31.3.1951

To the Chairman of the
Delegation of Denmark,

T o r q u a y

Mr. Chairman,

When deliberating on the new German Draft Customs Tariff, the German Federal parliamentary bodies introduced certain deviations from the original nomenclature with a view to adapting, at this early stage, the new Draft Tariff as far as possible to the 1950 International Brussels Tariff Nomenclature. Even though the deliberations on the new German Draft Tariff have as yet not been concluded, it may be assumend that the version of the German draft tariff as adopted to date will be the final version.

I take the liberty of attaching to this letter a corrigendum which contains such amendments ensuing from the above mentioned action as apply to the schedule of the final German offers forwarded to you on 17th March, 1951. The substance and rates of the finalized offers have, however, in each case been maintained in the new version.

As the multilateral schedules should be based on the revised version of the German Customs Tariff, I therefore feel that the bilateral schedules should, already at this stage, compiled correspondingly.

I regret that these amendments, which I could not foresee, will cause extra work to you. In case that any questions should arise in respect of individual points my experts will be pleased to discuss them at your convenience.

Please accept, Mr. Chariman, the assurance of my highest esteem.
