CONCESSIONS IN RESPECT OF REQUESTS MADE BY DENMARK ON THE UNITED KINGDOM TARIFF

Notes

1. In view of the possibility that during the currency of the present tariff concessions the United Kingdom may adopt the common Tariff Nomenclature recently prepared at Brussels, the following concessions are expressed in alternative versions. The wording in column 3 represents the concession based on the existing United Kingdom Tariff. The wording in column 4 represents the concession expressed in terms of the Brussels Nomenclature. The former definition is valid unless and until the United Kingdom brings into force a Tariff based on the Brussels Nomenclature Convention; thereafter the latter definition only would be valid.
2. The concessions in this list refer to duties chargeable under Parts 3 and 4 of the United Kingdom Tariff, except that in the case of calcium carbonate, precipitated, other than R Grade, the concession precludes any higher charge of duty on this item under Part 5 of the Tariff, and in the case of boiled, salted beef udders, the concession refers also to the duty chargeable on these goods under Part 6 of the Tariff.
