Sir,

I have the honour to inform you that Austria notifies no exceptions from the linear tariff reduction. Austria takes this attitude without prejudice to its right to modify its offers at a later stage for reasons of reciprocity in order to maintain a balance of mutual advantages. Furthermore, the notification that no exceptions from the linear tariff reduction are proposed, is subject to the final decision on which products were to be subject to the linear rule, and which should be dealt with in the agricultural negotiations.

Accordingly Austria offers to extend the linear tariff reduction to all items which in its view are not agricultural items. This offer is subject to the reservation on reciprocity referred to in the preceding paragraph.

I have also been instructed to inform you that Austria is ready to extend the linear tariff reduction to a certain

number ot items within the first twenty-four chapters of the Brussels nomenclature. The list of these items is contained in Annex I to this note.

Austria further proposes that a limited number of items included in chapters twenty-five to ninety-nine of the Brussels nomenclature should be dealt with in the negotiations on agricultural products. A list of these items is contained in Annex II to this note.

The proposals in the two preceding paragraphs do not prejudice the final position of Austria concerning the problem of drawing the dividing line between industrial and agricultural products for the purposes of the Kennedy-Round.

Accept, Sir, the assurances of my high consideration.

Sixth Round of GATT Trade Negotiations

SECRET

AUSTRIA

MODIFICATION OF OFFER

In accordance with established procedures (TN.64/~~SR.13~~ 82) Austria herewith submits a list of items in the industrial sector for which a modification of the originally presented offer (linear cut by 50 %) is considered. Such modification might prove necessary in order to reduce the imbalance of mutual advantages caused by the exceptions invoked by Austria's major trading partners.

The present list has therefore no final character and may be subject to further modification in the light of future negotiations which Austria is prepared to undertake with a view to safeguard reciprocity.

Note: Austria reserves its position on offers concerning BTN-Chapter 73 which will be specified in due course.

GATT - Kennedy-round
Schedule XXXII - AUSTRIA SECRET

1) Attached is the draft Schedule of concessions of Austria comprising the following lists:

A. Austrian offers under tariff chapters 1 - 99 (pages 1-129)
B. Additional offers under various tariff chapters (65 pages).

2) The final Schedule of Austria to be submitted by 19 June 1967 will contain, in a single list, the concessions under A and B, as mentioned above. The concessions will be put in the numerical order of the tariff items according to the nomenclature of the Austrian customs tariff. The wording of the concessions will be the same as proposed in the present draft Schedule of concessions, subject to possible amendments of a drafting character (see also para. 8 below).

3) Sub-items marked by an asterisk are not included in the Austrian offer. They have been placed on the offer list for technical reasons only in order to indicate clearly the range of products covered by the offer.

4) Except as is otherwise provided in this Schedule, the rate specified in the fourth column for each product provided for herein shall be effective from..... The rates for such product which shall be effective during the first, second, third and fourth years after this Schedule shall have become a Schedule to the General Agreement shall not exceed the final rate therefor by more than 80 per cent, 60 per cent, 40 per cent and 20 per cent respectively, of the difference between the base rate and the final rate.

5) As far as the items under chapters 28 - 39 in this draft Schedule are concerned, Austria will reduce the difference between the base rate and the final rate by 20 per cent. These reductions as well as the attainment of the final rate will be effectuated in accordance with the procedure agreed upon between the main participants.

6) The concessions on items covered by the Long-term Arrangement Regarding International Trade in Cotton Textiles will be put into effect in annual stages as indicated under paragraph 4 above after the acceptance of the prolongation of this Arrangement by its signatories. The validity of these concessions depends on the validity of the aforementioned Arrangement on Cotton Textiles.

7) The reductions of the tariff rates of concessions on items 73.01 and 73.04 - 73.16 will start at the same time when the rates applied at the date of the conclusion of the negotiations on the corresponding items in the Common External Tariff will be reduced by the ECSC and the EEC. These reductions will be put into effect in stages proportional to the aforementioned tariff reductions of the Communities.

8) Attached to the present draft Schedule of concessions is a list containing corrections of a drafting character. The items to which the corrections refer are indicated in the list. In the final Schedule of Austria to be submitted on 19 June 1967, these corrections will be incorporated into the wording of the items concerned.

SUGGESTIONS

Austrian delegation to GATT

CONFIDENTIAL

24 August 1965

AUSTRIAN SUGGESTIONS TO DEVELOPING COUNTRIES AS TO THEIR OFFERS IN THE KENNEDY ROUND

The Austrian Government wishes to make the following suggestions as to the offers which developing countries might make within their contribution in the Kennedy Round.

1. Tariffs

The reduction or binding of tariffs relevant to Austrian export interests wherever such concessions would be in conformity with the development aims of the participant developing country. Reductions should be contemplated particularly in cases where high tariff rates are at present applied.

2. Non-tariff barriers

Review and, as far as possible, removal of import restrictions and prohibitions, surcharges and burdensome formalities in connexion with the foreign exchange system.

3. Consultations

The Austrian Government considers that more detailed discussions could be held usefully with individual developing countries in consultations after the participant developing countries will have presented their offers.

MISSION PERMANENTE DE L'AUTRICHE
AUPRÈS DE L'OFFICE EUROPÉEN DES NATIONS UNIES
GENÈVE

No. 3956-A/65

Geneva, 16 September 1965

Confidential

Sir,

1. The enclosed list constitutes the agricultural offers of Austria at the present stage of the negotiations. On principle, Austria is ready to negotiate also on those agricultural items which are not contained in the present list.

2. Among the items contained in the offer list, no indication is made in many cases as to the extent of the envisaged tariff reduction. This means that Austria is ready to grant in the course of the negotiations reductions taking into account as far as possible the interests of its trading partners.

3. For a large number of items (essentially tropical products) the offer does indicate the extent of the envisaged tariff reduction. In these cases, Austria would, on principle, be ready to go in the course of the negotiations, beyond the extent of the offers envisaged in the present list.

4. When evaluating the scope of the present offer, it has to be born in mind that Austria has already bound the duty-free entry for quite a number of agricultural items

during earlier GATT tariff negotiations. For the convenience of delegations, a list of those items constituting an earlier contribution towards the objectives of the General Agreement in the agricultural sector, is annexed.

5. The competent Austrian authorities reserve the right to examine the question of the timing of their participation in effective negotiations on agriculture in the light of the results of the TNC meeting of today and to submit relevant proposals.

6. It is recalled that Austria has indicated, when tabling its industrial offers, that it considers for the purpose of the Kennedy negotiations a certain number of items contained in B.N. chapters 1 to 24 as industrial items. For these items the linear 50% offer of 16 November 1964 is valid.

Accept, Sir, the assurances of my highest consideration.

No. 2846-A/66

Geneva, 11th July 1966

C o n f i d e n t i a l

Sir,

1. The enclosed list contains the offers of Austria in the field of tropical products.

2. Among the items contained in the offer list, in a few cases no indication is made concerning the extent of the envisaged tariff reduction. This relates to items in respect of which it was not yet possible to propose a detailed description of products. Austria will reconsider these offers as soon as such detailed description of products will be made available by interested countries.

3. When evaluating the scope of the present offer, it has to be borne in mind that Austria has already bound the duty-free entry for quite a number of agricultural items including many tropical products at previous GATT tariff negotiations. A list of those items has been annexed to this Mission's note of 16 September 1965 (Ref. No. 3956-A/65) tabling agricultural offers of Austria.

Accept, Sir, the assurances of my highest consideration.
