Draft Schedule

DÉLÉGATION D'IRLANDE

15 Rue Michel Chauvet
GENEVE, 4th October 1965

E. Wyndham White, Esq.
Director-General
General Agreement on Tariffs and Trade.

Dear Director General,

I have the honour to refer to the decision taken by the Trade Negotiations Committee of 18th March 1965, that countries wishing to accede to the General Agreement be invited to participate in the current trade negotiations conference. In accordance with this decision I am to transmit on behalf of the Government of Ireland the enclosed Offer of Tariff Concessions.

It would not be the desire of my Government to invoke Article XXXV of the General Agreement against any participant in the negotiations. Nevertheless my Government would not wish this Offer to be circulated to Japan pending the outcome of bi-lateral consultations with that country.

I have the honour to be

Yours faithfully,

SEAN P. KENMAN

Permanent Representative
of Ireland .

SECRET

IRELAND

The attached schedule sets out the tariff headings on which Ireland is prepared to offer bindings and reductions of duties in the current Trade Negotiations Conference.

In view of Ireland's special economic and trade structure the offer is made in the form of a positive list of tariff concessions rather than in the form of a linear offer with exceptions.

The schedule is divided into three parts -

Part I covers headings on which the present duty-free position will be bound.

Part II covers headings on which a 20% reduction is offered on the rates of duty in force on the base date viz., 31 December, 1962.

Part III lists a number of headings on which Ireland offers to eliminate the duties and bind the position duty free.

Some of the duty-free bindings in Parts I and III would be made indefinitely and the others for so long as Ireland was not a member of the European Economic Community.*

This offer is subject to the reservation that it will be open to Ireland to modify it, if necessary, in order to achieve a satisfactory balance of advantage in the negotiations.

In formulating this offer, the Irish Government have kept in mind the importance for world trade of the realisation of the objectives of the Kennedy Round and, in particular, the need to facilitate trade in products of interest to less-developed countries. At the same time, they have found it necessary to have regard to the substantial adverse balance

/in

*Ireland is an applicant for membership of the European Economic Community. In the event of entry to the Community, certain goods included in Parts I and III of the attached schedule would become dutiable under the Common External Tariff. These are indicated in Parts I and III.

in Ireland's trade with practically all contracting parties and to the fact that this is aggravated by the widespread obstacles to international trade in temperate agricultural commodities, which account for approximately two-thirds of Irish exports. They have also had to take into account the anticipated adverse effects on Ireland's trade with the United Kingdom of the reduction, as a result of the Kennedy Round negotiations, of tariff advantages in that market, which absorbs over 70 per cent of all Irish exports.

PART I

GATT
GENEVA

Sir,

I am instructed to send you herewith the Irish Government's notification in response to the Note from the Chairman of the Trade Negotiations Committee contained in document TN.64/82 of the 27 October 1966.

Accept, Sir, the assurance of my highest consideration.

Sean P. KENNAN

Permanent Representative.

E. Wyndham White, Esq.,
Director General
General Agreement on Tariffs & Trade

IRELAND

=====

Notification in response to Note from Chairman of Trade Negotiations Committee - Document TN 64/82 of 27 October 1966 -

The Irish Government, in assessing their present negotiating position in the Kennedy Round, must continue to give primary regard to two of the major factors of Ireland's trade viz (1) that the United Kingdom is the market for a very high proportion (70%) of total Irish exports and (2) that temperate agricultural products constitute some two-thirds of total exports.

As Ireland is in a free trade area relationship with the United Kingdom, trade between the two countries is not the subject of negotiations in the Kennedy Round. However, any concessions granted by the United Kingdom in the Kennedy Round on products of export interest to Ireland will result in a diminution of Ireland's tariff advantages in the United Kingdom market.

As a country whose exports contain such a high proportion of agricultural products, a major interest for Ireland in the Kennedy Round negotiations lies in securing improved market outlets for its agricultural exports. The negotiations in the agricultural sector in the Kennedy Round have not yet advanced to the stage where it is possible for the Irish Government to formulate any reliable assessment of the possible benefits to Ireland resulting from the concessions which will eventually be made in the sector. It is noted, however, that the Chairman of the Trade Negotiations Committee has suggested that Governments should base their assessments of their negotiating positions on the assumption of an eventual favourable outcome in the negotiations in the agricultural sector. On the basis of a general acceptance of this assumption the Irish Government are not proposing at present to reduce the offer already tabled by them.

Having regard to the considerations as outlined above, the Irish Government are not in a position at this time to indicate the improvements which might be possible in the Irish offer already tabled. The Government will, however, examine the position in the light of the situation revealed by the replies of other participating countries in response to document TN 64/82 and of subsequent progress in the negotiations.
