DÉLÉGATION DE NORVÈGE
CASE POSTALE X 274
1211 GENÈVE 19

22 May 1978.
Enclosure.

SECRET

Sir,

With reference to the general offer of the Nordic countries concerning tariffs on industrial products, contained in letter dated 19 January 1978, I have the honour to enclose herewith a list presenting the details of Norway's offer.

The list covers industrial products only. In document MTN/AG/W/33 the Norwegian government stated the opinion that fish, marine mammals and products thereof should be subject to the same tariff reduction plan as industrial products. Norway's offer concerning these products will be submitted shortly as a supplement to the present list.

The offer is based on the Swiss harmonization formula (MTN/TAR/W/34) with the coefficient 16. Efforts have been made to keep exceptions to a minimum, and the exceptions appearing in the list are not based on reciprocity considerations. The offers of other industrialized countries are presently being evaluated, and the Norwegian authorities reserve their right to make modifications to the present offer.

The tariff reductions have been made on the basis of GATT-bound rates for bound tariff items, and on the basis of statutory rates for unbound tariff items. For specific tariff rates the ad valorem incidences have been calculated on the basis of MFN-imports in 1975.

The present offer list is based on Norway's customs tariff as of 1977. The final offer will be recomposed to take account of the amendments to the customs co-operation council nomenclature which came into force on January 1st, 1978, for Norway.

Accept, Sir, the assurances of my highest consideration.

Erik Selmer
Minister Counsellor

Mr. O. Long,
Director-General,
General Agreement on Tariffs and Trade,

Offer List for Fish and Fishery Products

In document MTN/AG/W/33 of 10 November 1977 Norway stated its position on how to deal with fish and fishery products in the Multilateral Trade Negotiations. They should not be dealt with under the same procedure as agricultural products, but be subject to the tariff plan for industrial products.

Attached is therefore a list setting out Norway's offers for fish and fishery products, where the tariff reductions have been obtained through the application of the Swiss harmonization formula with coefficient 16. The calculations have been based on import statistics for 1976. Where there have been no imports registered over the last few years (03.03.A, 15.04.A and 15.04.B.1) the rates have been reduced by 40 %.

Tariff items nos. 15.10 and 15.12 have been excepted from the present offer.

GENÈVE 19

Genève, 14 April 1979

Dear Mr. Till,

Norway's offer for reductions of customs duties.

I have the honour to transmit enclosed the provisional records of Norway's tariff commitments for industrial, agricultural, fish and fishery as well as tropical products offered in negotiations which have been carried out within the framework of the MTN as of 12 April 1979.

As compared to Norway's original offers the following changes have been made:

1. Industrial products
   - rectificationsas a consequence of the amendments to the Customs Co-operation Nomenclature which came into force on January 1st 1978 (doc L/4729).
   - correction of technical errors
   - indication of items that remain unbound as a consequence of Norway's initial exceptions. Symbols: S = unbound; A = partly bound.
   - commitments offered in bilateral negotiations.
2. Fish and fishery products
   - no changes
3. Agricultural products
   - commitments offered in bilateral negotiations
   - tariff nos. have been changed from 7-digit BTN to Norway's official customs tariff, in line with the lists covering industrial and fish and fishery products.

Mr. L. Till
Chief Statistician
G A T T

4. Tropical products

- a list of additions to the offer presented by Norway by letter of 1 March 1976 in the Group 'Tropical Products'.

Yours faithfully

CASE POSTALE 274

5 June 1979.

Enclosure.

Sir,

Norway's Tariff Offer in the Multilateral Trade Negotiations.

I have the honour to enclose herewith Norway's offer in the MTN as of 1 June 1979 on agricultural and industrial products. In this connection I would like to make the following observations:

1. In addition to those items for which concessions are being offered in the MTN the list also covers items for which earlier concessions are still valid (these items are identified in the normal manner) and the list should therefore be considered a draft consolidated schedule.

2. For the MTN offer the base rate is the GATT bound rate for bound tariff items and the statutory rate for unbound tariff items.

3. The draft is based on the CCC-nomenclature as of 1 January 1978, and includes the consequential rectifications made to the Norwegian schedule.

4. Offered ad valorem duty rates are rounded to the nearest one-tenth of a percent and specific rates to the nearest oere.

5. The offered concession rates represent the rates at the final stage of implementation. Norway has assumed that in general, the reduction would be implemented over a period of eight years. The modalities of this

Mr. O. Long,
Director General,
G A T T,
154 rue de Lausanne,
1211 Geneva 21.

implementation should be established by multilateral agreement shortly in such a way that the total reductions agreed between participants are secured. Pending resolution of this question Norway reserves its position as to how its offered concessions will be implemented.

6. Norway has furthermore assumed that the reductions would start on 1 January 1980. Should, however, other participants postpone the reductions for certain items, Norway reserves its rights to act accordingly.

7. The offered concessions now presented are without prejudice to certain adjustments that may result from bilateral consultations still under way or that may be necessary in the light of possible deviations from earlier presented concessions by some other MTN participants.

8. Norway reserves its rights to make possible minor rectifications to the present draft.

Accept, Sir, the assurances of my highest consideration.

Erik Selmer
Minister Counsellor

SECRET

DIRECTORATE OF CUSTOMS AND EXCISE

DRAFT SCHEDULE XIV - NORWAY

Consolidated list of Norwegian GATT concessions valid from 1 Juanuary 1980.

Comments to the list.

Column 1. Reference to heading numbers in the CCC Nomenclature. Where the concessions cover only parts of the headings, an ex. is placed ahead of the heading numbers concerned.

Column 2. Description of products according to headings in the CCC Nomenclature and subheadings in the Norwegian Customs Tariff valied from 1 January 1979. Where concessions cover parts of subheadings av positiv description of the products extracted is given.

Column 3. The level from which a new concession is given.

Column 4. Indication of the concessions given. For products bound in the Tokio-round the ciffers show the rates of duty fully reduced. Specific rates of duty, e.g. 0,60, means Norwegian kroner (0,60) per KG if nothing else is specified in the list.

Column 5. Indication of the interested countries and the place and year the concessions are given. K.R. means a Kennedy-round binding. Headings and subheadings without initials shows Norwegian offers bound in the Tokio-round.

SCHEDULE XIV-NORWAY

This schedule is authentic only in the English language.

PART I

Most-Favoured-Nation Tariff

Consolidated list of Norwegian GATT Concessions valid from 1. January 1980.

Comments to the list.

Column 1. Reference to heading numbers in the CCC Nomenclature. Where the concessions cover only parts of the headings, an ex. is placed ahead of the heading numbers concerned.

Column 2. Description of products according to headings in the CCC Nomenclature and subheadings in the Norwegian Customs Tariff valied from 1 January 1979. Where concessions cover parts of subheadings a positiv description of the products extracted is given.

Column 3. The level from which a new concession is given.

Column 4. Indication of the concessions given. For products bound in the Tokio-round the ciffers show the rates of duty fully reduced. Specific rates of duty, e.g. 0,60, means Norwegian kroner (0,60) per KG if nothing else is specified in the list.

Column 5. Indication of the interested countries and the place and year the concessions are given. K.R. means a Kennedy-round binding. Headings and subheadings without initials shows Norwegian offers bound in the Tokio-round.

SCHEDULE XIV - NORWAY

N O T E S

1. This Schedule is a consolidation of concessions resulting from the Multilateral Trade Negotiations as well as earlier concessions in force.

2. The MTN concessions shall enter into force in accordance with the conditions stipulated in the Geneva (1979) Protocol to the General Agreement on Tariffs and Trade. The base rates for these concessions are the Gatt bound rates for bound tariffs and the statutory rates for unbound tariffs; ad valorem rates are rounded to the nearest one-tenth of a percent and specific rates to the nearest oere.

3. The concession rates resulting from the MTN represent the rates at the final stage of implementation. In the case of other participants withholding, withdrawing or deferring implementation of concessions for certain items, Norway reserves its rights to act accordingly.
