COPY NO. 44

LIST OF OFFERS MADE BY THE UNITED KINGDOM IN RESPONSE TO REQUESTS MADE BY AUSTRIA FOR CONCESSIONS IN THE UNITED KINGDOM TARIFF

1. The attached statement of offers by the United Kingdom Delegation in respect of requests made by Austria is presented in two parts.

Part I lists those concessions made by the United Kingdom during the tariff negotiations at Geneva in 1947 and at Annecy in 1949 on items of interest to Austria. The United Kingdom has extended to Austria the benefits of the Geneva concessions since 1948 and those of the Annecy concessions since early 1950, and now seeks compensating concessions. It will be seen that a number of the items on which Austria has requested concessions are included in this part.

Part II shows the offers which the United Kingdom Delegation are prepared to make in response to the requests made by Austria for further concessions in the United Kingdom Tariff.

2. It is possible that during the currency of the agreement now being negotiated the present nomenclature of the United Kingdom Tariff will be superseded by the Tariff Nomenclature agreed for their common use between several European countries at Brussels. In order to avoid any misunderstanding about the extent of the offers made in Part II, the definitions of the items to which the new offers relate have been shown in terms both of the present tariff and of the Brussels nomenclature. As stated in Note 3 to Part II these definitions are subject to minor drafting changes.

United Kingdom Delegation,
Rutland House Hotel,
Torquay.
22nd November, 1950.

N O T E

Notwithstanding Article II, paragraph 6(a), the specific duties included in this schedule are expressed in terms of the Austrian gold krone of 338.753 milligrams of gold 0.900 fine. Such duties shall be payable in schillings at the conversion ratio of 6.96 schillings per gold krone, which conversion ratio is derived from the highest valuation of the schilling in terms of foreign currencies convertible into gold officially established by the Austrian National Bank for commercial transactions on the date of this protocol. If the valuation of the schilling in terms of foreign currencies convertible into gold is subsequently reduced by more than 20%, consistently with the Articles of Agreement of the International Monetary Fund, by the establishment of a par value or otherwise, the conversion ratio specified above may be adjusted to take care of such reduction; Provided, that the CONTRACTING PARTIES concur that such adjustment will not impair the value of the concessions provided for in this schedule or in the General Agreement on Tariffs and Trade, due account being taken of all factors which may influence the need for, or urgency of, such adjustments.

CONCESSIONS IN RESPECT OF REQUESTS MADE BY AUSTRIA ON THE UNITED KINGDOM TARIFF

Notes.

1. In view of the possibility that during the currency of the present tariff concessions the United Kingdom may adopt the common Tariff Nomenclature recently prepared at Brussels, the following concessions are expressed in alternative versions. The wording in column 3 represents the concession based on the existing United Kingdom Tariff. The wording in column 4 represents the concession expressed in terms of the Brussels Nomenclature. The former definition is valid unless and until the United Kingdom brings into force a Tariff based on the Brussels Nomenclature Convention; thereafter the latter definition only would be valid.

2. The concessions in this list refer to duties chargeable under Parts 3 and 4 of the United Kingdom Tariff, and, in the case of lanthanum oxide and neodymium oxide, to duty under Part [illegible] of the Tariff. The concession on ichthammol precludes any higher charge of duty under Part 5 of the Tariff.
