COPY NO...13...

TENTATIVE OFFERS BY NEW ZEALAND IN RESPONSE TO REQUESTS SUBMITTED TO NEW ZEALAND
BY FRENCH COLONIES FOR TARIFF CONCESSIONS.

It is to be understood that these offers are made without commitment and on the assumption that satisfactory offers will be received in return. In certain cases New Zealand tariff rates have been reduced at the expense of countries who previously received preferential treatment. In these cases it is also understood that the reductions proposed to be made by New Zealand are subject to satisfactory agreement respecting reciprocal concessions to such countries.

Where an offer is made to bind or reduce an existing rate (other than a British Preferential Rate) which is subject to surtax, it is the intention that the rate offered shall not be subject to surtax. If, in any such cases, the goods are liable only to prime duty (3 per cent ad. valorem) under the British Preferential Tariff, it is the intention to exempt those goods from such prime duty. Where goods are at present admissible free of duty (except prime) under the General Tariff and there is an offer to bind such free entry the prime duty will continue to be payable as long as similar goods admissible under the British Preferential tariff are also subject to prime.

TENTATIVE OFFERS BY NEW ZEALAND IN RESPONSE TO REQUESTS SUBMITTED TO
NEW ZEALAND BY FRANCE FOR TARIFF CONCESSIONS.

It is to be understood that these offers are made without commitment and on the assumption that satisfactory offers will be received in return. In certain cases New Zealand tariff rates have been reduced at the expense of countries who previously received preferential treatment. In these cases it is also understood that the reductions proposed to be made by New Zealand are subject to satisfactory agreement respecting reciprocal concessions to such countries.

Where an offer is made to bind or reduce an existing rate (other than a British Preferential Rate) which is subject to surtax, it is the intention that the rate offered shall not be subject to surtax. If, in any such cases, the goods are liable only to primage duty (3 per cent ad valorem) under the British Preferential Tariff, it is the intention to exempt those goods from such primage duty. Where goods are at present admissible free of duty (except primage) under the General Tariff and there is an offer to bind such free entry the primage duty will continue to be payable as long as similar goods admissible under the British Preferential Tariff are also subject to primage.

Dear Sir,

Following upon the termination of the bilateral stage of tariff negotiations between New Zealand and France, I am attaching a copy of the list of tariff concessions offered by New Zealand to France, on which provisional agreement was reached by the New Zealand and France tariff negotiating teams.

They are also subject to approval of the Government of New Zealand. Before the General Agreement embodying the concessions can be made effective, it must be ratified by the New Zealand Parliament.

Yours faithfully,

NEW ZEALAND DELEGATION.

Second Session

United Nations' Preparatory Committee
on Trade and Employment,
GENEVA.

SECRET.

18th October, 1947.

Dear Sir,

Following upon the termination of the bilateral stage of tariff negotiations between New Zealand and French Colonies, I am attaching a copy of the list of tariff concessions offered by New Zealand to French Colonies, on which provisional agreement was reached by the New Zealand and French Colonies tariff negotiating teams.

It is to be understood that such concessions are subject to any adjustment that may be required as a result of negotiations, as they are completed, with other countries at Geneva. They are also subject to approval of the Government of New Zealand. Before the General Agreement embodying the concessions can be made effective, it must be ratified by the New Zealand Parliament.

Yours faithfully,

(J.P.D. Johnsen.)

Leader, New Zealand Delegation.
