

In conformity with the rules of the Tariff Conference 1956 the Swedish delegation submits the consolidated list of offers by Sweden to Benelux, Canada, Ceylon, Italy, Japan, United Kingdom, United States of America, Federal Republic of Germany and Austria.

The delegation wishes to state that the Swedish participation in these negotiations is founded upon the principles of Article 29 and the recognition of the special position of the countries with low or moderate tariffs as illustrated by paragraph 11 (c) of the rules of procedure adopted for this Conference by the Contracting Parties.

Because of the concessions already granted by Sweden in the course of the preceding tariff negotiations it has been difficult to find tariff items suitable to further reductions. The concessions therefore will be granted only after a careful examination of the offers of other countries.

Geneva, January 19, 1956.
