

CONFIDENTIAL

REQUESTS BY THE UNITED STATES FOR CONCESSIONS FROM
SWEDEN AT THE FORTHCOMING TARIFF NEGOTIATIONS AT
ANNECY COMMENCING APRIL 11, 1949

CONFIDENTIAL

CONFIDENTIAL

Excellency:

I have the honor to refer to paragraph IV (iv) of the Memorandum on Tariff Negotiations to be Held in Geneva Commencing 11 April 1949" (GATT/CP.2/26). Pursuant to that paragraph I enclose, under instructions from my Government, two copies of a list of the specific tariff concessions which it will request from the Government of Sweden in these negotiations. As your Excellency is doubtless aware, it is now planned to hold these negotiations at Annecy, France, instead of Geneva as originally contemplated.

In communicating this list to the Government of Sweden my Government wishes to reserve the right to submit a supplementary list of request items which may result from studies now in progress of information obtained pursuant to the formal public notice of United States intention to participate in negotiations with the Government of Sweden which was issued on November 5, 1948 and of the supplementary notice issued on December 17, 1948. Pursuant to the notice of November 5, public hearings were held from December 7 to 14, 1948, inclusive, and the notice dated December 17 provides for a public hearing beginning January 25, 1949. Furthermore, my Government wishes to reserve the right to discuss in these negotiations any other charges, restrictions, or regulations affecting the importation into, or the sale or distribution within Sweden of products covered by the attached list or a supplementary list.

In accordance with the aforementioned paragraph IV (iv), my Government is also transmitting forty copies of the enclosed list and of this note to Mr. Eric Wyndham-White, Executive Secretary, Interim Commission for the International Trade Organization, for transmission to the other Governments which will participate in the negotiations at Annecy.

Accept, Excellency, the assurances of my most distinguished consideration.

Enclosure:

"Requests by the United States for Concessions from Sweden at the Forthcoming Tariff Negotiations at Annecy Commencing April 11, 1949"

List of Products

on which Sweden requests tariff concessions of the United States of America
in the GATT-negotiations

This list is prepared in the terms of "Schedule A - Statistical Classification of Imports into the United States of America" (September 1, 1946, edition). In cases where the commodity number is given without a parenthesis the request covers all products classified under that number, even though this does not appear from the abbreviated commodity description. A number in a parenthesis means that it has not been possible to establish that the product is question really comes under that number; in such cases the request covers the product described by the text, even if it should be more correctly classified under another number.

DIRECT CONCESSIONS OFFERED BY
THE UNITED STATES OF AMERICA
TO SWEDEN

April 30, 1949

United States Delegation
3rd Session of the Contracting Parties
General Agreement on Tariffs and Trade

MEMORANDUM

United States Initial Offer List to Sweden

The offers in the attached list are expressed in terms which will facilitate reference to United States import statistics; the items are identified by statistical class numbers in accordance with Schedule A, United States Department of Commerce Statistical Classification of Imports into the United States, September 1, 1946 edition, as well as by tariff paragraphs. In the final agreement slight variations in the language used may be necessary in order to have a definitive legal description of the product involved, but the coverage of products will not be changed.

Offers in this list which affect Cuban preferential margins are provisional pending consultations with the Delegation of Cuba. In each case in which Cuba at present enjoys a margin of preference, the Cuban rate is indicated under the most-favored-nation rate in the column headed "Present".

The United States Delegation desires to make clear that the offers of tariff concessions made by the United States are made (1) in the light of the requests for tariff concessions made by the United States upon the acceding countries, and (2) on the assumption that the tariff negotiations between the other governments participating in the Annecy negotiations will result in substantial benefits to the United States.

Footnotes:

- 1/ In addition to the base rates shown for the listed materials and articles, imports are subject to duties for alloy content under paragraph 305, for galvanizing, etc., under paragraph 309 or 310(a), and for tempering, cold rolling, cold hammering, under paragraph 315. The assessment of additional duties for alloy content is indicated by the use of supplemental numbers in the seventh figure of the regular statistical commodity class. The assessment of additional duties for galvanizing, tempering, cold rolling, cold hammering, etc. is generally indicated by supplemental numbers in the sixth figure of the regular statistical commodity class.
- 2/ Less than \$500.
- 3/ Figures in parentheses () duplicate figures shown elsewhere in the tabulation, they represent the value of imports of materials and articles on which the United States is offering a concession on the base duty as well as on the additional duty on the stub.
- 4/ Exclusive of household food grinding or cutting machines which are dutiable under paragraph 339.
- 5/ Estimated; includes imports from Sweden only.

UNITED STATES DELEGATION
THE THIRD SESSION OF THE CONTRACTING PARTIES
GENERAL AGREEMENT ON TARIFFS AND TRADE

SECRET

ANNECY, FRANCE

August 3, 1949

Dear Mr. Maggio:

We are pleased to inform you that the bilateral stage of the tariff negotiations between Sweden and the United States of America has been completed. Attached hereto are two copies each of the exchange of letters recording the conclusion of the negotiations and of the final lists of offers exchanged.

However, as stated in the letter dated August 2 to the Secretariat from the United States Delegation, that Delegation for the time being must consider each of its bilateral negotiations as uncompleted within the meaning of the procedures set forth in GATT/TN.1/28, July 20, 1949. It is not anticipated, however, that this will require any substantive change in the results of these bilateral negotiations as they are being communicated to you.

Sincerely yours,

Bengt Lindskog
B. Lindskog
Delegate
Swedish Delegation

SECRET

My dear Mr. Lindskog:

This will confirm that, as a consequence of the tariff negotiations between our Delegations, the understanding arrived at in respect of the adjustments in the United States Tariff which were sought by Sweden is as set forth in the schedule attached hereto.

The United States offers are made in consideration of Sweden's offers, appended to your letter to me of this date, which meet the requests of the United States in a generally satisfactory manner. These offers are subject to the approval of the President of the United States.

Our offers of tariff adjustments, which may be subject to some modification in the light of the bilateral tariff negotiations still to be concluded, will become effective pursuant to the Annecy Protocol of Terms of Accession which has been approved by the Tariff Negotiations Committee. These offers, which are in the form of the United States statistical classifications, will appear in the consolidated schedule of the multilateral agreement in the statutory form of the United States Tariff Laws.

I wish to take this opportunity to express, on behalf of the United States negotiators, our deep appreciation of the competence and good will that the Swedish negotiators evidenced throughout the discussions of our mutual problems. We believe that an agreement reached in this spirit will prove to be mutually advantageous.

Sincerely yours,

H. Arnold Guirin
