EXPLANATION:

A specified rate under requests represents merely a ceiling rate and requests relating to preferences are based upon application of the "automatic rule"; for instance, a reduction of the M.F.F.N. rate to the level of the British preferential rate automatically provides that whatever lower rate may be applied to imports from

Explanation: (Cont'd)

British sources, the same shall be applied to imports from M.F.F.N. sources.

In cases in which the M.F.F.N. rate requested is higher than the British preferential rate but in which elimination of preference is also requested, the following alternatives are possible: (1) Reduction of M.F.F.N. rate to the British preferential level, (2) increase of the British preferential rate to equal the M.F.F.N. rate, or (3) establishment of identical rates at some point between the two extremes.

INITIATIVE OFFERS BY NEW ZEALAND IN RESPONSE TO REQUESTS SUBMITTED TO NEW ZEALAND
BY THE UNITED STATES FOR TARIFF CONCESSIONS.

It is to be understood that these offers are made without commitment and on the assumption that satisfactory offers will be received in return. In certain cases New Zealand tariff rates have been reduced at the expense of countries who previously received preferential treatment. In these cases it is also understood that the reductions proposed to be made by New Zealand are subject to satisfactory agreement respecting reciprocal concessions to such countries.

Where an offer is made to bind or reduce an existing rate (other than a British Preferential rate) which is subject to surtax, it is the intention that the rate offered shall not be subject to surtax. If, in any such cases, the goods are liable only to primeage duty (3 per cent ad. valorem) under the British Preferential Tariff, it is the intention to exempt those goods from such primeage duty. Where goods are at present admissible free of duty (except primeage) under the General Tariff and there is an offer to bind such free entry the primeage duty will continue to be payable as long as similar goods admissible under the British Preferential Tariff are also subject to primeage.

DELEGATION OF THE UNITED STATES OF AMERICA

Dear Mr. Gilpin:

Following the termination of the bilateral phase of tariff negotiations between the United States of America and New Zealand, I am sending to you herewith a copy of the list of tariff concessions offered by the United States of America to New Zealand. The tariff concessions shown on the attached list are those reached by the negotiating teams representing the two countries, and they are subject to any adjustment that may be required as the result of other negotiations as they are completed. They are also subject to the approval of the Government of the United States.

The description of the commodities shown in the attached list is on the basis of statistical language commodity descriptions, since negotiations were, for convenience, conducted on that basis. The commodity descriptions that will appear ultimately in the United States Schedule annexed to the General Agreement on Tariffs and Trade will, of course, be in the legal language of the United States Tariff Act.

Sincerely yours,

Winthrop A. Brown
Acting Chairman
U.S. Delegation

Mr. A. C. Gilpin,
Acting Executive Secretary,
U.N. Secretariat.
