MEMORANDUM TO ACCOMPANY UNITED STATES OFFER LIST TO PERU

Attached is a list of the tariff concessions which the United States is prepared to grant to Peru.

The United States Delegation desires to make clear that these offers of tariff concessions are made (1) in the light of the requests for tariff concessions made by the United States upon the other governments participating in the Torquay negotiations and (2) on the assumption that the tariff negotiations between the other participating governments will result in substantial benefits to the United States.

Offers in this list which affect Cuban preferential margins are provisional pending consultations with the Delegation of Cuba.

The offers in the attached list are expressed in terms which will facilitate reference to United States import statistics; the items are identified by statistical class numbers as well as by tariff paragraphs. In the final agreement minor variations in the language used may be necessary in order to have a definitive legal description of the product involved, but the coverage of products will not be altered.

MEMORANDUM TO ACCOMPANY UNITED STATES SUPPLEMENTARY
OFFER LIST TO PERU

Attached is a supplementary list of direct tariff concessions which the United States is prepared to grant to Peru. These supplementary offers, it is important to note, are made subject to the same observations and assumptions which were set forth in the Memorandum of the United States Delegation, dated October 19, 1950, accompanying the preliminary list of offers to Peru.

The offers of tariff concessions in the attached list are in respect of raw and refined dry sugar. These further tariff concessions on sugar are being offered on the basis of the following conditions:

(1) The proposed rates on dry sugar are subject to revision in the event of any renegotiation of the existing rates on Cuban sugar (dry and liquid);

(2) Imports of sugar into the continental United States are subject to the quota provisions of the Sugar Act of 1948 and subject also, where applicable, to the import compensating tax on "manufactured sugar" at the rates provided for under Section 3500 of the Internal Revenue Code; and

(3) The tariff reductions are offered with the understanding that they will be effective only during such time as Title II (the quota provisions) of the Sugar Act of 1948 or substantially equivalent legislation is in effect in the United States, whether or not the quotas, or any of them, authorized by such legislation, are being applied or are suspended. This understanding constitutes a reservation to the offered concessions on sugar under tariff paragraphs 501 and 502 and is to be set forth as a Note in the appropriate places in Schedule XX, Parts I and II. A proposed draft of this reservation is herewith communicated to the Delegation of Peru (see page 2).

SUGAR "SNAPBACK" FOR PART I OF SCHEDULE XX (DRAFT)

NOTE: The foregoing provisions of this item and the provisions of item 502 in this Part shall be effective only during such time as Title II of the Sugar Act of 1948 or substantially equivalent legislation is in effect in the United States, whether or not the quotas, or any of them, authorized by such legislation, are being applied or are suspended: Provided, That, if the President of the United States finds that a particular rate not lower than the rate specified above, or than the rate specified in the said item 502, as the case may be, limited by a particular quota, may be established for any product provided for in this item or in the said item 502, which will give due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties, he shall proclaim such rate and such quota limitation, to be effective not later than the 90th day following the termination of the effectiveness of such legislation: Provided further, That any rate and quota limitation so established shall be modified if the President finds and proclaims that such modification is required or appropriate to give effect to the above considerations: And provided further, That the provisions of this item preceding this note and the provisions of the said item 502 shall resume full effectiveness, subject to the provisions of this note, if legislation substantially equivalent to Title II of the Sugar Act of 1948 should subsequently become effective.

Footnotes

1/ The tariff language includes "tank bottoms, sirups of cane juice, melada, concentrated melada, and concrete and concentrated molasses, testing by the polariscope not above 75 sugar degrees, and all mixtures containing sugar and water, testing by the polariscope above 50, and not above 75, sugar degrees."

2/ And fractions of a degree in proportion.

THIRD SET OF TARIFF NEGOTIATIONS
BY THE CONTRACTING PARTIES TO THE
GENERAL AGREEMENT ON TARIFFS AND TRADE
TORQUAY, ENGLAND

March 31, 1951

My dear Mr. Guerinoni:

This will confirm that, as a consequence of the tariff negotiations between our Delegations, the understanding arrived at in respect of adjustments in the United States Tariff is as set forth in the schedule enclosed herewith.

The United States offers are made in consideration of Peru's offers, handed to me on this date, which meet the requests of the United States in a satisfactory manner. These United States offers are subject to the approval of the President of the United States.

Our offers of tariff adjustments, which may be subject to some modification in the light of the bilateral tariff negotiations still to be concluded, will become effective pursuant to the Torquay Protocol to the General Agreement on Tariffs and Trade. These offers, which are in the form of the United States statistical classification, will, in their final form, be in the statutory language of the United States Tariff Law.

On behalf of all the members of the United States Delegation who have had the privilege of associating with the Peruvian Delegation, I have the honor to convey our deep appreciation of the cooperation and mutual confidence which characterized our work together in these negotiations.

Sincerely yours,

DuWayne G. Clark

MEMORANDUM TO ACCOMPANY PERUVIAN OFFER LIST TO THE UNITED STATES OF AMERICA.-

Peru accepts as a welcome step the concession by the United States Government of reductions in the United States import duties on sugar and the narrowing of the existing margin of preference to Cuba, but it must not be assumed that Peru agrees in advance to whatever decisions the United States Government may desire to take with respect to its import duties on sugar or quotas thereon under the "snap-back" provisions.

With reference to condition (1) of your Delegation's Memorandum of March 30th, 1951, I am assuming that you will consult the Government of Peru before taking any further decision as regards changes in the Tariff or import quotas.

I am enclosing herewith a letter of current date, which should be read in conjuction with the present communication, setting out more fully the views of the Peruvian Government with regard to (a) the extremely small present effect of the duty reductions (b) the "snap-back" provisions and Peru's right of prior consultation thereon (c) the Cuban preference and (d) the desire of Peru for an adequate import quota for peruvian sugar.

Jorge Guerinoni
Head of the Peruvian Delegation.
