GENERAL AGREEMENT ON TARIFFS AND TRADE

1956 TARIFF NEGOTIATIONS - GENEVA

United States Tariff Concessions Agreed to in Bilateral Negotiations with Benelux Countries
(Subject to Approval by the President of the United States)

April 13, 1956

NOTE: The concessions listed below are subject to such modification as may be necessary in the light of bilateral negotiations still in progress between the United States and contracting parties other than the Benelux countries or of the final multilateral stages of the negotiations. Descriptions of products are subject to such changes in terminology as may be necessary in the translation of the statistical descriptions into definitive United States tariff nomenclature to be set forth in the consolidated United States schedule of concessions to be annexed to the 1956 Protocol of Supplementary Concessions.

Reductions in duty will be made in three annual stages, the first stage to become effective not later than June 30, 1956. In the event that any specified rate becomes effective and subsequently becomes ineffective by reason of action taken pursuant to paragraph 3(ii) of the said Protocol of Supplementary Concessions or any other reason, the later stages of reductions will not be made effective until the rate which became ineffective has been restored and has been in effect for a total period of one year.

The items identified by an asterisk (*) are under negotiation with another contracting party or parties and may therefore be subject to reconsideration in the light of the outcome of such other negotiations.

Items identified by two asterisks (**) are part of a classification other related parts of which are under negotiation with another contracting party or parties. Such items may therefore be subject to reconsideration in the light of the outcome of such other negotiations.

Concessions on items identified by three asterisks (***) are those which the United States undertaked to apply as compensation for action taken by the United States on August 18, 1955 pursuant to Article XIX of the General Agreement with respect to certain products described in Item 371 (first) of Part I in Schedule XX (Geneva-1947) of the General Agreement. In the event that the action taken by the United States on August 18, 1955 is modified or terminated by action which shall result in lower rates of duty for any of the said products described in the said Item 371 (first) of Part I in Schedule XX (Geneva-1947) of the General Agreement, the Government of the United States and the Government of the Kingdom of the Netherlands and the Belgo-Luxembourg Economic Union will consult promptly with each other regarding appropriate action to be taken with respect to the products identified by three asterisks (***), which action may, in the interest of maintaining a general level of reciprocal and mutually advantageous concessions, include compensatory adjustment by the Government of the Kingdom of the Netherlands and the Belgo-Lumembourg Economic Union in lieu of withdrawal by the Government of the United States of the concessions on the products indicated.
