

CONFIDENTIAL

REQUESTS BY THE UNITED STATES
FOR CONCESSIONS FROM URUGUAY
AT THE FORTHCOMING TARIFF
NEGOTIATIONS AT ANNECY COMMENCING
APRIL 11, 1949

CONFIDENTIAL

Excellency:

I have the honor to refer to paragraph IV (iv) of the "Memorandum on Tariff Negotiations to be Held in Geneva Commencing 11 April 1949" (GATT/CP.2/26). Pursuant to that paragraph, I enclose, under instructions from my Government, two copies of a list of the specific tariff concessions which it will request from the Uruguayan Government in these negotiations. As the Government of Uruguay is doubtless aware, it is now planned to hold these negotiations at Annecy, France, instead of Geneva as originally contemplated.

It will be noted in the enclosures that the rate requests are in terms of specific amounts of pesos. My Government wishes that it be clearly understood that the rate requested in each case represents the aggregate of the duty and other import charges based upon the duty with the exception of the general 1% surtax on duty applicable to all articles. In other words, the requested rate would include in each case: the basic duty; surtaxes, if any, applied to the basic duty; the general 50% increase in duty, where applicable; and the so-called 25% (in some instances 50%) "gold surcharge", wherever applicable.

In communicating this list to the Uruguayan Government, my Government wishes to reserve the right to submit a supplementary list of request items which may result from studies now in progress of information obtained pursuant to the formal public notice of United States intention to participate in negotiations with the Government of Uruguay which was issued on November 5, 1948, and of the supplementary notice issued on December 17, 1948. Pursuant to the notice of November 5, public hearings were held from December 7-14, 1948, inclusive and the notice dated December 17 provides for a public hearing beginning January 25, 1949.

Furthermore, my Government wishes to reserve the right to discuss in these negotiations any other charges, restrictions, or regulations affecting the importation into, or the sale or distribution within, Uruguay of products covered by the attached list or a supplementary list, including such matters as the present proposal, now under consideration by the Uruguayan Congress, to increase the aforos for customs purposes.

In accordance with the aforementioned paragraph IV (iv) my Government is also transmitting forty copies of the enclosed list and of this note to Mr. Eric Wyndham-White, Executive Secretary, Interim Commission for the International Trade Organization, for transmission to the other Governments which will participate in the negotiations at Annecy.

Accept, Excellency, the assurances of my most distinguished consideration.

Enclosure:

United States Delegation
3rd Session of the Contracting Parties
General Agreement on Tariffs and Trade

MEMORANDUM TO ACCOMPANY UNITED STATES OFFER LIST TO
URUGUAY

The Delegation of Uruguay is doubtless aware that the granting of tariff concessions by the United States is made pursuant to the Trade Agreements Act. Under that Act, public announcement of intention to enter into tariff negotiations with each country is made, and a list of products on which the United States will consider granting concessions is issued. Also, under the Act as presently in force, copies of these lists are transmitted to the United States Tariff Commission. The Commission is required to make a report to the President not later than 120 days after receipt of the list with respect to each article in the list.

That report has now been made in respect of the lists of items, including those for Uruguay, which accompanied the public notices of November 5 and December 17, 1948, and the attached list contains the tariff concessions which the United States is prepared to offer in respect of the items on the Uruguayan lists.

The offers in the attached list are expressed in terms which will facilitate reference to United States import statistics; the items are identified by statistical class numbers in accordance with Schedule A, United States Department of Commerce Statistical Classification of Imports into the United States, September 1, 1946 edition, as well as by tariff paragraphs. In the final agreement slight variations in the language used may be necessary in order to have a definitive legal description of the product involved, but the coverage of products will not be changed.

Offers in this list which affect Cuban preferential margins are provisional pending consultations with the Delegation of Cuba. In each case in which Cuba at present enjoys a margin of preference, the Cuban rate is indicated under the most-favored-nation rate in the column headed "Present".

The United States Delegation desires to make clear that the offers of tariff concessions made by the United States are made (1) in the light of the requests for tariff concessions made by the United States upon the acceding countries, and (2) on the assumption that the tariff negotiations between the other governments participating in the Annecy negotiations will result in substantial benefits to the United States.

My dear Mr. Baldizan:

This will confirm that, as a consequence of the tariff negotiations between our Delegations, the understanding arrived at in respect of adjustments in the United States Tariff is as set forth in the schedule attached hereto.

ANNECY TARIFF CONFERENCE.

ANNECY.

Dear Mr. Arnow,

I have the pleasure to send you the attached Schedule of adjustments to the Uruguayan Tariff, as agreed with the United States Delegation in the course of our tariff negotiations.

The concessions offered by Uruguay are based on those offered by the United States, which appear as an enclosure to your letter dated today and which are satisfactory for my country.

The Uruguayan concessions are subject to the approval and ratification of the Constitutional organs of the Uruguayan Government.

They could also be the object of some readjustments, in the cases foreseen in paragraph 4 of the rules for the termination of negotiations, which appear in document TN 1/16, issued in the course of this Conference.

I wish to avail myself of this opportunity to express to you and to the other United States negotiators that it has been a great pleasure for us to carry forward our tariff negotiations with you on a basis of such competence and mutual comprehension, and that we hope that the agreement that has been reached will be of advantage to both our countries, for it has been negotiated by both Delegations within a spirit of cordial and reciprocal consideration.
