CANADIAN DELEGATION

DÉLÉGATION DU CANADA

SECRET

November 16, 1964.

Mr. Eric Wyndham White,
Executive Secretary,
General Agreement on Tariffs
and Trade,
Villa "Le Bocage",
Geneva, Switzerland.

Sir:

I have the honour to transmit to you, in twenty-five copies in each of the English and French languages, the offer list of the Government of Canada for the 1964-65 Trade Negotiating Conference.

Since unlike other participating Contracting Parties Canada is tabling a positive offer, my Government is particularly concerned that other tabling participants to whom this list will be communicated will treat it with utmost secrecy. The Canadian Government will for its part take all steps to ensure the secrecy of lists of other participants.

Accept, Sir, the renewed assurances of my highest consideration.

N.A. Robertson,
Chief Negotiator for the
Government of Canada.

COPY NO. 1

C A N A D A

The attached schedule sets out in detail the tariff items on which Canada is prepared to offer at this time reductions in M.F.N. rates of duty in the context of the negotiating rules adopted by the Trade Negotiations Committee. Offers are expressed in terms of existing Canadian tariff items, and in most instances show the reduced rate of duty which is proposed. In cases where the proposed reduction applies to some but not all parts of a tariff item, only the parts subject to reduction are enumerated in the schedule. In respect of a number of items no rates of duty are shown. These items relate to products on which Canada is prepared to reduce tariffs if other countries do so also, but on which Canada is not in a position to make precise offers at this time.

The attached offers relate broadly speaking to the industrial products and raw materials covered by Chapters 25-99 of the Brussels classification, plus fish and certain major tropical products, but not including chemicals and a number of other items that are now under review by the Tariff Board. The Canadian Government wishes to receive pending reports from the Board before formulating offers on such items.

...2

All of the attached offers are of a provisional nature, contingent on a satisfactory overall final settlement including agricultural as well as industrial products. In respect of tropical products the offers of free entry under the M.F.N. tariff, and the consequential removal of existing margins of British preference, are contingent on sufficiently broad action being taken in this field to compensate Canada's preferential suppliers for their loss of preferences.

Canada's offers in respect of temperate agricultural products will be submitted at a later date in the light of decisions yet to be taken by the Trade Negotiations Committee.

As regards products included in the schedule without showing rates of duty, two groups require comment. These are (a) motor vehicles and parts thereof, and (b) machinery items 427, 427k(1), 427m(1) and 446k(1). In the case of motor vehicles and parts, a comprehensive review of the industry is now in progress. In the case of machinery items 427, 427k(1), 427m(1) and 446k(1), Canada is prepared to reduce the M.F.N. duty to 20 p.c., or to consider as an alternative during the course of the negotiations broader proposals involving these items and the corresponding items relating to machinery of a class or kind not made in Canada.

...3

In respect of beer, wine and spirits, it is proposed to amend Canadian tax legislation so that excise duties and taxes will apply equally to domestically-produced and imported goods. The rates of customs duty set out in the attached schedule represent the proposed level of protection, and would be additional to any internal taxes which might be levied equally on domestic and imported products.

As regards all products listed in the schedule, Canada reserves the right to stage reductions over the same period as other contracting parties.

CANADIAN DELEGATION

DÉLÉGATION DU CANADA

SECRET

COPIE N° 58

Le 16 novembre 1964

Monsieur Eric Wyndham White
Secrétaire exécutif
Accord général sur les tarifs
douaniers et le commerce
Villa "Le Bocage"
Genève, Suisse

Monsieur,

J'ai l'honneur de vous transmettre vingt-cinq copies dans les langues française et anglaise de la liste d'offres du Gouvernement du Canada pour la Conférence des négociations commerciales 1964-65.

Puisque, à la différence d'autres parties contractantes à la Conférence, le Canada dépose une liste d'offres positives, mon Gouvernement attache la plus grande importance à ce que les autres pays qui ont aussi déposé leurs listes et à qui la liste canadienne doit être communiquée en assurent le secret le plus absolu. Le Gouvernement du Canada, pour sa part, prendra toutes les mesures nécessaires pour assurer le secret des listes des autres pays participants.

Veuillez agréer, Monsieur, les assurances de ma haute considération.

Le chef négociateur pour le
Gouvernement du Canada,

N.A. Robertson

SECRET

COPIE N° 58

C A N A D A

La liste ci-jointe énonce en détail les postes tarifaires sur lesquels le Canada est, à l'heure actuelle, disposé à offrir des réductions du tarif de la nation la plus favorisée dans le contexte des règles de négociation adoptées par le Comité des négociations commerciales. Les offres sont exprimées en fonction des tarifs canadiens actuels et font voir, dans la plupart des cas, le taux réduit de droit qui est proposé. Dans les cas où la réduction proposée s'applique à certaines parties d'un poste tarifaire, mais non à toutes, la liste énumère seulement les parties sujettes à réduction. Pour ce qui est d'un certain nombre de postes, le taux du droit n'est pas indiqué. Ces postes ont trait aux produits sur lesquels le Canada est prêt à réduire les tarifs pourvu que d'autres pays en fassent autant, mais au sujet desquels le Canada n'est pas en mesure de faire d'offre précise pour le moment.

De façon générale, les offres ci-annexées se rapportent aux produits industriels et aux matières brutes prévus par les Chapitres 25 - 99 de la nomenclature de Bruxelles, ainsi qu'aux produits du poisson et à certains produits tropicaux importants, mais sans inclure les produits chimiques et certains autres produits qui sont

.../2

actuellement à l'étude par la Commission du Tarif. Le Gouvernement du Canada désire recevoir les rapports qui doivent être présentés par la Commission avant de formuler des offres au sujet de ces produits. Toutes les offres ci-jointes ont un caractère provisoire, étant subordonnées à la conclusion d'un règlement définitif d'ensemble satisfaisant et portant sur les produits agricoles aussi bien que sur les produits industriels. En ce qui concerne les produits tropicaux, les offres d'entrée en franchise en vertu du tarif de la nation la plus favorisée, et l'abolition des marges existantes de la préférence britannique qui en est la conséquence, sont subordonnées à l'adoption de mesures suffisamment générales dans ce domaine pour compenser les fournisseurs préférentiels du Canada de la perte des préférences.

Les offres du Canada à l'égard des produits agricoles tempérés seront présentées plus tard, à la lumière de décisions à prendre par le Comité des négociations commerciales.

Quant aux produits inclus dans la liste sans indication de taux de droit, deux catégories appellent des commentaires. Ce sont (a) les véhicules à moteur et leurs pièces, et (b) les postes de machines 427, 427k(1), 427m(1) et 446k(1).

Dans le cas des véhicules à moteur et de leurs pièces, un examen approfondi de l'industrie se déroule

.../3

actuellement. Dans le cas des postes de machines 427, 427k(1), 427m(1) et 446k(1), le Canada est disposé à réduire le tarif de la nation la plus favorisée à 20 p. 100, ou, alternativement, à considérer au cours des négociations des propositions plus étendues au sujet de ces postes et des postes correspondants relatifs aux machines d'une catégorie ou espèce non fabriquée au Canada.

Pour ce qui est de la bière, du vin et des spiriteux, il est proposé de modifier la législation fiscale canadienne de façon que les droits et les taxes d'accise s'appliquent, à titre égal, aux marchandises nationales et aux marchandises importées. Les taux de droit indiqués dans la liste ci-jointe représentent le niveau proposé de protection, et s'ajouteraient à toutes taxes intérieures qui pourraient être établies, à titre égal, sur les produits nationaux et sur les produits importés.

En ce qui concerne tous les produits énumérés dans la liste, le Canada se réserve le droit d'échelonner les réductions sur la même période que les autres parties contractantes.

CANADIAN DELEGATION  DÉLÉGATION DU CANADA

SECRET

November 16, 1964.

Mr. Eric Wyndham White,
Executive Secretary,
General Agreement on Tariffs
and Trade,
Villa "Le Bocage",
Geneva, Switzerland.

Dear Mr. Wyndham White:

I wish to refer to my letter of November 16th with which fifty copies of the Canadian offer list were tabled.

It is my understanding that the Canadian list will be circulated only to those Delegations that are also tabling their lists today and will not be communicated to other participating countries without our prior approval.

Yours sincerely,

N.A. Robertson,
Chief Negotiator for the
Government of Canada.

Geneva, May 12, 1966.

Mr. Eric Wyndham White,
Director General,
General Agreement on Tariffs and Trade,
Villa "Le Bocage",
Geneva, Switzerland.

Dear Sir:

Trade Negotiating Conference

I have the honour to transmit to you, in fifty copies in each of the English and French languages, an addendum to the Canadian offer on industrial products tabled November 16, 1964.

As in the case of the offers transmitted on November 16, 1964 and September 16, 1965, my Government is concerned that other tabling participants to whom the attached addendum will be communicated will treat it with the utmost secrecy.

Accept, Sir, the renewed assurances of my highest consideration.

S.D. Pierce
Head of the Canadian Delegation.

Conférence des Négociations Commerciales

Monsieur,

J'ai l'honneur de vous transmettre un addendum à la liste d'offres industrielles du Gouvernement du Canada transmise le 16 novembre, 1964. Je vous en envoie cinquante copies en langue française et en langue anglaise.

Mon Gouvernement attache la plus grande importance, comme dans le cas des listes transmises le 16 novembre, 1964 et le 16 septembre, 1965, à ce que les autres pays qui ont aussi déposé leur liste et à qui le présent addendum doit être communiqué en assure le secret le plus absolu.

Veuillez agréer, Monsieur, les assurances de ma haute considération.

Le chef négociateur pour le
Gouvernement du Canada,

S.D. Pierce

CANADIAN DELEGATION

DÉLÉGATION DU CANADA

7, rue des Alpes,
GENEVA, Switzerland.

CONFIDENTIAL

June 27, 1966.

Mr. Eric Wyndham White,
Director General,
General Agreement on Tariffs and Trade,
Villa "Le Bocage",
Geneva, Switzerland.

Dear Mr. Wyndham White:

In the covering note to the Industrial Offer which Canada tabled on November 16, 1964, it was noted that the Canadian Government wished to receive from the Tariff Board a pending report relating to chemicals and allied products before formulating Kennedy Round offers on such items.

The Canadian Government has now received the first volume of the report containing a recommended new schedule of tariff items based on the Brussels Nomenclature, together with rates of duty proposed by the Tariff Board. Subsequent volumes containing explanatory material will become available in due course.

In view of the tight timetable for the remaining Kennedy Round negotiations, I think that it may be of interest and value to a number of contracting parties to receive copies of the recommended new chemical schedule at this time, so that they will have an opportunity to examine it during the period when it is under consideration by the Canadian Government, and in advance of the submission of Canadian offers on chemicals. Accordingly, I am sending you herewith sixty copies (in English and French) of the report in question. If you agree that it would be advisable to do so, I would welcome your forwarding a copy of the report together with a copy of this letter to each contracting party participating in the Kennedy Round negotiations. Additional copies will be made available if required.

Yours sincerely,

S. D. Pierce
Head of the Canadian Delegation.

The Honourable Mitchell Sharp, P.C., M.P.,
Minister of Finance,
Ottawa, Ontario.

Dear Mr. Sharp:

I refer to Mr. Harris's letter of September 21, 1956 and to Mr. Fleming's letters of October 11, 1957 and December 21, 1959 in which the Tariff Board was requested to conduct an inquiry respecting chemicals.

In conformity with Section 6 of the Tariff Board Act, I have the honour to transmit Volume 1 of the Report of the Board, in English and in French. This volume contains the Recommended Schedule. Further volumes will be forwarded to you as soon as they have been completed.

A copy of the transcript of the proceedings at the public hearings accompanies this first volume of the Report.

Yours sincerely,

Chairman

INTRODUCTION TO VOLUME ONE

Prefatory Note

By its amplitude and complexity alone, Reference 120 - Chemicals presented to the Board quite unprecedented problems. Public hearings were held in Ottawa beginning on May 2, 1960, and ending on June 25, 1963; the hearings covered, in all, 174 days. Much information was obtained at the public hearings; over 1200 submissions were filed on behalf of 370 persons, partnerships, companies or associations to deal with over 1600 named chemicals; the stenographic transcript of the proceedings extends to more than 5,500,000 words covering over 28,500 pages. A great profusion of exhibits was received. Information has also been gathered from official sources, from other Government departments and from commercial sources. The Industry Committee, the members of the chemical industry, the consumers of its products and many others also contributed much to the fund of knowledge needed for this study. Board members and senior staff visited more than 150 industrial establishments throughout the country which either produce or use the products of the chemical industry.

To prepare a report of the nature usually submitted to the Minister of Finance in similar matters has involved a considerable lapse of time; to withhold publication until all parts are complete would involve additional time which would seriously undermine the value of the report.

There are developments in the field of international trade and within industry which give urgency to the preparation of a report at the earliest possible moment.

Because of the great urgency in the tariff negotiations now under way in Geneva, the Board has deemed it essential to depart from its usual custom of transmitting to the Minister of Finance at one time the report with its Summary and Conclusions, its Recommended Schedule and its Notes on Existing Items and on Recommended Items.

Instead of following its usual practice it is publishing now, as a first volume, the Recommended Schedule; as soon as is possible it will publish a second volume containing additional summary information; thereafter it will publish the text of its report on chemicals and the chemical industry.

The Board is fully aware that this order of publication is fraught with many difficulties for many people; however it is equally aware that, in all the circumstances, to delay publication of the Recommended Schedule any longer would create greater difficulties for the producers of chemicals, the consumers of chemicals and the negotiators in Geneva.

The Scope of the Reference

The report deals with the Board's inquiry and findings on that portion of Canada's Customs Tariff relating to chemicals. In very broad terms it can be said to cover basic organic and inorganic chemicals, coal tar products, dyes, pigments, paints, industrial alcohols, fertilizers, insecticides, fungicides, disinfectants, explosives, detergents, anti-freeze preparations and a large number of miscellaneous preparations, synthetic resins and products made therefrom and chemicals used in the production of soaps, detergents and rubber; it does not cover petroleum products, adhesives not made from synthetic resins, toilet preparations nor pharmaceutical products.

The more exact scope of the reference is set out in three letters from the Minister of Finance dated September 21st, 1956, October 11th, 1957 and December 21st, 1959. The text of these three letters is reproduced here for convenience of reference:

First Letter of Reference

"Some time ago I announced that it was my intention to refer to the Tariff Board a section of the Customs Tariff relating to chemicals. Since then a number of suggestions regarding the scope of such a reference have been received and have been carefully considered.

I have come to the conclusion that it is desirable to refer to the Board the various tariff and drawback items which relate, broadly speaking, to basic industrial chemicals, coal tar products, dyes, pigments and paints, industrial alcohols, fertilizers, insecticides, fungicides, disinfectants, explosives, and chemicals for use in producing soaps, detergents, and rubber. I have decided not to include in the reference items relating to petroleum products, adhesives, toilet preparations and pharmaceutical products.

I therefore direct the Tariff Board to make a study and report, under section 4(2) of the Tariff Board Act, on the following items in Schedules "A" and "B" of the Customs Tariff:

It is my intention that the Board include in its study also Item 156(f) with reference to ethyl alcohol, Item 345 with reference to sal ammoniac skimmings, Items 208t and 711 in so far as they relate to chemicals, and similarly other items if the Board considers them relevant to its enquiry.

This reference includes a number of items which relate to chemicals used to an important extent in the plastics industry. Plastics were the subject of a Tariff Board enquiry only a few years ago, and a new plastics schedule recommended by the Board was approved by Parliament in 1952. Following a further reference to the Board, the items covering certain plastics were revised only a year ago. Accordingly, it is not my intention to ask you to undertake any general review of the plastics schedule at this time. I recognize, however, that the Board may make recommendations with respect to certain chemicals which, if adopted, might raise the question of consequential adjustments in one or more of the plastics items. If in the course of its enquiry the Board should become convinced that any such item requires re-examination in relation to possible changes in the chemicals schedule, I shall be glad to consider any suggestions that the Board may make in that regard.

If the Board's study should indicate that amendments to the Customs Tariff are desirable, I would request the Board to prepare a revised schedule of tariff items relating to chemicals, with recommendations as to rates of customs duty, and to include the proposed schedule in its report.

In preparing the proposed schedule I would expect that the Board would have regard to the rates of duty applicable to other related or comparable products.

In drawing up a revised schedule the Board should keep in mind the obligations and procedures of the General Agreement on Tariffs and Trade. In this regard it is recognized that certain adjustments in margins of preference may be involved; however, no general change in preferential margins is contemplated at this time.

Yours sincerely,

W.E. Harris"

Second Letter of Reference

"In Reference No. 120 the Tariff Board was directed to study and report on various tariff items relating to chemicals. On reviewing this matter I have come to the conclusion that it would be desirable to expand the scope of the reference in question to include certain other tariff items which for the most part relate to synthetic resins and products made therefrom.

I therefore would ask that the Tariff Board include in the study and report which it was directed to make by Reference No. 120, the following items in Schedule "A" to the Customs Tariff:

207c	903	907	912	917
654a	904	908	913	918
660a	904a	909	914	919
901	905	910	915	920
902	906	911	916	924a
				924b

Yours very truly,

Donald M. Fleming"

Third Letter of Reference

"Under Reference No. 120 the Tariff Board was directed to study and report on various tariff items relating to chemicals. Recently I have considered representations from the Canadian Chemical Industry regarding the scope of this Reference, and have come to the conclusion that the Reference should be expanded to include certain other items of interest to the industry.

I, therefore, direct the Tariff Board to include in the study and report which it was directed to make by Reference 120, the following items in Schedule "A" to the Customs Tariff:

the following items in their entirety:

207d, 208h, 208y, 208z, 210f, 219d, 220f, 237, 238, 246d, 247b, 253, 256, 256a, 257, 260, 261, 264b, 264c, 295c, 296b(2), 296c, 296e, 326q, 335, 446f, 490a, 577, 761, 805, 822, 857, 863 and 875a.

the following items in so far as they relate to chemicals or plastics:

269, 316b, 326d, 326f, 476b and 490.

The foregoing additions to the scope of Reference 120 are not to be construed as affecting the authority conferred upon the Board by the original terms of reference to include in its study items 208t and 711 in so far as they relate to chemicals, and similarly other items if the Board considers them relevant to its enquiry.

Yours sincerely,

Donald M. Fleming"

In accordance with its power to include in its study other items the Board considers relevant to its inquiry, the Board added the following items in published notices: 208t in so far as it relates to plastics, 209e, 209f, 210h, 210i, 216d, 220g, 247a(1), 263e, 347e, 585a, 658b, 660b, 681d, 711 in so far as it relates to plastics, 875b and 924c. Certain other items have come to apply to products formerly dutiable under items within the Reference, or are otherwise so closely related to the goods under consideration, that the Board has had to deal with them in the course of this investigation. These items include: *11, *39e, *40, *42a, *90f, *153b, *159b, *206, *211, *216e, *216f, *220h, *224, *237a, *246e, *295a, *296b(1), *333, *334, *584, *585, *669 and *671. To retain the full meaning of its Recommended Items, the Board also has recommended the relocation of certain products, without change in rates of duty. Tariff items 660a and 660b are the subject of recommendations by the Board in its Report on Reference 133 dealing with Machinery and Apparatus used by the Printing Industry. Tariff items 157e, 208h, 208z, 209f, 210f, 220g in the form in which it stood at the time it was added to the Reference, 585b, 866 and 867 have expired or have been cancelled. In his first letter of reference the Minister requested the Board to include in its study item 345 with reference to sal ammoniac skimmings; this tariff item has since been amended to exclude sal ammoniac skimmings which are now classified in tariff item 210h.

Nomenclature

Even to those with only a very cursory knowledge of the subject matter of the Reference, its extraordinary magnitude and complexity are obvious. Over 200 tariff items are involved. At the outset it was necessary to consider some appropriate organization or division of the Reference for study; this was also necessary for the purpose of scheduling the public hearings so as to combine full opportunity for public discussion with a minimum of inconvenience to all interested parties.

Proposals for this purpose were made publicly to the Board, early in 1960, by "The Industry Committee for the Study of Tariff Reference No. 120 - Chemicals". For ease of reference this Committee will be designated as the Industry Committee; it was formed of representatives of producers from the Canadian chemical industry. Though the Board seeks to avoid personal references to those appearing before it, nevertheless it cannot refrain from stating its gratefulness to the Industry Committee for much valuable work of assistance to the Board, to the public and, in many instances, even to those opposing the views of the Industry Committee. The tact, public responsibility and correctness of attitude of the Committee's Chairman, Mr. J.A. Davis, and of its Vice-Chairman, Mr. D.F. Gray, were such that they cannot be passed over without praise and public acknowledgment.

The Industry Committee's proposals for scheduling the hearings involved broadly a division of products as defined by headings of the Nomenclature For The Classification Of Goods In Customs Tariffs, 1955, devised in Brussels by the Customs Co-operation Council and more commonly known as the Brussels Tariff Nomenclature. Because of the basic suitability of the Brussels Nomenclature for this purpose and in the absence of other proposals, the Board adopted it generally as a basis for the arrangement and division of the public hearings relating to the Reference; it provided a logical, orderly and convenient general division for the public hearings.

The Board in its Schedule of Recommended Items has also followed closely the text of those portions of the Brussels Nomenclature relating to the scope of this Reference. For convenience of reference the Board has designated those Recommended Items it has drawn from the Brussels Nomenclature by the four digit numbers characteristic of the Nomenclature to indicate their source. In a further series of Recommended Items, prefixed by the letter R, the Board has dealt with those portions of the Reference not included within the Recommended Items drawn from the Brussels Nomenclature.

The nature of the Board's recommendations on nomenclature is such that one preliminary clarification is essential. It is no part of the Board's terms of reference in this study to consider the revision of the entire Canadian Customs Tariff in the form of the Brussels Nomenclature or in any other form; nor, indeed has the Board given any consideration at all to any such general revision in nomenclature. It has, within the confines of its terms of reference, considered the language of the Brussels Nomenclature to determine its usefulness in the particular field of the products under review and it has reached the conclusion that, in this field, it should recommend a series of tariff items drawn from the Brussels Tariff Nomenclature. This conclusion does not carry with it the slightest implication favourable or unfavourable to the revision of our entire Customs Tariff in the form of the Brussels Tariff Nomenclature or otherwise. In its repeated mention of the Brussels Tariff Nomenclature the Board refers only to those portions of this Nomenclature which are applicable to the actual scope of the present Reference.

In March, 1964, 69 countries of the world were using the Brussels Nomenclature and 15 additional countries were in process of introducing it into their tariffs. It is consequently a very widely accepted basis for the systematic classification of chemicals and other goods. Because of its widespread use in many different countries it becomes akin to a lingua franca; interpretations and modifications, made by convention or in individual countries, are useful to all who have enacted their customs legislation in the same lingua franca.

Industrial usage of language, even among highly trained specialists, is often amazingly loose and inaccurate. The Brussels Nomenclature, by its broad usage and logical groupings of products, provides some measure of protection from the perils arising from loose industrial usage of language.

For a country like Canada where both French and English are official languages, the Brussels Nomenclature has further advantages. The more obvious one is the existence of official versions of the Nomenclature in English and in French. A further advantage is the existence of translations into the many other languages of the countries which have adopted the Nomenclature.

In proposing its recommended schedule the Board has therefore followed very closely the text of the Brussels Nomenclature; in some places it has had to introduce variations for special reasons but it has sought to make as few such variations as possible.

To ensure that reference may be made to the Brussels Nomenclature and to the Explanatory Notes to the Brussels Nomenclature for clarification the Board is recommending an amendment to Section 2 of the Customs Tariff empowering the Governor in Council to prescribe rules and explanatory notes for the interpretation of the new Recommended Schedule; these rules and explanatory notes would be guided by the Nomenclature and the Explanatory Notes.

Rates and their Determination

Throughout the Reference there was often a sharp divergence of view between the producer and the consumer concerning the application of higher rates of duty and their effects.

The producer, in his plea for tariffs, often argued that by his acquisition of a larger share, or of the totality, of the domestic market, his costs and consequently his prices could be reduced and that consequently advantage of the full tariff rate would not necessarily be taken in establishing domestic prices.

The consumer, with a caution that can hardly be deemed excessive, was generally more than reluctant to give support to this view. Indeed he was distinctly apprehensive that domestic prices would generally reflect, in some degree at least, the addition of the customs duty to the cost of imports. As a result, many users of chemicals opposed higher rates on the ground of consequential increases in their own costs for materials. In some cases the consumers of chemicals were prepared to acquiesce in higher rates on the products of their material suppliers if compensating increases in rates were applied to their products; the effect of such acquiescence, if the original apprehension is founded, is, of course, merely to pass on the increase, somewhat compounded, to the ultimate consumer and, presumably, to hinder the expansion of the market for the products.

The ultimate consumer was seldom heard at the public hearings; his interests are rarely the subject of well-documented briefs which can usually be prepared only at some expense. However the Board is aware both of his needs and of the difficulty he has in making them known; in consequence the Board endeavours to weigh his needs in the scale.

In his first letter of reference, the Minister gave the Board a directive concerning the margins of preference between the British Preferential Tariff and the Most-Favoured-Nation Tariff. The directive given was that no general change in preferential margin was contemplated.

Even a rather general maintenance of existing preferential margins naturally engenders certain difficulties in recommending appropriate rates for some products. The Board has interpreted the directive to mean that, in general, margins of preference will remain unchanged unless there are special reasons to alter them. The Board has tried to avoid changes but where circumstances required them it has recommended accordingly.

Because of the ministerial directive, because of potential future production and because of the intricate web of all the preferences the Board, in the cases now under discussion, has recommended either the continuation of the existing margin of preference or the introduction of another margin of preference instead of free entry under both Tariffs as was not infrequently urged.

However, the omission, in these cases, of a recommendation for free entry under both Tariffs is not intended as a recommendation against the granting of a temporary item for this purpose, particularly if subsequently it is made to appear that a particular chemical not produced in Canada nor competitive with a Canadian-made product is of little or no interest to producers in countries entitled to the benefit of the British Preferential Tariff. Indeed, such provisions would tend to reduce the costs of the Canadian industry and facilitate adjustment to some of the lower rates of duty contained in the Board's recommendations.

The industry's general proposal on rates was that uniform rates of 15 p.c. under the British Preferential Tariff and 20 p.c. under the Most-Favoured-Nation Tariff should be applied to all chemicals unless it is established that other rates are more appropriate for specific chemicals or groups of chemicals.

Part of the industry's case for this proposal was founded upon the application of these rates in tariff item 711 on "all materials of any nature unless specific provision is made in the Tariff to the contrary". From this enactment in tariff item 711, the Industry Committee urged the Board to conclude that Parliament intended rates of 15 p.c. and 20 p.c. to be the rates of general application in the Canadian Customs Tariff; it further urged the Board to regard the rates established by all the other tariff items to be exceptions to the general rule established by Parliament.

The Board has not, for the purpose of this report, considered the rates established by tariff item 711 to be an expression of Parliament's view that such rates are those to be considered appropriate for general application; rather has it taken the view that Parliament has given consideration to the Customs Tariff rates which should be applicable to goods imported into the country and, item by item, fixed these rates and then established the rates of tariff item 711 not as a general rule, but as a rather exceptional case for those goods for which provision was not made, whether by inadvertence, or because of the fact that their existence was not known at the time of legislation or for some other reason.

In its study the Board proceeded without any preconceived principles of rate structure. As its study advanced it became clear to the Board that it was generally tending towards the recommendation of rates of Free and 15 p.c. for those chemicals unavailable from Canadian production and rates of 10 p.c. and 15 p.c. for those available from Canadian production at the time of its study.

These rates are no longer dependent on administrative rulings relating to Canadian production; consequently they tend to give greater clarity and simplicity to the chemicals tariff. They appear to the Board to be adequate. Under the Board's recommendations, it envisages changes arising from the initiation of Canadian production being made, as required, through the budgetary proposals laid before Parliament from time to time.

Though there was the constant proposal for rates of 15 p.c. and 20 p.c. there was not equally constant clarity of evidence of the suitability of such rates.

The Board's recommendations tend towards a moderate reduction in rates except in the field of plastics; in some degree the producers of chemicals are compensated for this reduction in rates by the elimination of certain end-use items and by the lower rates on many of their materials. In plastics and the other products now covered by tariff items 901 to 925, Canadian production has become much broader and more varied than it was when these tariff items were enacted; in this area, the Board's recommendations tend towards an increase in rates.

Distinctions Between Products Made And Not Made In Canada

Much was said during the hearings about the distinction frequently made in the Canadian Customs Tariff between the tariff status of products when they are of a class or kind made in Canada and when they are not of a class or kind made in Canada. The distinction is made through varying forms of nomenclature: "class or kind", "kind", "types or sizes", "types and sizes", "type", "of colours and/or texture", "not manufactured in Canada up to the required standard", "built outside of Canada", "when not made in Canada", etc.

The Industry Committee and many members of the industry sought to avoid the use of either the phrase "class or kind" or the word "kind", advocating, in lieu of either, the use of the word "class". In support of this position quite lengthy representations were made which indicated not only dissatisfaction with the results of the existing distinction but also considerable uncertainty as to how it might be improved in the field of chemicals. This dissatisfaction and uncertainty appear to stem less from the precise word or phrase used in items relating to chemicals not made in Canada than from the very great difficulty, if not the impossibility, in many cases, of determining whether a chemical should be treated as being of a category made in Canada, and also from the almost inevitable disputes which, in the very nature of the case, must arise, in deciding whether a commodity of a particular grade or type, when offered for import, is sufficiently similar to, or competitive with, one or more chemicals produced in Canada.

So great was this difficulty considered to be, in the field of chemicals, that the industry eventually proposed the establishment of an administrative body to determine whether or not any imported chemicals should be made dutiable as being of a category made in Canada.

In its consideration of this problem the Board is directing its attention only to the portion of our Customs Tariff dealing with chemicals; it is therefore reluctant to introduce into our Tariff the word "class", with a rather special meaning involving both quite broad similarity and competitive substitutability, when it is so frequently used elsewhere in the Tariff without the same meaning. To attempt the substitution of "class" for "kind" in order to introduce a special concept in a restricted area is fraught with double peril: it would probably fail in its purpose and it might well have undesired effects elsewhere in the Tariff.

The Recommended Items in the Schedule are made without provision for the distinction between chemicals of a kind produced in Canada and those of a kind not produced in Canada. This distinction, in relation to the products which are the subject of this inquiry, is productive of perplexity and conflict and the automatic application of higher rates has had the effect, at times, of encouraging uneconomic duplication of productive facilities.

However, where products were known to be produced in Canada, the Board, as noted above, has endeavoured generally to recommend for them, a rate of 10 p.c. under the British Preferential Tariff, and a rate of 15 p.c., under the Most-Favoured-Nation Tariff; where such products were not known to be made in Canada, it has generally recommended free entry under the British Preferential Tariff and 15 p.c., under the Most-Favoured-Nation Tariff. This generalization is subject to many exceptions for a number of different reasons.

Throughout the hearings the attention of the Board was often drawn to the fact that the duty on materials used in the production of goods for export could be recovered by way of drawback.

However, for a number of reasons it appears that though drawback benefits may be very real in some cases, they may be illusory or partly illusory in others.

End-Use

In the Canadian Customs Tariff there are a large number of items providing for free entry, or occasionally for entry at rates different from those generally provided, when goods are imported for a specified use. These special tariff provisions and the principle underlying them are now generally identified by the words "end-use". There are also certain items, not strictly end-use items, that provide for free entry or entry at low rates for certain goods described as being suitable or adapted for certain uses.

Within its terms of reference, the Board recognizes the existence of end-use provisions in some 100 end-use items and four drawback items for certain specific end-uses in which some thirty end-use criteria are employed. End-use treatment of chemicals dates as far back as 1906, when the Customs Tariff in its present form became effective.

Within the scope of the reference the benefits from end-use treatment are widespread and extend to adhesives, agriculture, anaesthetics, artificial jewellery, battery manufacture, brushes, building materials, ceramics, colour manufacture, cutlery, disinfectants, electrical apparatus and supplies, explosives, fertilizers, hand tools, herbicides, highway maintenance, insulating materials, iron and steel products, leather products, mining, other chemicals, paints, pesticides, petroleum products, pharmaceuticals, photographic films, plastics products, plywood, primary plastics, printing, rubber products, safety glass, salt mining and manufacturing, sheet metal products, sugar refining, soap, detergent and glycerine manufacture, synthetic rubber, tanning, textiles and vegetable oil refining.

In its approach to the question of end-use items, the Board has recognized that certain end-use items are beneficial to the Canadian economy and must be retained. Certain other end-use items can clearly be eliminated without ill effect because they are no longer of commercial significance; the chemicals they encompass are no longer important or the reason for their introduction no longer exists.

For the other end-use items there is conflict relating to their abolition, continuation or initiation; the Board has made a deliberate effort to reduce their number.

To expedite the immediate publication of the essence of its recommendations the Board confines its observations to the foregoing for the moment. The general issues dealt with in this note will be the subject of more detailed presentation later.

Unless otherwise indicated, the recommended rates of duties set opposite to each item are expressed in percentages.

A list of the tariff items and drawback items in the Board's recommendations follows.

4. That the following Extracts from tariff items, with their enumerations of goods and rates of duty be deleted by amendment of Schedule A to the Customs Tariff:

Ex. 166:	Acetone
Ex. 166:	Amyl acetate
Ex. 208t.	Permanganate of potash
Ex. 208t:	Mono-glyceride emulsifiers
Ex. 208t:	Wollastonite
Ex. 208t:	Cobalt metal, in lumps, powder, ingots, blocks or bars
Ex. 213:	Vinegar
Ex. 216:	Chromium trioxide, dihydroxydiphenal sulphone, monobutyl phenylphenol sodium monosulfonate, phenol sulphonic acid and stannous sulphate, imported for use exclusively in the production of tin plate

Ex. 216: Formic acid
Ex. 220a: Hydrolized animal matter for use as retarder for calcined gypsum
Ex. 662: Tankage
Ex. 711: Synthetic wax
Ex. 711: Higher fatty alcohols, unsulphated, when imported by manufacturers of synthetic detergents for use exclusively in the manufacture of synthetic detergents in their own factories
Ex. 711: Monoglyceride emulsifiers
Ex. 711: Wollastonite
Ex. 711: Hydrolized animal matter for use as retarder for calcined gypsum
Ex. 711: 21600-2: Chromium trioxide, dihydroxydiphenyl sulphone, monobutyl phenylphenol sodium monosulfonate, phenol sulphonic acid and stannous sulphate, imported for use exclusively in the production of tin plate.

That the following drawback items, with their enumerations of goods and of specified purposes and the rates of drawback of Customs duties, be deleted by amendment of Schedule B to the Customs Tariff: 1016, 1026, 1046, 1065.

	(10) Xenon	Free	15	25
28.05	Alkali, alkaline-earth and rare earth metals; yttrium and scandium; mercury:			
	(1) Other than the following	Free	15	25
	(2) Mercury	Free	Free	Free
	(3) Sodium	Free	Free	Free
28.06	Hydrochloric acid, including anhydrous hydrogen chloride, and chlorosulphonic acid:			
	(1) Hydrochloric acid, including anhydrous hydrogen chloride	Free	15	25
	(2) Chlorosulphonic acid	Free	Free	Free
28.07	Sulphur dioxide	Free	Free	Free
28.08	Sulphuric acid; oleum	10	15	25

28.09	Nitric acid; sulphonitric acids	10	15	25
28.10	Phosphorus pentoxide and phosphoric acids (meta-, ortho- and pyro-)	Free	15	25
28.11	Arsenic trioxide, arsenic pentoxide and acids of arsenic:			
	(1) Other than the following	Free	15	25
	(2) Arsenic trioxide	10	15	25
28.12	Boric oxide and boric acid:			
	(1) Boric acid	Free	Free	Free
	(2) Boric oxide	Free	15	25
28.13	Other inorganic acids and oxygen compounds of non-metals (excluding water):			
	(1) Other than the following	Free	15	25
	(2) Carbon dioxide	10	15	25
	(3) Fluoroboric acid	10	15	25
	(4) Fluorosilicic acid	Free	Free	Free
	(5) Hydrofluoric acid	10	15	25
	(6) Nitrous oxide	10	15	25
	(7) Sulphamic acid	Free	Free	Free
	(8) Sulphur trioxide	Free	Free	Free
28.14	Halides, oxyhalides and other halogen compounds of non-metals:			
	(1) Other than the following	Free	15	25
	(2) Phosphorus oxychloride	Free	Free	Free
	(3) Phosphorus pentachloride	Free	Free	Free
	(4) Phosphorus trichloride	Free	Free	Free
28.15	Sulphides of non-metals; phosphorus trisulphide:			
	(1) Other than the following	Free	Free	Free
	(2) Phosphorus pentasulphide	Free	5	20
	(3) Other sulphides of phosphorus including phosphorus trisulphide	Free	15	25
	(4) Silicon sulphide	Free	15	25
28.16	Ammonia, anhydrous or in aqueous solution	10	15	25

28.17	Sodium hydroxide (caustic soda); potassium hydroxide (caustic potash); peroxides of sodium or potassium:			
	(1) Potassium hydroxide (caustic potash)	7½	7½	20
	(2) Potassium peroxide	Free	15	25
	(3) Sodium hydroxide (caustic soda)	10	15	25
	(4) Sodium peroxide	Free	15	25
28.18	Oxides, hydroxides and peroxides, of strontium or barium; hydroxides and peroxides of magnesium; oxides of magnesium, howsoever produced, not less than 94 per cent pure			
	(1) Other than the following	Free	15	25
	(2) Magnesium oxide, howsoever produced, not less than 94 per cent pure	Free	Free	Free
28.19	Zinc oxide and zinc peroxide	Free	12½	25
28.20	Aluminum oxide and hydroxide; artificial corundum	Free	Free	Free
28.21	Chromium oxides and hydroxides			
	(1) Other than the following	Free	15	25
	(2) Chromic oxide	10	15	25
	(3) Chromium trioxide	10	15	25
28.22	Manganese oxides	Free	Free	Free
28.23	Iron oxides and hydroxides; earth colours containing 70% or more by weight of combined iron evaluated as Fe_2O_3			
	(1) Other than the following	10	15	25
	(2) Iron hydroxides	Free	15	25
28.24	Cobalt oxides and cobalt hydroxides:			
	(1) Cobalt hydroxides	Free	15	25
	(2) Cobalt oxides	Free	10	20

28.25	Titanium oxides	Free	12½	25
28.26	Tin oxides (stannous oxide and stannic oxide)	Free	15	25
28.27	Lead oxides; red lead and orange lead:			
	(1) Other than the following	Free	15	25
	(2) Red lead and orange lead	Free	12½	25
28.28	Hydrazine and hydroxylamine and their inorganic salts; other inorganic bases and metallic oxides, hydroxides and peroxides:			
	(1) Other than the following	Free	15	25
	(2) Antimony oxides	Free	12½	25
	(3) Molybdenum oxides	10	15	25
	(4) Nickelous oxide	10	15	25
	(5) Zirconium oxide	Free	5	15
28.29	Fluorides; fluorosilicates, fluoroborates and other complex fluorine salts:			
	(1) Other than the following	Free	15	25
	(2) Cupric fluoroborate	10	15	25
	(3) Lead fluoroborate	10	15	25
	(4) Potassium fluoroborate	10	15	25
	(5) Potassium titanium fluoride	10	15	25
	(6) Sodium fluoroaluminate (synthetic cryolite)	Free	Free	Free
	(7) Sodium fluoroborate	10	15	25
	(8) Stannous fluoroborate	10	15	25
28.30	Chlorides and oxychlorides:			
	(1) Other than the following	Free	15	25
	(2) Aluminum chloride	Free	10	20
	(3) Antimony chlorides and oxychlorides	Free	Free	Free
	(4) Bismuth oxychloride	10	15	25
	(5) Mercuric chloride, other than A.R. grade	10	15	25
	(6) Stannous chloride	Free	10	20
28.31	Chlorites and hypochlorites:			
	(1) Other than the following	Free	15	25
	(2) Calcium hypochlorite	Free	5	10
	(3) Sodium hypochlorite	10	15	25

28.32	Chlorates and perchlorates:			
	(1) Other than the following	Free	15	25
	(2) Potassium chlorate	10	15	25
	(3) Sodium chlorate	Free	10	25
28.33	Bromides, oxybromides, bromates and perbromates, and hypobromites	Free	15	25
28.34	Iodides, oxyiodides, iodates and periodates:			
	(1) Other than the following	Free	15	25
	(2) Calcium iodate	10	15	25
	(3) Manganese iodide	10	15	25
	(4) Potassium iodide	10	15	25
	(5) Sodium iodide	10	15	25
28.35	Sulphides; polysulphides:			
	(1) Other than the following	Free	15	25
	(2) Sodium sulphide	Free	12½	20
28.36	Dithionites, including those stabilized with organic substances; sulphoxylates:			
	(1) Other than the following	Free	15	25
	(2) Sodium dithionite	Free	Free	Free
	(3) Sodium formaldehyde sulphoxylate	Free	Free	Free
	(4) Zinc dithionite	Free	Free	Free
	(5) Zinc formaldehyde sulphoxylate	Free	Free	Free
28.37	Sulphites and thiosulphates:			
	(1) Other than the following	Free	15	25
	(2) Sodium bisulphite (sodium hydrogen sulphite)	Free	12½	20
	(3) Sodium metabisulphite	Free	12½	20
	(4) Sodium sulphite, neutral	Free	12½	20
	(5) Sodium thiosulphate, other than anhydrous	10	15	25

28.38	Sulphates (including alums) and persulphates:			
	(1) Other than the following	Free	15	25
	(2) Aluminum ammonium sulphate, not calcined	Free	10	15
	(3) Aluminum potassium sulphate, not calcined	Free	10	15
	(4) Aluminum sodium sulphate, not calcined	Free	10	15
	(5) Aluminum sulphate, basic or normal	Free	10	15
	(6) Barium sulphate	Free	10	15
	(7) Calcium sulphate	Free	Free	Free
	(8) Chromium potassium sulphate	Free	Free	10
	(9) Chromium sulphate, basic	Free	Free	10
	(10) Cobalt sulphate, other than pharmaceutical and A.R. grades	10	15	25
	(11) Cupric sulphate	Free	10	15
	(12) Ferrous sulphate			
	(i) exsiccated U.S.P.	10	15	25
	(ii) other	Free	10	15
	(13) Lead sulphate, tribasic	10	15	25
	(14) Magnesium sulphate, dried pure powder	10	15	25
	(15) Nickel sulphate of technical or commercial grade	10	15	25
	(16) Potassium sulphate containing, in the dry state, more than 52 per cent by weight of K_2O			
	(i) not less than 99 per cent pure	10	15	25
	(ii) less than 99 per cent pure	Free	Free	Free
	(17) Sodium sulphate, acid (sodium hydrogen sulphate)	Free	Free	Free
	(18) Sodium sulphate, neutral	10	15	25
28.39	Nitrites and nitrates:			
	(1) Other than the following	Free	15	25
	(2) Bismuth subnitrate (basic bismuth nitrate)	10	15	25
	(3) Cobalt nitrate other than A.R. grade	10	15	25
	(4) Potassium nitrate	Free	Free	Free
	(5) Sodium nitrate containing, in the dry state, more than 16.3 per cent by weight of nitrogen	Free	Free	Free
	(6) Sodium nitrite	Free	12½	25
	(7) Strontium nitrate	Free	Free	Free

28.40	Phosphites, hypophosphites and phosphates:			
	(1) Other than the following	Free	15	25
	(2) Lead phosphite, dibasic	10	15	25
	(3) Sodium hexametaphosphate	10	15	25
	(4) Sodium phosphate, dibasic, pharmacopoeial grade	10	15	25
	(5) Sodium phosphate, monobasic, pharmacopoeial grade	10	15	25
	(6) Sodium phosphate, tribasic, commercial grade	10	15	25
	(7) Sodium pyrophosphate, normal, other than A.R., C.P. and pharmacopoeial grades	10	15	25
	(8) Sodium tripolyphosphate	10	15	25
28.41	Arsenites and arsenates:			
	(1) Other than the following	Free	15	25
	(2) Sodium arsenates	Free	10	15
	(3) Sodium arsenite	10	15	25
28.42	Carbonates and percarbonates; commercial ammonium carbonate containing ammonium carbamate:			
	(1) Other than the following	Free	15	25
	(2) Bismuth carbonate and bismuth carbonate, basic	10	15	25
	(3) Cobaltous carbonate, basic	10	15	25
	(4) Lead carbonate, basic	10	15	25
	(5) Potassium carbonate	Free	Free	Free
	(6) Sodium bicarbonate	Free	12½	20
	(7) Sodium carbonate, anhydrous	10	15	25
	(8) Sodium carbonate decahydrate (sal soda)	10	15	25
28.43	Cyanides and complex cyanides:			
	(1) Other than the following	Free	15	25
	(2) Calcium cyanide	Free	Free	Free
	(3) Potassium cyanide	Free	Free	Free
	(4) Sodium cyanide	Free	Free	Free
	(5) Sodium ferricyanide	Free	Free	Free
	(6) Sodium ferrocyanide	Free	Free	Free
28.44	Fulminates, cyanates and thiocyanates	Free	15	25

28.45	Silicates; commercial sodium and potassium silicates:			
	(1) Other than the following	Free	15	25
	(2) Calcium silicates	Free	Free	Free
	(3) Sodium silicates	Free	12½	20
	(4) Zirconium silicate	Free	Free	Free
28.46	Borates and perborates:			
	(1) Other than the following	Free	15	25
	(2) Sodium tetraborate	Free	Free	Free
28.47	Salts of metallic acids (for example, chromates, permanganates, stannates):			
	(1) Other than the following	Free	15	25
	(2) Sodium dichromate	Free	12½	25
	(3) Sodium stannate	Free	12½	25
28.48	Other salts and peroxysalts of inorganic acids, but not including azides:			
	(1) Other than the following	Free	15	25
	(2) Ammonium nickel sulphate, technical or commercial grade	10	15	25
	(3) Ammonium zinc chloride	10	15	25
28.49	Colloidal precious metals; amalgams of precious metals; salts and other compounds, inorganic or organic, of precious metals, including albuminates, proteinates, tannates and similar compounds, whether or not chemically defined:			
	(1) Other than the following	Free	15	25
	(2) Amalgams of precious metals: gold, iridium, osmium, palladium, platinum, rhodium, ruthenium and silver	15	20	25
	(3) Auric chloride (gold chloride)	10	15	25
	(4) Colloidal suspensions of precious metals: gold, iridium, osmium, palladium, platinum, rhodium, ruthenium and silver	15	20	25
	(5) Gold sodium cyanide	10	15	20
	(6) Silver bromide	10	15	20
	(7) Silver chloride	10	15	20
	(8) Silver cyanide	10	15	20
	(9) Silver iodide	10	15	20
	(10) Silver nitrate	10	15	20

28.50	Fissile chemical elements and isotopes; other radio-active chemical elements and radio-active isotopes; compounds, inorganic or organic, of such elements or isotopes, whether or not chemically defined; alloys, dispersions and cermets, containing any of these elements, isotopes or compounds	Free	Free	Free
28.51	Isotopes and their compounds, inorganic or organic, whether or not chemically defined, other than isotopes and compounds falling within Recommended Item 28.50	Free	Free	Free
28.52	Compounds, inorganic or organic, of thorium, of uranium depleted in U 235, of rare earth metals, of yttrium or of scandium, whether or not mixed together:			
	(1) Other than the following	Free	15	25
	(2) Thorium oxide (thorium dioxide)	10	15	25
28.53	Liquid air (whether or not rare gases have been removed); compressed air	Free	Free	Free
28.54	Hydrogen peroxide (including solid hydrogen peroxide or urea peroxide)	Free	15	25
28.55	Phosphides:			
	(1) Other than the following	Free	15	25
	(2) Iron phosphide (ferrophosphorus) used in the manufacture of steel or iron	Free	5	5
28.56	Carbides (for example silicon carbide, boron carbide, metallic carbides):			
	(1) Other than the following	Free	15	25
	(2) Artificial abrasive grains, crushed or ground	Free	Free	Free
	(3) Calcium carbide	5	10	20

28.57	Hydrides, nitrides and azides, silicides and borides:			
	(1) Other than the following	Free	15	25
	(2) Artificial abrasive grains, crushed or ground	Free	Free	Free
	(3) Sodium azide	10	15	20
28.58	Other inorganic compounds (including distilled and conductivity water and water of similar purity); amalgams, except amalgams of precious metals:			
	(1) Other than the following	Free	15	25
	(2) Amalgams, except amalgams of precious metals	15	20	25
	(3) Calcium cyanamide containing, in the dry state, more than 25 per cent by weight of nitrogen	Free	Free	Free
	(4) Cyanogen bromide	Free	Free	Free

29.01	Hydrocarbons:			
	(1) Other than the following	Free	15	25
	(2) Acetylene	10	15	25
	(3) Benzene	Free	Free	Free
	(4) Butadiene	Free	Free	Free
	(5) Butanes	10	12½	25
	(6) Butylenes (butenes)	Free	Free	Free
	(7) Camphene	Free	Free	Free
	(8) Cyclopropane, for anaesthetic purposes	10	15	25
	(9) Dipentene	Free	Free	Free
	(10) Essential oils, natural or synthetic, of this item	Free	7½	7½
	(11) Ethylene	Free	Free	Free
	(12) Hexanes	Free	Free	Free
	(13) alpha Methylstyrene	10	15	25
	(14) Naphthalene	10	15	25
	(15) Octanes	10	12½	25
	(16) Pinenes	Free	Free	Free
	(17) Propane	10	12½	25
	(18) Propylene	Free	Free	Free
	(19) Styrene	10	15	25
	(20) p-Terphenyl	10	15	25
	(21) Toluene	Free	Free	Free
	(22) Xylenes	Free	Free	Free
29.02	Halogenated derivatives of hydrocarbons:			
	(1) Other than the following	Free	15	25
	(2) Carbon tetrachloride	10	15	25
	(3) Chlorofluoroethanes	10	15	25
	(4) Chlorofluoromethanes	10	15	25
	(5) ortho-Dichlorobenzene	10	15	25
	(6) para-Dichlorobenzene	10	15	25
	(7) Essential oils, natural or synthetic, of this item	Free	7½	7½
	(8) Ethyl chloride (chloroethane)	10	15	25
	(9) Ethylene dibromide	Free	Free	Free
	(10) Ethylene dichloride	10	15	25
	(11) Methyl chloride	10	15	25
	(12) Methylene chloride	10	15	25
	(13) Perchloroethylene	10	15	25
	(14) 1,1,1,-Trichloroethane (methylchloroform)	10	15	25
	(15) Trichloroethylene	12½	17½	25
	(16) Vinyl chloride (monochloroethylene)	10	15	25

29.03	Sulphonated, nitrated or nitrosated derivatives of hydrocarbons:			
	(1) Other than the following	Free	15	25
	(2) Ammonium dodecylbenzene sulphonate	10	15	25
	(3) Ammonium xylene sulphonate	10	15	25
	(4) Dinitrotoluene	10	15	25
	(5) Dodecylbenzene sulphonic acid	10	15	25
	(6) Nitrobenzene	10	15	25
	(7) Potassium toluene sulphonate	10	15	25
	(8) Sodium dodecylbenzene sulphonate	10	15	25
	(9) Sodium toluene sulphonate	10	15	25
	(10) Sodium xylene sulphonate	10	15	25
	(11) Toluene sulphonic acid	10	15	25
	(12) Trinitrotoluene (TNT)	10	15	25
29.04	Acyclic alcohols and their halogenated, sulphonated, nitrated or nitrosated derivatives:			
	(1) Other than the following	Free	15	25
	(2) Amyl alcohols	Free	Free	Free
	(3) Butyl alcohols	10	15	25
	(4) Essential oils, natural or synthetic, of this item	Free	7½	7½
	(5) Ethylene glycols	10	10	25
	(6) Hexylene glycols	10	15	25
	(7) Isopropyl alcohol	10	15	25
	(8) Methyl alcohol	5	10	20
	(9) Methylamyl alcohol (methyl isobutyl carbinol)	10	15	25
	(10) 2-Methyl-2-n-propyl-1,3-propanediol	10	15	25
	(11) Octanols	10	15	25
	(12) Pentaerythritol	10	15	25
	(13) n-Propyl alcohol	10	15	25
	(14) Propylene glycol	10	15	25
	(15) Sorbitol	10	15	25
29.05	Cyclic alcohols and their halogenated, sulphonated, nitrated or nitrosated derivatives:			
	(1) Other than the following	Free	15	25
	(2) Cyclohexanol	10	15	25
	(3) Essential oils, natural or synthetic, of this item	Free	7½	7½
	(4) Menthol	Free	Free	Free
	(5) Methylcyclohexanol	10	15	25
	(6) Terpineol	Free	Free	Free

29.06	Phenols and phenol-alcohols:			
	(1) Other than the following	Free	15	25
	(2) Bisphenol A	10	15	25
	(3) Butylated hydroxytoluene	10	15	25
	(4) Cresol, B.P. and U.S.P. grades	10	15	25
	(5) ortho-Cresol	10	15	25
	(6) Didodecyl phenol	10	15	25
	(7) Dinonyl phenol	10	15	25
	(8) Dodecyl phenol	10	15	25
	(9) Essential oils, natural or synthetic, of this item	Free	7½	7½
	(10) Nonyl phenol	10	15	25
	(11) Phenol	10	15	25
	(12) Xylenols	10	15	25
29.07	Halogenated, sulphonated, nitrated or nitrosated derivatives of phenols or phenol-alcohols:			
	(1) Other than the following	Free	15	25
	(2) 2,4-Dichlorophenol	10	15	25
	(3) Pentachlorophenol	10	15	25
	(4) Phenolsulphonic acids	10	15	25
	(5) Sodium pentachlorophenate	10	15	25
29.08	Ethers, ether-alcohols, ether-phenols, ether-alcohol-phenols, alcohol peroxides and ether peroxides, and their halogenated, sulphonated, nitrated or nitrosated derivatives:			
	(1) Other than the following	Free	15	25
	(2) tert-Butyl hydroperoxide	10	15	25
	(3) Cumene hydroperoxide	10	15	25
	(4) Di-tertiary-butyl peroxide	10	15	25
	(5) Dichloroethyl ether	10	15	25
	(6) Diethylene glycol	10	15	25
	(7) Diethylene glycol monobutyl ether	10	15	25
	(8) Diethylene glycol monoethyl ether	10	15	25
	(9) Diethylene glycol monomethyl ether	10	15	25
	(10) Dipentaerythritol	10	15	25
	(11) Dipropylene glycol	10	15	25
	(12) Essential oils, natural or synthetic, of this item	Free	7½	7½
	(13) Ether (diethyl ether)	10	15	25
	(14) Ethylene glycol monobutyl ether	10	15	25
	(15) Ethylene glycol monoethyl ether	10	15	25
	(16) Ethylene glycol monomethyl ether	10	15	25
	(17) Glycerol guaicolate (guaiacol glyceryl ether)	10	15	25
	(18) Triethylene glycol	10	15	25
	(19) Triethylene glycol monobutyl ether	10	15	25
	(20) Triethylene glycol monoethyl ether	10	15	25
	(21) Triethylene glycol monomethyl ether	10	15	25
	(22) Trinitroanisole	10	15	25
	(23) Tripentaerythritol	10	15	25

29.09	Epoxides, epoxyalcohols, epoxyphenols and epoxyethers, with a three or four member ring, and their halogenated, sulphonated, nitrated or nitrosated derivatives:			
	(1) Other than the following	Free	15	25
	(2) Epichlorohydrin	Free	Free	10
	(3) Ethylene oxide (epoxyethane)	10	15	25
	(4) Propylene oxide (1,2-epoxypropane)	10	15	25
29.10	Acetals and hemiacetals and single or complex oxygen-function acetals and hemiacetals, and their halogenated, sulphonated, nitrated or nitrosated derivatives:			
	(1) Other than the following	Free	15	25
	(2) Essential oils, natural and synthetic, of this item	Free	7½	7½
29.11	Aldehydes, aldehyde-alcohols, aldehyde-ethers, aldehyde-phenols and other single or complex oxygen-function aldehydes:			
	(1) Other than the following	Free	15	25
	(2) Acetaldehyde	10	15	25
	(3) Aldol (acetaldol)	10	15	25
	(4) n-Butyraldehyde	10	15	25
	(5) Crotonaldehyde	10	15	25
	(6) Essential oils, natural and synthetic, of this item	Free	7½	7½
	(7) 2-Ethyl-3-propylacrolein (2-ethylhex-2-enaldehyde)	10	15	25
	(8) Formaldehyde	5	10	20
	(9) Paraldehyde	10	15	25
	(10) Vanillin	10	15	25
29.12	Halogenated, sulphonated, nitrated or nitrosated derivatives of products falling within Recommended Item No. 29.11	Free	15	25

29.13	Ketones, ketone-alcohols, ketone-phenols, ketone-aldehydes, quinones, quinone-alcohols, quinone-phenols, quinone-aldehydes and other single or complex oxygen-function ketones and quinones, and their halogenated, sulphonated, nitrated or nitrosated derivatives:			
	(1) Other than the following	Free	15	25
	(2) Acetone	10	15	25
	(3) Camphor, natural or synthetic	Free	5	25

	(3) Chymotrypsin	10	15	25
	(4) Pancreatin	10	15	25
	(5) Papain	Free	5	17½
	(6) Pepsin	10	15	25
	(7) Rennet	Free	Free	Free
	(8) Trypsin	10	15	25
29.41	Glycosides; natural or reproduced by synthesis, and their salts, ethers, esters and other derivatives:			
	(1) Other than the following	Free	15	25
	(2) Aloin	10	15	25
	(3) Rutin	10	15	25
29.42	Vegetable alkaloids, natural or reproduced by synthesis, and their salts, ethers, esters and other derivatives:			
	(1) Other than the following	Free	15	25
	(2) Nicotine and its salts	Free	Free	10
	(3) Quinidine, salts of	Free	Free	Free
	(4) Quinine, salts of	Free	Free	Free
29.43	Sugars, chemically pure, other than sucrose and glucose, but including lactose; sugar ethers and sugar esters, and their salts, other than products of Recommended Items 29.39, 29.41 and 29.42:			
	(1) Other than the following	Free	15	25
	(2) Lactose	10	15	25
29.44	Antibiotics:			
	(1) Other than the following	Free	15	25
	(2) Chloramphenicol and its derivatives	10	15	25
	(3) Penicillin and its derivatives, not including crude penicillin	10	15	25
	(4) Tetracycline and its derivatives	10	15	25
29.45	Other organic compounds:			
	(1) Other than the following	Free	15	25
	(2) Copper acetoarsenite (Paris green)	Free	7½	15

31.00	Fertilizers and certain enumerated goods:			
	(1) Fertilizers, formulated; goods for use as fertilizers; all the foregoing whether or not otherwise provided for in this item or elsewhere in Schedule A	Free	Free	Free
	(2) The following, when not for use as fertilizers:			
	Ammonium nitrate, whether or not coated or prilled			
	Ammonium phosphates containing, in the dry state, not less than 6 mg. of arsenic per kg.			
	Ammonium sulphate			
	Ammonium sulphonitrate			
	Bone ash			
	Bone dust			
	Calcium cyanamide (cyanamid, lime nitrogen) containing, in the dry state, not more than 25 per cent by weight of nitrogen whether or not treated with oil			
	Calcium hydrogen phosphate (calcium phosphate, dibasic) containing, in the dry state, not less than 0.2 per cent by weight of fluorine			
	Calcium nitrate containing, in the dry state, not more than 16 per cent by weight of nitrogen			
	Calcium nitrate - magnesium nitrate			
	Calcium phosphates, disintegrated (calcined), (thermophosphates and fused phosphates)			
	Charred bone			
	Fish offal or refuse			
	Magnesium sulphate - potassium sulphate containing not more than 30 per cent by weight of K_2O			
	Mineral potash			
	Phosphate rock			
	Potassic sodium nitrate			
	Potassium chloride, but not including cultured crystals weighing not less than $2\frac{1}{2}$ grammes each			
	Potassium sulphate containing, in the dry state, not more than 52 per cent by weight of K_2O			
	Sodium nitrate containing, in the dry state, not more than 16.3 per cent by weight of nitrogen			
	Superphosphates (single, double or triple)			
	Tankage			
	Urea containing, in the dry state, not more than 45 per cent by weight of nitrogen, whether or not coated or prilled	Free	Free	Free

32.01	Tanning extracts of vegetable origin	Free	Free	Free
32.02	Tannins (tannic acids), including water-extracted gall-nut tannin, and their salts, ethers, esters and other derivatives:			
	(1) Tannins (tannic acids) including water-extracted gall-nut tannin	Free	Free	Free
	(2) The salts, ethers, esters and other derivatives of the foregoing	Free	15	25
32.03	Synthetic tanning substances, whether or not mixed with natural tanning materials; artificial bates for pre-tanning (for example, of enzymatic, pancreatic or bacterial origin):			
	(1) Other than the following	Free	Free	Free
	(2) Sodium formaldehyde naphthalene sulphonates	10	15	25
32.04	Colouring matter of vegetable origin (including dyewood extract and other vegetable dyeing extracts, but excluding indigo) or of animal origin:			
	(1) Other than the following	Free	Free	Free
	(2) Vegetable materials for use as edible colourings	10	10	25
32.05	Synthetic organic dyestuffs (including pigment dyestuffs); synthetic organic products of a kind used as luminophores; products of the kind known as optical bleaching agents, substantive to the fibre; natural indigo:			
	(1) Other than the following	Free	Free	10
	(2) Phthalocyanine pigment dyestuffs	Free	5	10
	(3) Quinacridone pigment dyestuffs	Free	5	10
	(4) Pigment dyestuffs, other than (2) and (3) above	10	15	25
32.06	Colour lakes	10	15	25

32.07	Other colouring matter; inorganic products of a kind used as luminophores:			
	(1) Other than the following	Free	5	15
	(2) Basic lead silicate (white lead silicate)	10	15	25
	(3) Black polyethylene masterbatch	5	10	20
	(4) Inorganic products of a kind used as luminophores	Free	Free	10
	(5) Lithopone	Free	12½	25
	(6) Pigments based on ferrocyanides or ferricyanides	10	15	25
	(7) Titanium whites, not including pure titanium dioxide	Free	12½	25
	(8) Ultramarine	Free	10	15
	(9) Zinc grey	Free	12½	25
32.08	Prepared pigments, prepared opacifiers and prepared colours, vitrifiable enamels and glazes, liquid lustres and similar products, of the kind used in the ceramic, enamelling and glass industries; engobes (slips); glass frit, in the form of powder, granules or flakes, but not other glass	10	15	25
32.09	Varnishes and lacquers; distempers, prepared water pigments of the kind used for finishing leather; paints and enamels; pigments in linseed oil, white spirit, spirits of turpentine, varnish or other paint or enamel media; stamping foils; dyes in forms or packings of a kind sold by retail:			
	(1) Other than the following	10	15	25
	(2) Pearl essence, natural or synthetic	Free	Free	10
32.10	Artists', students' and signboard painters' colours, modifying tints, amusement colours and the like, in tablets, tubes, jars, bottles, pans or in similar forms or packings, including such colours in sets or outfits, with or without brushes, palettes or other accessories:			
	(1) Other than the following	Free	15	25
	(2) Water colours, in liquid or powder form, in jars, bottles or tins	10	15	25

32.11	Prepared driers	10	15	25
32.12	Glaziers' putty; grafting putty; painters' fillings, and stopping, sealing and similar mastics, including resin mastics and cements:			
	(1) Other than the following	10	15	25
	(2) Mastics based on rubber	15	20	27½
	(3) Sealing wax, n.o.p.	15	22½	25
32.13	Writing ink, printing ink and other inks	10	15	25
34.02	Organic surface-active agents, surface-active preparations and washing preparations, whether or not containing soap	10	15	25
36.01	Propellent powders:			
	(1) Other than the following	Free	Free	Free
	(2) Black powder	5	10	20
36.02	Prepared explosives other than propellent powders:			
	(1) Other than the following	10	15	25
	(2) Based on ammonium nitrate	5	10	20
	(3) Based on chlorates and perchlorates	5	10	20
37.08	Chemical products and flash light materials, of a kind and in a form suitable for use in photography	10	15	25

38.02	Animal black (for example, bone black and ivory black), including spent animal black	Free	Free	Free
38.03	Activated carbon (decolourising, depolarising or adsorbent); activated diatomite, activated clay, activated bauxite and other activated natural mineral products:			
	(1) Other than the following	Free	Free	Free
	(2) Activated clay	10	15	25
38.04	Ammoniacal gas liquors and spent oxide produced in coal gas purification	10	15	25
38.05	Tall oil	Free	Free	Free
38.06	Concentrated sulphite lye	10	15	25
38.07	Spirits of turpentine (gum, wood and sulphate) and other terpenic solvents produced by the distillation or other treatment of coniferous woods; crude dipentene; sulphite turpentine; pine oil (excluding "pine oils" not rich in terpineol)	Free	Free	Free
38.08	Rosin and resin acids, and derivatives thereof other than ester gums included in Recommended Item 39.05; rosin spirit and rosin oils	Free	Free	Free
38.09	Wood tar; wood tar oils (other than the composite solvents and thinners falling within Recommended Item 38.18); wood creosote; wood naphtha; acetone oil	Free	Free	Free
38.10	Vegetable pitch of all kinds; brewers' pitch and similar compounds based on rosin or on vegetable pitch; foundry core binders based on natural resinous products	Free	Free	Free

38.11	Chemicals for use exclusively as, and preparations compounded exclusively for use as disinfectants, insecticides, fungicides, herbicides, anti-sprouting products, rodenticides or otherwise in combatting pests of a plant or animal nature; all the foregoing subject to such regulations as the Minister may prescribe	Free	Free	Free
38.12	Prepared glazings, prepared dressings and prepared mordants, of a kind used in the textile, paper, leather or like industries:			
	(1) Other than the following	10	15	25
	(2) Preparations of this item having the quality of starch per pound	1¢	1½¢	2¢
	(3) Prepared mordants	Free	Free	Free
	(4) Rosin sizing	5	7½	10
38.13	Pickling preparations for metal surfaces; fluxes and other auxiliary preparations for soldering, brazing or welding; soldering, brazing or welding powders and pastes consisting of metal and other materials; preparations of a kind used as cores or coatings for welding rods and electrodes	10	15	25
38.14	Anti-knock preparations, oxidation inhibitors, gum inhibitors, viscosity improvers, anti-corrosive preparations and similar prepared additives for mineral oils:			
	(1) Other than the following	10	15	25
	(2) Anti-knock preparations of tetraethyl lead or tetramethyl lead in which tetraethyl lead or tetramethyl lead or a mixture of both is the preponderant constituent by weight	5	10	25
38.15	Prepared rubber accelerators	10	15	25
38.16	Prepared culture media for development of micro-organisms	Free	Free	Free

38.17	Preparations and charges for fire-extinguishers, not including charged fire-extinguishing grenades	10	15	25
38.18	Composite solvents and thinners for varnishes and similar products	10	15	25
38.19	Chemical products and preparations of the chemical and allied industries (including those consisting of mixtures of natural products), n.o.p.; residual products of the chemical or allied industries, n.o.p.; not including soap nor pharmaceutical, flavouring, perfumery, cosmetic or toilet preparations:			
	(1) Other than the following	10	15	25
	(2) Alkyl aryl hydrocarbons, unsulphonated reaction blends	5	10	25
	(3) Anti-freezing compounds	15	15	25
	(4) Blends of tall oil and tall oil pitch without other admixture	Free	Free	25
	(5) Catalyst preparations for cracking petroleum, other than the fluid-bed type	Free	Free	25
	(6) Coal tar dye intermediates in solvents	Free	Free	15
	(7) Fusel oil	Free	Free	15
	(8) Hydrolized animal matter for use as retarder	10	10	25
	(9) Mixtures of ethylene glycol and other glycols in which ethylene glycol predominates, for use in the manufacture of anti-freezing compounds	10	10	25
	(10) Naphthenates of aluminum, barium, calcium and chromium	Free	15	25
	(11) Residual lyes from the manufacture of wood pulp by the alkali or sulphate processes and their skimmings, dried or not	Free	Free	25
	(12) Tin-based stabilizers for synthetic resins	Free	Free	25

39.01	Condensation, polycondensation and polyaddition products, whether or not modified or polymerised, and whether or not linear (for example, phenoplasts, aminoplasts, alkyds, polyallyl esters and other unsaturated polyesters, silicones):			
	(a) Without admixture other than an agent necessary to prevent caking, including scrap and waste; aqueous emulsions, aqueous dispersions or aqueous solutions, without other admixture:			
	1. Other than the following types	Free	Free	10
	2. Alkyd type	10	10	20
	3. Epoxy type	10	10	20
	4. Melamine formaldehyde type	10	10	20
	5. Phenol formaldehyde type	10	10	20
	6. Polyamide epichlorohydrin type	7½	7½	20
	7. Polyamide type, other than enumerated in this paragraph (a)	10	10	20
	8. Polycaprolactam type	7½	7½	20
	9. Polyether type	10	10	20
	10. Polyethylene terephthalate type	10	10	20
	11. Unsaturated polyester type	10	10	20
	12. Urea formaldehyde type	7½	7½	20
	(b) In organic solvents, where the weight of the solvent does not exceed 50 per cent of the weight of the solution, without other admixture:			
	1. Other than the following types	7½	7½	20
	2. Alkyd type	12½	12½	25
	3. Epoxy type	12½	12½	25
	4. Melamine formaldehyde type	12½	12½	25
	5. Phenol formaldehyde type	12½	12½	25
	6. Polyamide type	12½	12½	25
	7. Polyethylene terephthalate type	12½	12½	25
	8. Unsaturated polyester type	12½	12½	25
	9. Urea formaldehyde type	10	10	20
	(c) Moulding compositions, n.o.p., including scrap or waste, whether or not completely formulated; such compositions in the form of not fully cured preforms for compression moulding:			
	1. Other than the following types	Free	Free	10
	2. Epoxy type	12½	12½	25
	3. Melamine formaldehyde type	12½	12½	25
	4. Phenol formaldehyde type	12½	12½	25
	5. Polyamide type	12½	12½	25
	6. Polyurethane type	7½	7½	25
	7. Silicones	7½	7½	25
	8. Unsaturated polyester type	12½	12½	25
	9. Urea formaldehyde type	10	10	25

39.01 (Cont'd) (d) Compositions, n.o.p., composed entirely or predominantly of the condensation, polycondensation and polyaddition materials of paragraph (a) of this item	15	15	25
(e) Admixed with other materials to form glues or adhesives packaged or in bulk	15	17½	25
(f) Foamed and expanded, in logs, sheets, blocks, boards, flakes, granules, powder, shreds, scrap or waste	15	15	25
(g) Plates, sheets, film, sheeting, strip; lay-flat or other tubing, blocks, bars, rods, sticks, non-textile monofilament and other profile shapes imported in lengths, all produced in uniform cross-section:			
1. Other than the following types	Free	Free	10
2. Epoxy type	17½	17½	25
3. Melamine formaldehyde type	17½	17½	25
4. Phenol formaldehyde type	17½	17½	25
5. Polyamide type	17½	17½	25
6. Unsaturated polyester type	17½	17½	25
7. Urea formaldehyde type	17½	17½	25
39.02 Polymerisation and copolymerisation products (for example, polyethylene, polytetrahaloethylenes, polyisobutylene, polystyrene, polyvinyl chloride, polyvinyl acetate, polyvinyl chloroacetate and other polyvinyl derivatives, polyacrylic and polymethacrylic derivatives, coumarone-indene resins):			
(a) Without admixture other than an agent necessary to prevent caking, including scrap and waste; aqueous emulsions, aqueous dispersions or aqueous solutions, without other admixture:			
1. Other than the following types	Free	Free	10
2. Acrylonitrile-butadiene-styrene (ABS) type	10	10	20
3. Polyacrylic type, including polymethacrylic, emulsions or dispersions	7½	7½	20
4. Polyethylene type	7½	7½	20
5. Polypropylene type	7½	7½	20

39.02 (Cont'd) (a) Cont'd			
6. Polystyrene type	10	10	20
7. Polyvinyl acetate type	10	10	20
8. Polyvinyl chloride type, including polyvinyl chloroacetate	10	10	20
9. Styrene-acrylonitrile type	10	10	20
(b) In organic solvents, where the weight of the solvent does not exceed 50 per cent of the weight of the solution, without other admixture:			
1. Other than the following types	7½	7½	20
2. Polystyrene type	12½	12½	25
3. Polyvinyl acetate type	12½	12½	25
4. Polyvinyl chloride type, including polyvinyl chloroacetate	12½	12½	25
(c) Moulding compositions, n.o.p., including scrap or waste, whether or not completely formulated; such compositions in the form of not fully cured preforms for compression moulding:			
1. Other than the following types	Free	Free	10
2. Acrylonitrile-butadiene-styrene (ABS) type	12½	12½	25
3. Polyethylene type	10	10	20
4. Polypropylene type	10	10	20
5. Polystyrene type	12½	12½	25
6. Polyvinyl acetate type	12½	12½	25
7. Polyvinyl chloride type, including polyvinyl chloroacetate	12½	12½	25
8. Styrene acrylonitrile type	12½	12½	25
(d) Compositions, n.o.p., composed entirely or predominantly of the polymerisation and copolymerisation materials of paragraph (a) of this item	15	15	25
(e) Admixed with other materials to form glues or adhesives packaged or in bulk	15	17½	25
(f) Foamed and expanded, in logs, sheets, blocks, boards, flakes, granules, powder, shreds, scrap or waste	15	15	25

39.02 (Cont'd)	(g) Plates, sheets, film, sheeting, strip; lay-flat or other tubing, blocks, bars, rods, sticks, non-textile monofilament and other profile shapes imported in lengths, all produced in uniform cross-section:			
	1. Other than the following types	Free	Free	10
	2. Acrylonitrile-butadiene-styrene (ABS) type	17½	17½	25
	3. Polyethylene type	15	15	25
	4. Polymethyl methacrylate type plates, sheets, film, sheeting and strip	10	10	20
	5. Polypropylene type	15	15	25
	6. Polystyrene type	17½	17½	25
	7. Polyvinyl chloride type (including polyvinyl chloroacetate) plates, sheets, film, sheeting, strip, lay-flat or other tubing, other than plain, uncoated, undecorated	17½	20	25
	8. Polyvinyl chloride type (including polyvinyl chloroacetate), other	17½	17½	25
	9. Styrene-acrylonitrile type	17½	17½	25
39.03	Regenerated cellulose; cellulose nitrate, cellulose acetate and other cellulose esters, cellulose ethers and other chemical derivatives of cellulose, plasticised or not (for example, collodions, celluloid); not including vulcanised fibre:			
	(a) Without admixture; aqueous emulsions, aqueous dispersions or aqueous solutions, without other admixture; cellulose nitrate with not more than 35 per cent by weight of a dampening agent other than an organic solvent of paragraph (b):			
	1. Other than the following	Free	Free	10
	2. Cellulose nitrate, dynamite grade	5	10	20
	3. Sodium carboxymethyl cellulose	10	15	25
	(b) In organic solvents where the weight of the solvent, except for collodions, does not exceed 50 per cent of the weight of the solution, without other admixture	7½	7½	20

39.03 (Cont'd)	(c) Moulding compositions, n.o.p., including scrap or waste, whether or not completely formulated; such compositions in the form of not fully cured preforms for compression moulding	Free	Free	10
	(d) Compositions, n.o.p., composed entirely or predominantly of the cellulosic materials of paragraph (a) above or the collodions of paragraph (b) above	7½	7½	20
	(e) Admixed with other materials to form glues or adhesives packaged or in bulk	15	17½	25
	(f) Foamed and expanded, in logs, sheets, blocks, boards, flakes, granules, powder, scrap or waste	15	15	25
	(g) Plates, sheets, film, sheeting, strip; lay-flat or other tubing, blocks, bars, rods, sticks, non-textile monofilament and other profile shapes imported in lengths, all produced in uniform cross-section:			
	1. Other than the following	Free	Free	10
	2. Cellulose acetate plates, sheets, film, sheeting and strip, other than base film for use in the manufacture of photographic film	10	10	20
	3. Cellulose acetate butyrate plates, sheets, film, sheeting and strip, other than base film for use in the manufacture of photographic film	10	10	20
	4. Regenerated cellulose	10	15	25
39.04	Hardened proteins (for example, hardened casein and hardened gelatin)	Free	Free	10

39.05	Natural resins modified by fusion (run gums); artificial resins obtained by esterification of natural resins or of resinic acids (ester gums); chemical derivatives of natural rubber (for example, chlorinated rubber, rubber hydrochloride, oxidised rubber, cyclised rubber):			
	(1) Other than the following	Free	Free	10
	(2) In organic solvents, where the weight of the solvent does not exceed 50 per cent of the weight of the solution, without other admixture	7½	7½	20
	(3) Compositions, except moulding compounds, composed entirely or predominantly of the resins and the derivatives of natural rubber	7½	7½	20
	(4) Sheets, film, sheeting, strip; lay-flat or other tubing produced in uniform cross-section	10	10	20
39.06	Other high polymers, artificial resins and artificial plastic materials, including alginic acid, its salts and esters; not including other vegetable saps and extracts, pectic substances, pectinates and pectates, agar-agar and other mucilages and thickeners derived from vegetable products, albuminoidal substances, glues, nor linoxyn:			
	(1) Other than the following	Free	15	25
	(2) Alginic acid salts	Free	Free	15
	(3) Heparin sodium	10	15	25
39.07	Articles of materials of the kinds described in Recommended Items 39.01 to 39.06, n.o.p.	20	20	30

2. That Schedule B to the Customs Tariff be amended by inserting therein the following drawback items, enumerations of goods and of specified purposes and rates of drawback of Customs duties:

Tariff Item	Goods	When Subject to Drawback	Portion of Duty Payable as Drawback
R-41	Ethyl alcohol	Under the conditions specified in the Excise Act for drawback of Excise duty had such alcohol been manufactured in Canada and sold or used in Canada..	99 p.c. of the additional duty imposed by the last part of paragraph (c) of tariff item 156(7)
R-42	1026 - Materials	When used in the manufacture of containers for packaging the products entitled to entry under Recommended Item 38.11.....	99 p.c.
R-43	1046 - Materials	When used in the manufacture of goods entitled to entry under Recommended Item R-30 (663b) when such goods are sold to manufacturers to be used as specified in said item.....	99 p.c.

IMPORT STATISTICS

Statistical Notes

1. The accompanying import data are as complete as the published statistics permit. They have been assigned to the heading of the Brussels Nomenclature which appears to be most appropriate, but in many instances the correspondence of heading and data is not precise. Because of the difficulties of identifying and segregating individual products, some of the statistical classes assigned to a particular heading include also products or forms of products classified in other headings. As a result, the imports shown for some headings exceed the actual imports of goods classified in that heading; for others, the imports shown are less than the actual total. The products of some of the statistical classes could not be identified sufficiently to permit allocation to a particular heading; these statistical classes are appended to the chapters, but unallocated to a heading.

2. (a) As far as possible, the recommended rates shown are those applicable to the product. For some products or statistical classes more than one set of rates is shown either because more than one form of that product is involved or because the statistical class applies to more than one product. In some instances no recommended rates are shown because of difficulties in identifying products.

   (b) The actual duty collectable on imports will often be lower than indicated by the recommended rates because other provisions of the Tariff, for example end-use items, can affect the duty collected. Thus, the recommended rates will not always be the effective rates.

   (c) For some products the existing provisions in the Customs Tariff have simply been relocated to make them part of the Recommended Schedule. For these, the recommended rates, therefore, are the existing rates.

3. Source of import data: Dominion Bureau of Statistics, External Trade Division, Ottawa. The product names are those used in the D.B.S. publication, Trade of Canada, Imports, abbreviated as necessary for inclusion in the tables.

4. Because of rounding, the sum of figures in a table will not always equal the total shown; percentages are calculated from unrounded data.

5. Explanation of Symbols Used in Tables

   - zero or none reported
   .. figures not available
   * in statistical tables, indicates a reported figure which disappears on rounding, or is negligible
   (a) a small letter in brackets denotes a footnote to a table

CANADIAN DELEGATION

DÉLÉGATION DU CANADA

CONFIDENTIEL

le 27 juin 1966

M. Eric Wyndham White
Directeur Général
Accord général sur les tarifs
douaniers et le commerce
Villa "Le Bocage"
Genève, Suisse.

Cher M. Wyndham White:

Lors de la présentation de l'offre canadienne en matière industrielle le 16 novembre 1964, le gouvernement canadien soulignait qu'il désirait recevoir de la Commission du Tarif un Rapport en cours de préparation sur les produits chimiques et ses dérivés avant de formuler ses offres au sein du Kennedy Round sur ces mêmes produits.

Le gouvernement canadien vient de recevoir le premier volume du Rapport de la Commission qui propose une nouvelle liste de positions tarifaires s'inspirant de la nomenclature de Bruxelles, ainsi que de nouveaux taux de droits. Des volumes additionels contenant des notes explicatives seront éventuellement disponibles.

Vue le calendrier très chargé des négociations Kennedy, je pense qu'il serait à l'avantage de plusieurs parties contractantes de recevoir dès maintenant la nouvelle liste tarifaire en question afin de leur donner l'occasion d'examiner cette liste pendant qu'elle est encore à l'étude par le gouvernement canadien et avant la soumission de l'offre canadienne sur les produits chimiques. A cet effet, je vous envoie ci-joint 60 copies (en anglais et français) du Rapport en question. Si vous êtes d'accord avec cette procédure, je vous serais reconnaissant de vouloir transmettre une copie de ce Rapport avec une copie de cette lettre à chacun des pays engagés dans les négociations Kennedy. D'autres copies pourraient être disponibles sur demande.

Veuillez agréer, Monsieur, les assurances de ma haute considération.

Le chef négociateur pour le
Gouvernement du Canada,

S.D. Pierce

Dear Sir:

Trade Negotiating Conference

I have the honour to transmit to you, in fifty copies in each of the English and French languages, a second addendum to the Canadian offer on industrial products. The original offer was tabled on November 16, 1964 and a first addendum was submitted to you on May 12, 1966.

As in the case of the offers already transmitted to you, my Government is concerned that other participants to whom the attached addendum will be communicated will treat it with the utmost secrecy.

Accept, Sir, the renewed assurances of my highest consideration.

Addendum No. 2

The attached schedule is an addendum to the Canadian offer on industrial products tabled November 16, 1964. The addendum sets out the new tariff items and reduced rates of duty which Canada is proposing for the products in question. The tariff item numbers shown follow the new numbering system adopted for statistical purposes in August, 1965. The products covered by the first two items in the attached schedule are now dutiable under item 44510-1 (formerly 445d); the products covered by the third item are now dutiable under item 59730-1 (formerly 597a(2)).

July 29, 1966.

Conférence des Négociations Commerciales

Monsieur,

J'ai l'honneur de vous transmettre un deuxième addendum à la liste d'offres industrielles du Gouvernement du Canada. Je vous en envoie cinquante copies en langue française et en langue anglaise. L'offre initiale fut présentée le 16 novembre, 1964 et un premier addendum vous fut soumis le 12 mai, 1966.

Mon Gouvernement attache la plus grande importance, comme dans le cas des listes déjà transmises, à ce que les autres pays qui recevront le présent addendum en assurent le secret le plus absolu.

Veuillez agréer, Monsieur, les assurances de ma haute considération.

Le chef négociateur pour le
Gouvernement du Canada,

Addendum N° 2

La liste ci-jointe est un addendum à la liste d'offres industrielles du Gouvernement du Canada transmise le 16 novembre, 1964. Cet addendum reprend les nouvelles positions tarifaires et les taux de droits réduits que le Canada propose pour les produits en question. Leur ventilation par positions tarifaires tient compte de la nouvelle classification adoptée pour des fins statistiques en août, 1965. Les produits qui sont couverts par les deux premières positions dans la liste ci-jointe sont sujets à des droits douaniers sous la position 44510-1 (anciennement 445d); les produits couverts par la troisième position sont maintenant sujets à des droits douaniers sous la position 59730-1 (anciennement 597a(2)).

Mr. Eric Wyndham White,
Director General,
General Agreement on Tariffs and Trade,

Sir:

Trade Negotiating Conference

I have the honour to transmit to you the attached paper in response to the suggestions made in your note of October 27th in your capacity as Chairman of the Trade Negotiations Committee. The paper sets out the Canadian Delegation's assessment of the present negotiating position, the desiderata which it has expressed during the course of the negotiations, the additional offers it is prepared to make if its desiderata are met, and the products on which it might be difficult or impossible to maintain its offers if its desiderata are not met.

As the attached paper contains references in specific terms to the Canadian offer, my Government is concerned that other participants in the negotiations to whom the paper will be communicated will treat it with the utmost secrecy.

Accept, Sir, the renewed assurances of my highest consideration.

ASSESSMENT

The Canadian assessment of the overall negotiating position is governed by two special considerations. The first relates to the cereals negotiations. The Canadian Delegation has accepted the proposal of the Chairman of the Trade Negotiations Committee that participating countries "base their assessment on the assumption of an eventual favourable outcome" in this sector. Nevertheless wheat comprises such an important proportion of total Canadian exports that the Canadian position must remain provisional until the cereals negotiations have progressed to the point where a favourable outcome is assured.

The second special consideration relates more generally to the nature of Canadian exports, in which primary materials and agricultural products predominate. Some major participants have not as yet included agricultural products in their offers to any significant extent, and in the industrial sector the exceptions lists of linear participants bear heavily on industrial materials. Canada's export trade is still heavily concentrated in agricultural products, forest products and industrial materials.

The Canadian Delegation considers therefore that, while the U.S. offer represents a satisfactory basis for negotiation, the present offers of the EEC and Japan are inadequate, because of the heavy impact of their exceptions lists on products of particular concern to Canada.

...2

In assessing the overall balance of advantage for Canada, the Canadian Delegation must take account of the important reductions in margins of preference that will result from the offers of the United Kingdom and other countries where Canada enjoys preferences.

DESIDERATA

From bilateral discussions, our major negotiating partners will be aware of the specific desiderata to which Canada attaches importance. The principal elements of these requests are set out below as they relate to the USA, EEC and Japan.

USA

(A) Tariffs

1. Maintenance of the present offers on items of interest to Canada.
2. Use of the authority contained in Section 202 of the USA Trade Expansion Act to provide free entry for items of substantial interest to Canada.
3. Reinstatement of offers for items affected by the Technical Amendments Act of 1965.

(B) Non-Tariff Issues

1. Action by the USA on the "final list" of products subject to the valuation procedures of Section 402A of the Tariff Act of 1930.
2. Action by the USA on its wine gallon assessment system.

...3

EEC

1. Substantial improvements or new concessions for the following list of items of particular interest to Canada.

Ex.03.01 A.I.b)	Fresh or frozen salmon
03.01 A.II.a)	Eels, (October 1 to March 31)
07.01 A.I	Seed potatoes
Ex.12.03 B.II.a)	Seeds for sowing: - Creeping red fescue (festuca rubra); - Timothy (phleum pratense)
Ex.12.03 B.II.b)	Seeds for sowing: - Alsike clover (trifolium hybridum); - Red clover (trifolium pratense)
16.04 B	Canned salmon
20.02 G	Canned green beans
Ex.20.04 C.I	Pentaerythritol
44.15 A.	Softwood plywood
48.01 A.	Newsprint
76.01 A.	Primary aluminum
78.01 A.	Unwrought lead
79.01 A.	Unwrought zinc
82.02 B.II.	Blades for saws
85.15 B.	Other apparatus (radio-telegraphic apparatus, navigational equipment)

2. Maintenance of the present offers on other items of interest to Canada.

Japan

1. Substantial improvements or new concessions for the following items of particular interest to Canada.

Ex.03.01-2(2) & Ex.03.02-1	Fish roe
12.01(3)	Rapeseed and mustard seed
25.03	Sulphur
Ex.44.15	Softwood plywood
48.01(2)(1)	Newsprint
74.01	Copper in ingot form
76.01-1(1)	Unalloyed aluminum ingot
76.01-1(2)	Alloyed aluminum ingot
77.01-1	Magnesium ingot
78.01	Lead ingot
79.01	Zinc ingot

2. Maintenance of the present offers on other items of interest to Canada.

Other Participants

With respect to other participants in the negotiations, the Canadian Delegation requests that present offers of interest to Canada be maintained.

Canada accepts the general non-reciprocal basis of the participation of the developing countries. In this context, the Canadian Delegation would ask them to consider the specific requests which have been made known to them in bilateral discussions. Attention is drawn to the condition attached to the Canadian offer on tropical products that there should be a general move in this sector. It is urged that this condition be met in the negotiations.

...5.

IMPROVEMENTS OF INITIAL OFFERS

Subject to the general condition of reciprocity and assuming favourable action on the more precise desiderata outlined above, Canada is prepared to make supplementary offers which would increase substantially the volume of Canadian import trade subject to tariff reduction in these negotiations, taking account of the requests of our trading partners. These are set out in Annex I.

If the Canadian desiderata are met, the Canadian Delegation will be prepared to consider, in addition, improvement in existing offers in certain sectors, namely: machinery; chemicals; paper and paper products; distilled beverages; and manufactures of various metals including iron and steel, copper, brass, and aluminum.

The Canadian Delegation is prepared to discuss with others problems relating to all aspects of anti-dumping looking to improvements in this field.

LIST OF PRODUCTS ON WHICH IT MIGHT BE DIFFICULT OR IMPOSSIBLE TO MAINTAIN OFFERS UNLESS DESIDERATA ARE ESSENTIALLY MET

Annex II attached hereto contains an illustrative list of products on which it would be difficult or impossible for Canada to maintain its present offers unless the desiderata set out above are essentially met.

Conférence des Négociations Commerciales

Monsieur,

J'ai l'honneur de vous transmettre le document ci-joint en réponse aux suggestions contenues dans votre communication du 27 octobre au titre de Président du Comité des Négociations Commerciales, Le document présente l'appréciation de la Délégation du Canada de la situation où se trouvent actuellement les négociations, les desiderata qu'elle a soulevés au cours de ces négociations, les offres supplémentaires qu'elle serait en mesure de soumettre si ces desiderata se trouvaient confirmés, ainsi que les produits à l'égard desquels il pourrait être difficile sinon impossible de maintenir son offre en l'absence d'une telle confirmation.

Vu que le document se réfère en termes spécifiques à l'offre canadienne, mon Gouvernement attache la plus grande importance à ce que les autres participants aux négociations qui recevront le document en assurent le secret le plus absolu.

Veuillez agréer, Monsieur, les assurances de ma haute considération.

C A N A D A

APPRECIATION DE LA SITUATION ACTUELLE

Deux facteurs en particulier déterminent l'appréciation par le Canada de la situation générale où se trouvent les négociations. Le premier a trait aux négociations sur les céréales. Dans ce secteur, la délégation canadienne a accepté la proposition du président du comité des négociations commerciales à savoir que les pays participants établissent leur appréciation en assumant une issue favorable dans ce secteur. Etant donné toutefois que le blé représente une proportion tellement importante des exportations globales canadiennes, le Canada est obligé d'adopter une attitude temporaire en attendant que les négociations sur les céréales aient progressé au point où une issue favorable sera assurée.

Le second facteur est lié de façon plus générale à la composition des exportations canadiennes qui est marquée par la prédominance des matières premières et des produits agricoles. Jusqu'à cette date les produits agricoles n'ont pas trouvé une place importante dans les offres de certains participants principaux aux négociations. Dans le secteur industriel, d'autre part, les listes d'exceptions des participants linéaires comportent une forte proportion de matières premières. Les exportations du Canada continuent à être fortement orientées sur les produits agricoles, les produits forestiers et les matières premières.

Dans cette optique, la délégation canadienne considère que si l'offre des Etats-Unis représente une base acceptable pour les négociations, il n'en est pas de même pour les offres actuelles de la CEE et du Japon qui sont insuffisantes à cause de l'effet prépondérant de leurs listes d'exceptions sur des produits qui sont d'un intérêt primordial pour le Canada.

...2

Afin d'arriver à un jugement global sur la position du Canada, la délégation canadienne doit tenir compte des réductions importantes des marges de préférence tarifaires qui résulteraient des offres soumises par le Royaume-Uni et les autres pays qui accordent des préférences au Canada.

LES DESIDERATA

A la suite des discussions bilatérales qui ont eu lieu, les principaux pays participants sont saisis des desiderata auxquels le Canada attache de l'importance. Les principaux éléments de ces demandes en ce qui concerne les Etats-Unis, le CEE et le Japon, sont définis ci-dessous.

Etats-Unis

A) Tarifs:

1. Maintien des offres actuelles relatives aux produits intéressant le Canada.
2. Mise en oeuvre des dispositions de l'article 202 du "USA Trade Expansion Act" qui autorise la libre entrée de produits de grand intérêt pour le Canada.
3. Rétablissement d'offres concernant des produits touchés par le "Technical Amendments Act of 1965".

B) Questions non-tarifaires:

1. Offres concernant les produits figurant sur la "liste définitive" des produits assujetis aux méthodes d'évaluation de l'article 402A du "Tariff Act of 1930".
2. Offre au sujet de la méthode d'évaluation des gallons de vin.

CEE

1. Améliorations considérables d'offres existantes ou nouvelles concessions dans le cas de produits figurant sur la liste suivante qui sont d'un intérêt particulier pour le Canada.

79.01 A	Zinc brut
82.02 B.II	Lames de scies
85.15 B.	Autres appareils (radioguidage, radiotélécommande)

2. Maintien des offres actuelles pour les autres produits intéressant le Canada.

Japon

1. Améliorations considérables d'offres existantes ou nouvelles concessions dans le cas des produits suivants qui sont d'un intérêt particulier pour le Canada.

Ex.03.01 - 2(2) et Ex.03.02 - 1	Poissons: oeufs et laitances

76.01 - 1(2)	Aluminium brut, avec alliage
77.01 - 1	Magnésium brut
78.01	Plomb brut
79.01	Zinc brut

2. Maintien des offres actuelles dans le cas des autres produits intéressant le Canada.

Autres pays participants

En ce qui concerne les autres pays participant aux négociations, la délégation canadienne demande le maintien des offres actuelles intéressant le Canada.

Le Canada accepte le principe général de non réciprocité définissant la participation des pays en voie de développement. Dans cette optique, la délégation canadienne leur demanderait de prendre en considération les demandes particulières qui leur ont été soumises au cours des discussions bilatérales. Il est à noter que l'offre canadienne concernant les produits tropicaux est liée à la condition d'une libéralisation générale dans ce secteur. Le Canada considère que cette condition devrait être satisfaite au cours des négociations.

AMELIORATION DES OFFRES INITIALES

Sous réserve de la règle générale de réciprocité et à condition que des décisions favorables soient prises au sujet des desiderata détaillés définis plus haut, le Canada est prêt, tenant compte des demandes de nos partenaires commerciaux, à faire des offres supplémentaires qui auraient l'effet d'élargir considérablement le volume des importations canadiennes bénéficiant de réductions tarifaires établies par ces négociations. Ces offres apparaissent à l'Annexe I.

Si les desiderata du Canada sont satisfaits, la délégation canadienne sera prête à examiner, en plus, la possibilité d'une amélioration d'offres actuelles dans certains secteurs, notamment: les machines; le papier et ses produits, les boissons distillées; les produits chimiques; et les produits manufacturés de métaux divers y compris le fer et l'acier, le cuivre, le laiton et l'aluminium.

La délégation canadienne est prête à discuter avec les autres délégations les problèmes concernant tous les aspects des mesures contre le dumping avec l'objectif d'obtenir des améliorations dans ce domaine.

LISTE DES PRODUITS SUR LESQUELS IL POURRAIT ETRE DIFFICILE SINON IMPOSSIBLE DE MAINTENIR DES OFFRES SI LES DESIDERATA NE SONT PAS SATISFAITS

L'annexe II ci-jointe contient une liste illustrative de produits au sujet desquels il serait difficile sinon impossible pour le Canada de maintenir ses offres actuelles à moins que les conditions nécessaires énumérées plus haut soient largement acceptées.

DRAFT SCHEDULE

OF

CANADIAN TARIFF CONCESSIONS

AGREED IN

KENNEDY ROUND NEGOTIATIONS

Geneva

31 May, 1967

DRAFT SCHEDULE V - (CANADA)

NOTES RE ATTACHED DRAFT SCHEDULE

1. A draft French text will shortly be distributed by the Secretariat to participating contracting parties.

2. Since the negotiations began the numbering of the Canadian Tariff has been changed for statistical purposes. The attached draft schedule is in terms of the new numbering system. An informational draft schedule containing cross references to former tariff item numbers, and explanatory notes where required, will be circulated shortly.

3. In cases where extensive changes in nomenclature are involved, no base rates of duty are shown in the attached schedule. In every case where no base rate is shown, Canada will introduce the new nomenclature and the final rate of duty in a single step not later than June 30, 1968.

4. Canada is prepared to accept the commitments regarding the implementation of concessions envisaged in paragraph 4 of GATT document TN.64/93, dated 17 May, 1967.

SCHEDULE V - (CANADA)

This schedule is authentic only in the English and French languages
