Czechoslovakia

Offers in Respect of Tariffs, Non-Tariff Measures and Agriculture

1. Offer on Tariff Reductions

Czechoslovakia is prepared to offer initially to apply the general reduction harmonization formula as envisaged in Doc. MTN/INF/11 of 23 December 1977. The coefficient to be applied will be communicated as soon as it is confirmed by the respective Czechoslovak authorities. The offer is made on the understanding that the reductions of the Czechoslovak customs tariff will be finally determined at the end of the negotiations.

2/ Exceptions to this reduction formula offer will be kept to the necessary minimum by Czechoslovakia.

3/ The initial rates of duty are the bound rates; where there is no binding the initial rate of duty will be the duty actually applied on January 1, 1974.

4/ Czechoslovakia is prepared to implement the agreed tariff reductions in annual steps over a period of eight years or other period to be determined in the MTN. Implementation in later stages /starting with the sixth annual stage/ could be reconsidered if this is warranted by prevailing economic situation at the relevant time.

5/ Czechoslovakia expects in the light of Tokyo declaration that all participants will contribute substantially to tariff reductions taking due account of GATT Article XXVIII bis, and attaches importance to

arriving at a greater overall degree of tariff bindings which should cover substantially all MFN imports into each country.

6/ Czechoslovakia is prepared on the basis of specific requests from developing countries to examine the possibility of applying on a product by product basis certain differential measures in their favour /improvement of GSP, staging of tariff reductions etc./.

7/ This offer is made on the understanding that it can be modified in the light of offers made by other developed participants and the overall balance of concessions.

II. Offer on Non-Tariff Measures

1/ Czechoslovakia is ready to continue to work for and contribute to mutually acceptable solutions in the form of codes and agreements aimed at elimination or reduction of non-tariff obstacles to trade which are the subject of multilateral discussion in MTN.

2/ Czechoslovakia is disposed to assure the participants in the MTN, that monopoly of foreign trade in Czechoslovakia will be operated in a non-discriminatory manner in accordance with the provisions of Article XVII of GATT and that the Czechoslovak Government shall not prevent any enterprise, authorized to perform foreign trade operations, from making any purchases and sales solely in accordance with commercial considerations nor will it prevent any such enterprise from affording to the enterprises of the other MTN participants adequate business opportunity, in accordance with the customary practice, to compete for participation in such purchases or sales.

3/ Within the agreed request-offer procedure and with due regard to the principle of overall reciprocity Czechoslovakia will continue on the basis of specific requests to present specific responses and offers in the field of non-tariff measures.

III. Offer on Agriculture

1/ Czechoslovakia is prepared to offer tariff reductions for agricultural products.

2/ Within the agreed request-offer procedure and with due regard to the principle of overall reciprocity Czechoslovakia will continue on the basis of specific requests to present specific responses and offers in respect of agricultural products.

3/ Czechoslovakia continues to attach importance to the negotiations in the meat, dairy and grain sectors aimed at finding multilateral solutions and is disposed to consider Czechoslovak participation in these solutions provided contribution of these solutions to the achievement of greater liberalization, stability and expansion in international trade in the respective sectors will be substantial and useful.

Thus Czechoslovakia is either importer or exporter of the whole range of agricultural products in the given year according to the results of domestic agricultural production. It is not easy therefore with respect to the majority of these products to speak up for assuring stable terms of access to the market. Geneva, 23 June 1978

No.: 1225/78

Dear Mr. Linden,

Referring to the general offer of Czechoslovakia on tariff reductions presented to you by my letters No. 1088/78 dated 24 February 1978 and No. 1140/78 dated 13 April 1978 I have the honour to enclose herewith Czechoslovakia's detailed initial tariff reduction offer.

This offer is the result of the application of the Swiss formula /MTN/TAR/W/34/ with the coefficient 14 for tariff reductions on both industrial and agricultural products without exceptions on the Czechoslovak customs tariff.

Exceptions to the reduction formula will be kept to the necessary minimum by Czechoslovakia in the light of offers made by other participants and the overall balance of concessions in all areas of the negotiations.

The offer is expressed in ad valorem equivalents of Czechoslovak specific duties and in CCC Nomenclature. The offer is supplemented by a table containing an informal concordance between the Czechoslovak customs tariff Nomenclature and the CCCN. Detailed explanatory notes on the conversion of specific duties into ad valorem duties and on the concordance between the nomenclatures are also attached to the offer.

Czechoslovakia, with the aim to achieve further clarity and simplification of its customs tariff and to contribute to the results of MTN, is prepared to adopt the CCC Nomenclature.

St 27-6256-75

Guided by the same aims Czechoslovakia also intends to convert specific rates of duty in Schedule X into ad valorem duties. In carrying out the process of conversion Czechoslovakia shall apply the relevant provisions and procedures of Article XXVIII.

I should be grateful if you would arrange for the Czechoslovakia's detailed initial tariff reduction offer and the text of this letter to be transmitted in confidence to all participants in the Multilateral Trade Negotiations.

Sincerely Yours

Zdeněk Jung
Commercial Counsellor

CZECHOSLOVAKIA
TARIFF REDUCTION OFFER

Geneva, 23 June 1978

Plan for the reduction of the Czechoslovak customs tariff

1. In its initial offer Czechoslovakia notified its intention to use the Swiss formula for a reduction of its customs tariff. Subsequently it announced that the coefficient 14 would be used to implement this formula.

2. Since the present Czechoslovak tariff is based on a non comparable nomenclature and its rates are almost exclusively specific, it was felt necessary for the application of the reduction formula and for a better understanding and evaluation of the proposed reductions to use the ad valorem incidence of the actual specific rates and to convert the present nomenclature into the internationally agreed CCC - nomenclature.

3. To this end all items of the Czechoslovak customs tariff were classified under the four-digit CCC - nomenclature.

4. In addition the four-digit CCC - items were extended into six-digit items to express:
   a/ the five-or six-digit items of the Czechoslovak Uniform Classification of Industrial Sectors and Products /UCISP/,
   b/ the present tariff rates,
   c/ as far as possible also items as classified under the SITC.

5. The actual tariff rates were converted in accordance with the following principles:
   a/ ad valorem rates have not been changed,
   b/ specific rates were converted into ad valorem rates by using the following procedure: tariff rates were in all cases calculated on the basis of net weight; in the case of items where the same kind of marchandise was differently classified by categories of weight and the tariff rates differred according to the weight category, an arithmetic average of these rates was taken,
   c/ other than ad valorem and weight rates /e.g. rates per piece/ were calculated on the basis of duty effectively paid,
   d/ for the conversion of specific rates into ad valorem rates statistical data of the UCISP were used; as a basis for this calculation data for the years 1967 and 1968 were used;

in certain cases data for 1973 were taken; the reasons for the choice of these years were legal, economic as well as technical; in 1967 /conclusion of the Kennedy Round/ most tariff rates were bound; with respect to the prevailing fluctuation of prices it was felt preferable not to base the calculation on data for one year only: in 1973 the MTN were opened and at the same time the work on the transposition of the UCISP into the CCC - nomenclature was initiated.

6. The calculated ad valorem incidence was rounded off as follows:
   up to 5 percent no change,
   from 5 percent to 10 percent rounded off to the nearest half percent downwards,
   higher than 10 percent to full percents downwards.

7. All conventional rates higher than 35 percent and autonomous rates higher than 70 percent were reduced to the level of 35 percent and 70 percent respectively.

8. Where no conventional rates exist only autonomous rates are mentioned.

9. Column 6 contains offers for reduction through the application of the Swiss formula.

DRAFT SCHEDULE X - CZECHOSLOVAKIA
/continued/

General Note

The tariff rate concessions provided for in this draft schedule may be improved as the result of consultations and negotiations which have been carried out on the initiative of Czechoslovakia since 12 July 1978 under the provisions of para. 1 of Article XXVIII, regarding the conversion of specific rates of duties in Schedule X into ad valorem duties.

Czechoslovakia will implement the tariff rate concessions in steps and over a period to be agreed upon and determined in the MTN.

Note

The specific rates of duties are expressed in crowns per 100 kgs.

SCHEDULE X - CZECHOSLOVAKIA

Notes

1. The description of goods in the Czechoslovak Schedule of tariff concessions is based on the Customs Cooperation Council Nomenclature as of 1976.

2. Czechoslovakia shall start with the implementation of its concessions by July 1, 1980. The Czechoslovak concessions will be implemented in four equal stages on July 1, 1980, January 1, 1982, January 1, 1984 and January 1, 1986.

3. The rates of duty set out in the "concession rate" column have been agreed by Czechoslovakia on the understanding that its concession rates and those of its trading partners will be fully implemented in regular stages starting between January 1, 1980 and July 1, 1980 and ending on January 1, 1987. Czechoslovakia reserves the right to modify or suspend its concessions should any of its trading partners suspend the application of this general rule.

4. In the event that any trading partners of Czechoslovakia postpone, modify, suspend or withdraw their concessions Czechoslovakia reserves the right to act accordingly and to take appropriate compensatory action.

SCHEDULE X - CZECHOSLOVAKIA

This schedule is authentic only in the English language.

Geneva, 28 February 1979
No.: 1061/79

Mr. Director General,

I refer to my letter No. 1088/78 dated 24 February 1978 describing the initial tariff reduction offer of Czechoslovakia and to the list of reduced rates of duty resulting from the initial offer dated 23 June 1978 and distributed to participants in Multilateral Trade Negotiations.

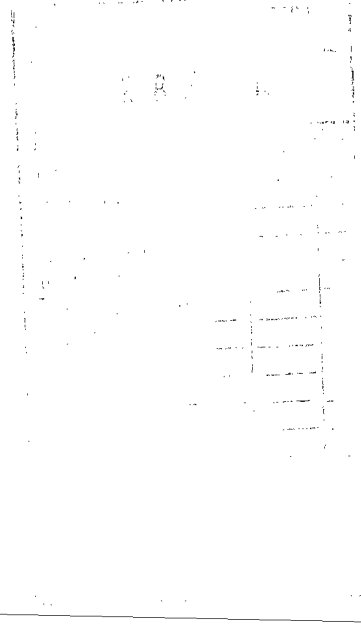

The initial offer was made on the understanding that it can be modified in the light of offers made by other participants and the overall balance of concessions. In view of the offers as well as exclusions from the formula and total and partial exceptions made by other participants at the present stage of Multilateral Trade Negotiations it has been decided by my authorities to modify the Czechoslovak initial tariff offer and to make from it some withdrawals the list of which is enclosed.

I should be grateful if you would arrange for the text of this letter and the accompanying list of withdrawals to be transmitted to participants in Multilateral Trade Negotiations.

Commercial Counsellor

No.: 1075/78

Dear Mr. Linden,

I accordance with the procedures of Group "Non-Tariff Measures" /MTN/NTM/35/ I am enclosing Czechoslovakia's specific offer and response to the Canadian list of requests addressed to Czechoslovakia in the field of non-tariff barriers. The offer is for use of the GATT secretariat and the Canadian Delegation and should be considered as confidential. The offer is not for circulation but it can be given at the disposal of MTN participants at their request.

The copy of the offer has ben directly sent to the Delegation concerned.

Yours sincerely

Zdeněk Jung
Commercial Counsellor

41.01	Hides and skins	State trading	Canada	In response to the requests of the delegation of Canada in the field of non-tariff measures the Czechoslovak delegation in the first place considers it necessary to underline that state trading as such /eo ipso/ cannot be considered as obstacle to trade. Only its restrictive or discriminatory operation could create obstacles to trade. This is not the case of Czechoslovak monopoly of foreign trade which is operated fully in conformity with the provisions of Article XVII of GATT. Import of individual kinds of goods to Czechoslovakia is effected on the basis of needs and requirements of domestic economy. The Czechoslovak delegation is disposed to assure the Canadian delegation that in respect of items the import of which will come into consideration the state trading will be on the part of Czechoslovakia operated fully in conformity with the provisions of Article XVII of GATT, i.e. it will comply with the principle of non-discrimination and the Government shall not prevent any enterprise authorised to perform foreign trade operations from making its purchases solely in accordance with commercial considerations.
