INTERIM AGREEMENT

Regarding the Results of the Tariff Negotiations 1960-61 Under Article XXVIII bis of the General Agreement on Tariffs and Trade

The Government of the United States of America and the Government of Japan,

Having carried out tariff negotiations pursuant to Article XXVIII bis of the General Agreement on Tariffs and Trade (hereinafter referred to as "General Agreement") at the 1960-61 Tariff Conference of the Contracting Parties to the General Agreement, and

Desiring to put the results of those negotiations into effect pending the entry into force of a protocol embodying the results of that conference,

Agree as follows:

1. The schedule of a party annexed hereto shall be applied by such party, as if that schedule were a schedule of such party to the General Agreement, thirty days after the date on which such party has given notice of such application to the other party, except as otherwise provided in that schedule.

2. A party which has applied its schedule annexed hereto in accordance with the provisions of Paragraph 1 shall have, however, the right to suspend or withdraw that application in whole or in part until such time as the other party gives such notice as provided for in Paragraph 1.

3. Each party may request the CONTRACTING PARTIES to the General Agreement to exercise, with regard to the concessions set forth in the schedule applied by a party in accordance with the provisions of Paragraph 1, the same functions as they would exercise if these concessions were concessions contained in the schedule of such party to the General Agreement.

4. This Agreement shall be approved by each party in accordance with its legal procedures, and shall enter into force on the date of exchange of notes indicating such approval.

5. This Agreement shall terminate at such time as a protocol referred to in the preamble which incorporates the schedules annexed hereto enters into force with respect to both parties.

GENERAL NOTES

1. The provisions of this Schedule are subject to the pertinent notes appearing at the end of Schedule XX (Geneva-1947) annexed to the General Agreement on Tariffs and Trade, as authenticated at Geneva on October 30, 1947.

2. Subject to the provisions of this Schedule, to the provisions of this Agreement, and to the provisions of section 350(a)(4)(B) and (C) of the Tariff Act of 1930, the rates specified in the rate columns in this Schedule will become effective as follows:

(a) Rates in Column A will become initially effective on the day provided therefor in the proclamation by the President of the United States to carry out the provisions of this Agreement; except that where two rates are specified in Column A with respect to any description of products, the second rate specified will become initially effective upon the expiration of a full period of one year after the first rate became initially effective. Rates in Column B will become initially effective in each case upon the expiration of a full period of one year after the related rate in Column A became initially effective, except that where two rates are specified in Column A with respect to any description of products, the rate in Column B will become initially effective upon the expiration of a full period of one year after the second related rate became initially effective. A rate shall be considered as becoming initially effective as indicated above even though such rate reflects no change in rate of duty, and notwithstanding duty on the product or products concerned is temporarily suspended.

(b) For the purposes of subparagraph (a) above, the phrase "full period of one year" means a period or periods aggregating one year exclusive of the time, after a rate becomes initially effective, when, by reason of legislation of the United States or action thereunder, a higher rate of duty is being applied.
