de droit payable en monnaie grecque (actuellement en drachmes papier) ne dépassera pas la somme

(I) du produit de la multiplication

- a. du taux en drachmes métalliques indiqué dans la première colonne qui se trouve à droite de celle où figure la description de l'article,
- b. du coefficient de conversion correspondant indiqué et
- c. d'un coefficient de conversion additionnel qui ne dépassera pas en principe 228, à condition que la valeur du Souverain-or, par rapport à la monnaie grecque, soit approximativement de 228.000 drachmes à la date à laquelle cette liste prendra effet (autrement, le coefficient additionnel de conversion sera établi conformément aux dispositions appropriées des paragraphes 2 et 3 ci-dessous)

(2) et de la surtaxe existante de 75 % calculée sur le droit de base total fixé ci-dessus au par. (I).

2. Avant qu'une parité pour la monnaie grecque ne soit établie, acceptée ou reconnue à titre provisoire par le Fonds Monétaire International, le Gouvernement Grec

(1) pourra augmenter proportionnellement le coefficient additionnel de conversion si, à un moment quelconque, la valeur du Souverain-or par rapport à la monnaie grecque est portée, par suite d'une hausse considérable, à un nouveau niveau, auquel elle se maintiendra relativement stable, ou d'où elle ne s'écartera pas pendant un laps de temps relativement étendu.

(2) devra abaisser proportionnellement le coefficient additionnel si à un moment quelconque la valeur du Souverain-or par rapport à la monnaie grecque descend, par suite d'une baisse considérable, à un nouveau niveau auquel elle se maintiendra relativement stable, ou au-dessus duquel elle ne s'élève pas pendant un laps de temps relativement étendu, et

(3) devra sans délai abaisser proportionnellement le coefficient additionnel, si la valeur du Souverain-or par rapport à la monnaie grecque diminue de 20 % ou plus.

La valeur du Souverain-or par rapport à la monnaie

parer. 3 et les informera des raisons qui justifient ou qui exigent cette modification.

5. Le Gouvernement Grec prend l'engagement de notifier aux Parties Contractantes avant d'y procéder, toute modification qu'il compte introduire dans la classification tarifaire des diverses catégories de fibres de rayonne, fils de rayonne ou articles fabriqués en rayonne, ou dans les droits payables sur ces articles à fin Juillet 1949 aux fins d'entamer avec elles des négociations portant sur ces articles.

Le Gouvernement Grec s'engage en outre à réduire de façon sensible, dès l'entrée en vigueur de telles modifications, la taxe de luxe qui frappe actuellement les articles ci-dessus et de l'abolir entièrement en ce qui concerne les produits de qualité inférieure.
