Mr. Director-General,

6
I have had the honour to inform you by my letter of 14 April 1965 /document TM.64/44/ of my Government's intention to utilize the trade negotiations currently in progress for its full accession to the General Agreement on Tariffs and Trade and to participate in the trade negotiations in conformity with the procedure adopted for the participation of developing countries in the Kennedy Round of negotiations.

1. The Declaration on the provisional accession of Yugoslavia to the General Agreement expires on 31 December 1965, and it is the wish of the Yugoslav Government to accede to GATT. I have, therefore, the honour to ask you that steps be taken, in accordance with Article XXXIII and Part IV of the General Agreement, and pursuant to the procedure adopted at the Twenty-second session of the CONTRACTING PARTIES, for the accession of the Socialist Federal Republic of Yugoslavia to the General Agreement.

In presenting this request the Government of Yugoslavia wishes to recall that the CONTRACTING PARTIES, after a careful examination of the Yugoslav foreign trade system in connection with its request for provisional accession, had considered in 1962 that the system had already moved sufficiently to be in a position to give full effect to the provisions of the General Agreement. The Provisional Accession was in fact granted on this understanding and full accession was delayed only because the permanent Yugoslav tariff was not yet available. Since

that time the system has further been substantially modified in the direction of freer trade and the new tariff represents a substantial lowering of the rates and incidences.

2. The objectives of the policy of accelerated economic development pursued by the Yugoslav Government in the course of past years were: to improve the standard of living, to increase real national income, to diversify the economy, and in particular to increase the exchange of goods and services with foreign countries. The similarity of these objectives with those of the General Agreement have made it possible for the Yugoslav Government to continuously promote cooperation with the contracting parties within the General Agreement.

In the course of this cooperation, mindful of the requirements of the economic development and the country's balance-of-payments possibilities, my Government has been making efforts to liberalize as much as possible its foreign trade.

The recent measures taken within the framework of the July economic reform in the opinion of the Yugoslav Government make possible Yugoslavia's full accession to the General Agreement.

Of particular importance are the following objectives of the economic reform:

a/ to establish more realistic relations between the prices of agricultural and other primary products and those of industrial products, thus to remove the outstanding price distortions, and to decentralize the economic decision-making and rely on market criteria in the formation of prices and the allocation of investment resources;

b/ to ensure internal economic stability by implementing an adequate income policy limiting the rise in personal income to the growth of productivity, as well as by resorting to the credit and other monetary policy measures, which would keep the rate of increase in money supply somewhat below the level of the rate of increase in total economic activity;

c/ to establish a new par value of the dinar of 1,250 dinars to 1 US dollar /the former unified exchange rate under which all transactions with foreign countries were effected being 750 dinars to 1 US dollar, with a par value of 300 dinars to 1 US dollar

simultaneously in force/, in order to provide for adequate relations between foreign and domestic prices and consequently for more harmonious relations between imports and exports. Together with the entry into force of the new par value of dinar, export premiums which amounted, depending on the kind of products exported, to 10 per cent, 22 per cent or 32 per cent were abrogated.

3. A new Permanent Customs Tariff entered into force late in July this year. The present customs rates are considerably lower than those of the Provisional Customs Tariff, so that the average customs incidence, calculated on the Yugoslav imports in 1964, amounts to 11.7 per cent, while the former incidence amounted to 23.29 per cent. A parallel between the two averages for the same year, worked out by groups of products, would appear as follows:

	Customs rates valid	
	<u>until 26.7.1965</u>	<u>after 26.7.1965</u>
Raw materials	12.14 %	5.11 %
Reproduction materials	17.19 %	9.26 %
Capital goods	42.79 %	20.39 %
Consumer goods	43.96 %	21.06 %

The new customs tariff provides for duty-free imports of tropical products, with a view to promoting trade with other developing countries.

4. Notwithstanding the adverse balance of payments, the import regime has been simplified and further liberalized. Measures have been taken, or are about to be taken, within the existing legislation to liberalize imports of raw materials and reproduction materials, and a liberal policy, in harmony with the investment programme, is pursued regarding imports of capital goods.

Thirty six products or groups of products have been taken off the total of 77 products or groups of products, formerly appearing in the List of Restricted Imports and the List of Imports Subject to Quotas.

Fifty products or groups of products have been taken off the List of Restricted Exports, which in 1963 covered 93 products or groups of products.

Measures liberalizing Yugoslavia's foreign trade are set forth with more detail in the note "Simplification of Yugoslavia's Foreign Trade Regime" attached hereto.

5. Yugoslavia has multilateral payment arrangements with the majority of countries members of GATT and IMF, and is ready to abrogate the remaining bilateral agreements with all those countries wishing to do so.

6. The above measures constitute a definite contribution to the realisation of the objectives of the General Agreement. However, the success of these measures will largely depend on the understanding and support they are to find with the GATT members, particularly with those countries who play an important part in the Yugoslav economic relations with foreign countries.

The fact that these efforts, including the considerable reduction of customs tariffs, have been made unilaterally, in harmony with the needs of Yugoslav economy, and not as a result of trade negotiations, in the opinion of my Government only enhances the significance of these efforts, thus qualifying Yugoslavia for accession to the General Agreement.

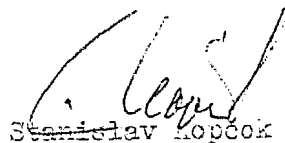

7. The offer which the Government of Yugoslavia is now submitting covers both its accession to the General Agreement and the negotiations for new concessions in the context of the Kennedy Round in which it is participating in accordance with the rules and procedures for the participation of the Less-Developed countries. This offer relates to non-agricultural products /i.e. products contained in Chapters 25 to 99 of the Customs Tariff of the SFR of Yugoslavia/ and is for the reduction and consolidation of import duties. In addition, an offer relating to agricultural products is being prepared, and an endeavour is made to submit such an offer at an early date. The Yugoslav offer can, in the opinion of my Government, be assessed only in conjunction with the general reduction of customs rates, and with other measures implemented within the economic reform. The maintenance in full of this offer is dependent on the negotiating requirements of the Yugoslav Government being met, particularly with regard to removal from

exception lists of products of special export interest to Yugoslavia, and more favourable conditions at the markets of industrial contracting parties for agricultural products which account for a larger part of Yugoslav exports to these countries.

8. In addition to this, and in accordance with the provisions of paragraph 4, Article XXXVII of Part IV of the General Agreement, the Government of Yugoslavia hereby declares the intention to study and negotiate, with other developing countries so willing, measures designed to expand trade between themselves, as part of their contribution to the objectives of the Kennedy Round of trade negotiations, in accordance with the rules for participation of the developing countries in the Kennedy Round.

9. Desireous to take immediately part in the current trade negotiations, the Government of Yugoslavia expects to receive for this purpose the full exceptions lists of the industrialized countries, the offers of other participating countries as well as other relevant material.

Please accept, Mr. Director-General, the assurances of my high consideration.

No. 167

Monsieur le Directeur général,

Me référant à la déclaration faite hier, au sein du groupe de travail de l'accession de la Yougoslavie, par Monsieur S. Baum, chef de la délégation yougoslave, je me permets de vous envoyer ci-joint la liste des concessions que mon pays offre aux parties contractantes de l'Accord général en vue de négociations tarifaires considérées comme condition de son accession définitive au GATT. Comme vous le savez, Monsieur le Directeur général, mon pays n'entend demander, au cours de ces négociations tarifaires, aucune concession supplémentaire de la part des parties contractantes existantes, et je vous prie de porter ce fait clairement à la connaissance des parties contractantes en leur transmettant l'offre ci-jointe.

La raison de cette façon de procéder s'explique par le fait que, les négociations Kennedy étant en cours, mon pays entend participer aux échanges de concessions avec d'autres parties contractantes que ces négociations impliquent sur la base d'une offre séparée, qui vous a été déjà transmise.

Veuillez agréer, Monsieur le Directeur général, l'assurance de ma haute considération.

Geneva, 23 november 1966

Sir,

I have the honour to send you herewith a copy of the revised text of the tariff offer for non-agricultural products as a contribution of my Government towards the objectives of the Kennedy Round.

May I remind you that, on 18 October 1965, my Government submitted an offer of tariff concessions with a view to its accession to GATT and its participation in the Kennedy Round. Since in the course of negotiations for accession my Government consolidated tariffs on a number of products in this offer, it deemed it appropriate to submit for the purpose of the Kennedy Round negotiations a new, revised text of the offer, where the products whose tariffs were consolidated in accession negotiations have been deleted, and some typing errors corrected.

Please accept, Sir, the assurances of my high consideration.

DÉLÉGATION PERMANENTE DE LA R. S. F.

DE

YUGOSLAVIE

AUPRÈS DES NATIONS UNIES

A GENÈVE

Geneva, 5 December 1966

No. 851

Sir,

With reference to your Note TD.64/12 of 27 October 1966, I have the honour to inform you of the following:

1/ the Yugoslav delegation has conducted bilateral negotiations with the following developed countries participants in the Kennedy Round: Austria, European Economic Community, Canada, Switzerland, the United Kingdom and the United States of America.

During these negotiations additional information has been obtained on individual products; the Yugoslav delegation has stressed again the importance of certain products for the Yugoslav export to respective countries and demanded their withdrawal from the lists of exceptions or tariff reductions, in the spirit of the Kennedy Round.

To all these countries, except Canada, lists of requests have been sent, a copy of which was forwarded to the GATT Secretariat.

We regret, however, not to be in a position to submit a more detailed evaluation requested in your Note because of the mostly technical nature of the negotiations carried so far.

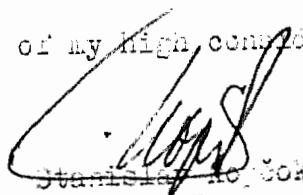

2/ Availing itself of the possibility to withdraw certain products from the present offers, the Yugoslav delegation has submitted to the delegation of Denmark, Finland, Norway and Sweden lists of non-agricultural products subject to duty and which are of major interest for the Yugoslav exports to these countries.

Bilateral talks with these countries are in course.

3/ Since we are not yet in possession of the announced additional lists of demands from our partners and thus not in a position to make an evaluation of the effect of the Kennedy Round on the Yugoslav export, my Government will only later be able to reconsider the offer already submitted and take adequate decisions.

Accept, Sir, the assurances of my high consideration.

Mr. E. Wyndham White
President
Trade Negotiation Committee
GATT

Stanislaw Kozak
Ambassador.
Head of Permanent Delegation

DÉLÉGATION PERMANENTE DE LA R. S. F.

DE

YUGOSLAVIE

AUPRÈS DES NATIONS UNIES
A GENÈVE

Geneva, 29 July 1966

No. 563

Sir,

I have the honour to forward herewith the agricultural offer of my Government for the Kennedy Round of trade negotiations, which makes a component part of the Yugoslav offer submitted to you by my letter No. 7480 of 18 October 1965.

At this same occasion I would like to point out that my Government, within a general reduction of tariffs of 50 per cent in average, has reduced tariffs on agricultural products as well, so that these tariffs are among the lowest in the agricultural sector applied so far by the Contracting Parties. When examining the comparative survey of former and present tariffs as given in the Yugoslav Tariffs already submitted to GATT, account should be taken of the fact that the real reduction is greater than the nominal reduction because of the customs duty of 3 per cent to which all products were subject besides the regular tariff, and which is now eliminated. The 3 per cent duty was not comprised in the former tariffs.

Although the non-agricultural offer of 18 October 1965 and the general reduction of tariffs make, in the view of my Government, a more than adequate contribution to the objectives of the Kennedy Round, my Government is making an additional effort and submitting this agricultural offer in the desire to help the promotion of trade among the Contracting Parties and among the less-developed countries in particular.

As you will know, Sir, my country participates in the GATT Working group on meat, and has expressed also its desire

Mr. Eric Wyndham White
Director-General
GATT
GENEVA

to participate in the Working Group on Cereals if it deals with maize, since ^{this} ~~it~~ is a vital export for my country.

As it has been the case with our offer of 18 October 1965, this offer for agricultural products as a whole will be maintained depending on the extent to which the Yugoslav interests will be met in the course of the negotiations, both with regard to the withdrawal of products of particular export interest from the lists of exceptions, and the creation by the industrial developed countries of more favourable conditions in their market for agricultural products from my country which make an important part of our exports to these countries.

Please accept, Sir, the assurances of my high consideration.

YUGOSLAV OFFERS ON AGRICULTURAL PRODUCTS

The agricultural offer of the Government of Yugoslavia for the Kennedy Round of trade negotiations makes a component part of the Yugoslav offer submitted on 18 October 1965.

The Government of Yugoslavia, within a general reduction of tariffs of 50 per cent in average, has reduced tariffs on agricultural products as well, so that these tariffs are among the lowest in the agricultural sector applied so far by the CONTRACTING PARTIES. When examining the comparative survey of former and present tariffs as given in the Yugoslav Tariffs already submitted to GATT, account should be taken of the fact that the real reduction is greater than the nominal reduction because of the customs duty of 3 per cent to which all products were subject besides the regular tariff, and which is now eliminated. The 3 per cent duty was not comprised in the former tariffs.

Although the non-agricultural offer of 18 October 1965 and the general reduction of tariffs make, in the view of the Government of Yugoslavia, a more than adequate contribution to the objectives of the Kennedy Round, it is making an additional effort and submitting this agricultural offer in the desire to help the promotion of trade among the contracting parties and among the less-developed countries in particular.

Yugoslavia participates in the GATT Working Group on Meat, and has expressed also its desire to participate in the Working Group on Cereals if it deals with maize, since this is a vital export for Yugoslavia.

As has been the case with the Yugoslav offer of 18 October 1965, this offer for agricultural products as a whole will be maintained depending on the extent to which the Yugoslav interests will be met in the course of the negotiations, both with regard to the withdrawal of products of particular export interest from the lists of exceptions, and the creation by the industrial developed countries of more favourable conditions in their market for agricultural products from Yugoslavia which make an important part of Yugoslav exports to these countries.
