SECRET

PERMANENT MISSION OF THE REPUBLIC OF KOREA
GENEVA

December 11, 1978

Dear Mr. Director General,

I would like to refer to my statements delivered at the Trade Negotiating Committee of July 3, 1978 and, most recently, at the 34th session of Contracting Parties, with regard to contribution of my government to the MTN.

As was stated, wide-range of trade-liberalization measures have been and will be implemented by my government.

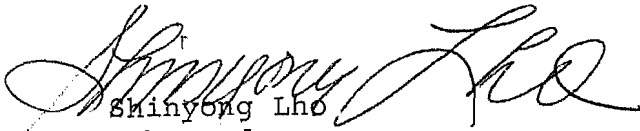

In NTM area, my authorities have lifted import restriction on 171 items since the start of this year, the list of which is attached hereto for circulation to all participants to the MTN.

As regards tariff, average rate will be reduced to 25 percent from current 36 percent, effective on and after January 1, 1979.

My authorities consider that these liberalization measures would constitute considerable contribution of the Korean government to the MTN.

Finally, I would like to state that these measures might be revised depending on additional benefit accruing to developing countries from the MTN.

Yours sincerely,

Shinyong Lho
Ambassador

The Honorable
Olivier Long
Director General

UNITED STATES MISSION TO INTERNATIONAL ORGANIZATIONS
GENEVA, SWITZERLAND

November 15, 1979

Counselor Ki-choo Lee
Permanent Mission of the
Republic of Korea
75, rue de Lyon
1203 Geneva

Dear Counselor Lee:

Washington has asked me to clarify certain elements of the draft Korean GATT Schedule LX.

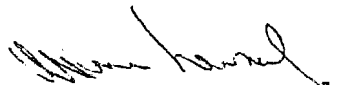

According to Washington's list of Korean tariff concessions, BTN 85.21.03 elements of semi-conductors, offer to bind at 20 percent, and BTN 85.21.09 electronic microcircuits, offer to bind at 20 percent, are included in the Korean MTN offer. These two items do not appear in the Korean draft Schedule LX.

Perhaps you can clarify if these product lines were accidentally deleted or if they are subsumed under some other item in the tariff schedule.

Also according to Washington's record of Korean offers, BTN 85.21.09.99 includes the description "mounted devices incorporating semi-conductors, NES," and BTN 85.21.15 includes the description, "parts of mounted piezo-electric crystals." These descriptions do not appear in draft Schedule LX but may be contained in the description listed under those numbers in the Korean GATT Schedule.

Could you please clarify whether the above descriptions are included in the above tariff item and nomenclature of the Korean Schedule LX.

Sincerely,

Warren A. Lavorel
First Secretary

Dear Mr. Lavorel,

With regard to your letter to Mr. Ki-Choo Lee dated November 15 concerning certain clarifications in the GATT Schedule LX for Korea, I would like to refer to our bilateral consultations which was held at your mission on 30 November, and to reiterate our position as follows:

Firstly, "elements of semi-conductors" are contained in CCCN 8521.0401-0700 in various descriptions namely, transistors, diodes, elements of rectifiers and crystal detectors, and other elements of semi-conductors not specified in foregoing sub-headings are classified in CCCN 8521.0800.

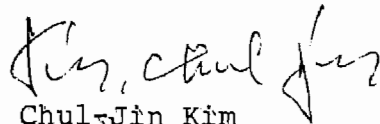

Secondly, "electronic microcircuits" are classified under two different sub-headings namely, CCCN 8521.0901 for integrated circuits and CCCN 8521.0999 for not specified other electronic microcircuits.

Thirdly, "mounted devices incorporating semi-conductors, NES" are identical with "electronic microcircuits" explained in the second paragraph. We simply used the description "electronic microcircuits" in order to adhere to the CCCN classification.

Lastly, as to your last question on CCCN 8521.1500, I would like to make a proposal to delete "parts of other tubes and valves falling within Heading No.8521" and substitute "Other parts, not elsewhere specified in Heading No.8521" so that parts of mounted piezo-electric crystals will be clearly included in CCCN 8521.1500.

I hope that your authorities will satisfy with my clarifications and proposal.

Sincerely,

Dear Mr. Kim:

I am writing with regard to your letter to me of December 4, concerning clarifications in the GATT Schedule LX for Korea.

The United States can accept your proposal for clarifying CCCN 8521.1500 by changing the description to read, "Other parts, not elsewhere specified in Heading No. 8521" so that parts of mounted piezo-electric crystals will be clearly included in CCCN 8521.1500.

With this change and the other clarifications submitted in your letter, I am authorized to remove the reservation that the United States placed on your Schedule.
