MEMORANDUM

TO: Executive Secretary, Preparatory Committee
of the U.N. Conference on Trade and Employment

FROM: H. Gerald Smith, Head, U.S. Negotiating Team
for Chile

There is attached a note handed on September 12 by the Vice-Chairman of the United States Delegation to the Head of the Chilean Delegation to which was attached a copy of the schedule of United States offers to Chile referred to in the note.

This note and list were exchanged for a note in corresponding terms and a list of the Chilean tariff offers to the United States.

DELEGATION OF THE UNITED STATES OF AMERICA

September 12, 1947

SECRET

My dear Mr. Faivovich:

This will confirm that, as a consequence of the tariff negotiations between our Delegations, the understanding arrived at in respect of the adjustments in the United States Tariff which were sought by Chile is as set forth in the schedule attached hereto.

The United States offers are made in consideration of Chile's offers, set forth in your letter to me of this date, which, subject to the commitment on the part of the Chilean Government as set forth in paragraph (A) following and confirmed in your letter, meet the requests of the United States in a generally satisfactory manner. These offers are subject to the approval of the President of the United States.

(A) With regard to passenger automobiles classified under Chilean tariff items 1463 to 1469, inclusive, the Chilean offer is generally acceptable except for passenger automobiles weighing over 1,500 net kilograms up to 1,632 net kilograms and having a C.I.F. value of over \$1,500 U.S. currency. On such cars the rate of duty offered by Chile is actually an increase as compared to the present rates, when all the charges involved in the customs clearance of such automobiles are taken into account. This is recognized by the Chilean Negotiating Team, and it is agreed that as soon as possible and not later than the coming into effect of the present agreement, the Chilean offer on passenger automobiles will be so modified that a reduction in the total customs charges proportionate to that which results from the application of the offered rates to passenger

automobiles

automobiles of other weights, will apply also to automobiles with a C.I.F. value of over \$1,500 U.S. currency and weighing over 1,500 net kilograms up to 1,632 net kilograms. This modification may be in one of the following forms:

(1) Apply the offered rate of 1.10 gold peso per net kilogram to passenger automobiles weighing from 1,001 up to 1,700 kilograms each, and apply the offered rate of 2.10 gold pesos per net kilogram to passenger automobiles weighing more than 1,700 kilograms each; or

(2) Establish an intermediate rate of 1.50 gold peso per net kilogram to apply to passenger automobiles weighing from 1,501 kilograms up to 1,700 kilograms, and apply the offered rate of 2.10 gold pesos per net kilogram to passenger automobiles weighing more than 1,700 kilograms each; or

(3) Apply the luxury tax of 15 percent of duty-paid value only to passenger automobiles with a C.I.F. value of more than \$2,000 U.S. currency.

With regard to cigarettes, dutiable under Chilean tariff item 263, the Chilean Government agrees that, from the date of the coming into force of the Agreement, cigarettes imported from the United States of America will not be subject to import duties or internal taxes higher than those applying to cigarettes imported from Cuba.

Furthermore, it is understood that the Chilean Government will study, as soon as possible, the possibility of granting to the United States further tariff concessions, in the form of a substantial reduction on Chilean tariff item 227, "Canned soups", and a binding of the present duty on tariff item 149, "Hops", in return for which the United States Government would be willing to remove the seasonal limitation of the tariff reduction offered to Chile on dried beans under tariff paragraph 765.
