GENERAL AGREEMENT ON TARIFFS AND TRADE

1956 TARIFF NEGOTIATIONS--GENEVA

United States Tariff Concessions Agreed To
in Bilateral Negotiations with
DENMARK

(Subject to Approval by President of the United States)

April 13, 1956

NOTE: The concessions listed below are subject to such modification as may be necessary in the light of bilateral negotiations still in progress between the United States and contracting parties other than Denmark or of the final multilateral stages of the negotiations. Descriptions of products are subject to such changes in terminology as may be necessary in the translation of the statistical descriptions into definitive United States tariff nomenclature to be set forth in the consolidated United States schedule of concessions to be annexed to the 1956 Protocol of Supplementary Concessions.

Reductions in duty will be made in three annual stages, the first stage to become effective not later than June 30, 1956. In the event that any specified rate becomes effective and subsequently becomes ineffective by reason or action taken pursuant to paragraph 3 (ii) of the said Protocol of Supplementary Concessions or any other reason, the later stages of reductions will not be made effective until the rate which became ineffective has been restored and has been in effect for a total period of one year.

Items identified by two asterisks (**) are part of a classification other related parts of which are under negotiation with another contracting party or parties. Such items may therefore be subject to reconsideration in the light of the outcome of such other negotiations.
