WTO iLibrary

Une source d'informations inestimable sur le commerce mondial : 1 900 titres, 15 000 chapitres, 330 documents de travail, plus de 1 220 rapports et 28 bases de données - PDF et HTML

www.wto-ilibrary.org

An invaluable source of information on global trade

The platform contains all the WTO's key research material:

Over **1,960** titles published by the WTO or co-published with other international organizations, comprising almost **18,750** chapters.

Over **330** WTO working papers.

Over **1,270** dispute settlement reports.

Almost **40** WTO titles co-published with Cambridge University Press, comprising over **500** chapters.

A WTO jurisprudence tool organized by WTO Agreement and updated every three months (WTO Analytical Index).

WTO Stats portal covering trade in goods and services (annual, quarterly and monthly), tariffs, non-tariff information and other indicators.

A gateway to **28** databases giving access to key information on measures relevant to global trade.

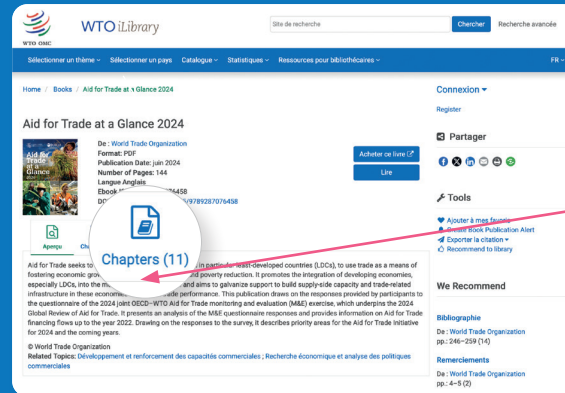

Content is made available in a variety of digital formats, including PDF, HTML, Excel and CSV.

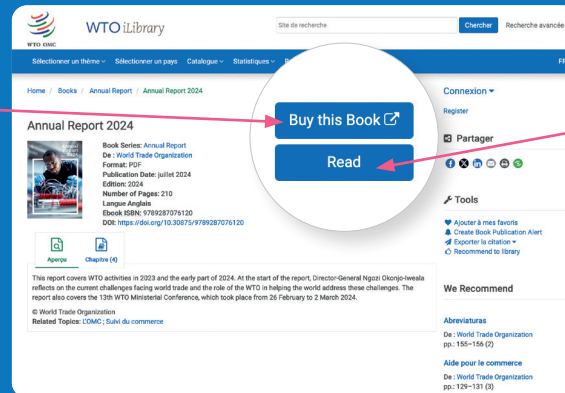

Enriched metadata makes the content fully searchable, meaning users can drill down easily to their specific areas of interest.

Key features

- Content can be viewed by country, topic, language, year and title.
- A citation tool allows content to be easily integrated into bibliographic references.
- All content can be fully downloaded or copied/pasted for reuse elsewhere.

- All content is broken down by chapter.

- Each publication page contains a link to the WTO's Online Bookshop for ordering printed copies.

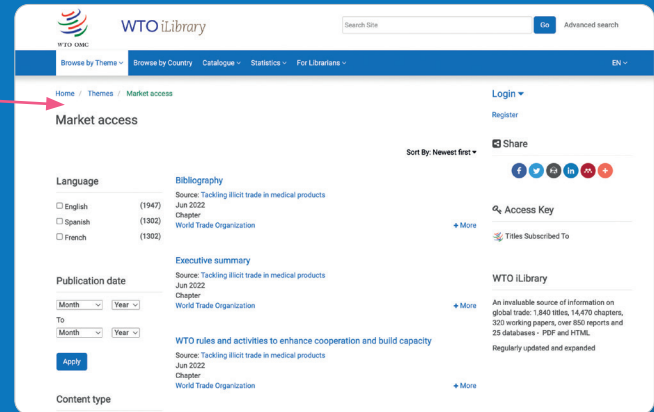

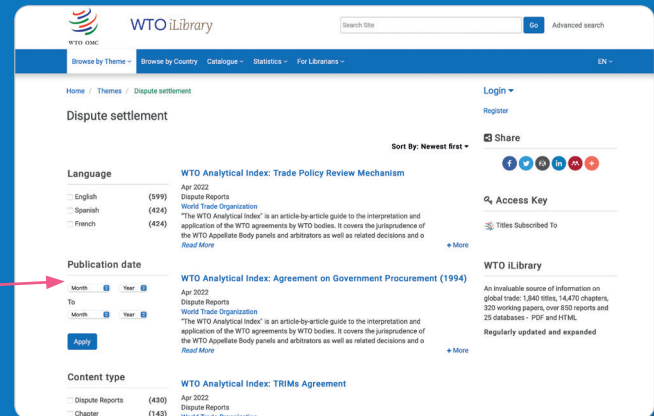

- A Read Online feature allows users to read and share content on all connected devices: desktop and mobile.

- Users have unlimited access to subscribed content.
- Free inclusion of content in course packs without the need to request permission.
- Content is available in English, French and Spanish.

Main topics

The main topics covered by the WTO iLibrary include:

- Agriculture and food security
- Anti-dumping, subsidies, safeguards
- Development and building trade capacity
- Dispute settlement
- Economic research and trade policy analysis
- Environment
- Government procurement
- Information technology and e-commerce
- Intellectual property
- Market access
- Regional trade agreements
- Services
- Statistics
- Technical barriers to trade
- Trade facilitation and customs valuation
- Trade finance
- Trade monitoring
- WTO accessions

Similarities with OECD's Digital Library

If you previously subscribed to the OECD iLibrary, you may be interested to know:

1. Like the OECD iLibrary, the WTO's digital library is supported by significantly **enriched metadata**. Through the systematic use of DOIs (Digital Object Identifiers), users can find and cite individual tables, graphs and datasets as easily as articles and chapters.
2. Following a very similar design to the OECD iLibrary, there is the option for users to **browse by theme and/or country** from the home page. An Advanced Search function is also available. Search results allow quick access to all content types (books, chapters, journals, articles, tables, datasets, etc) in any available content format: PDF, WEB, XLS, DATA, ePUB.
3. In line with the approach of the OECD, the WTO is **constantly releasing new data, reports**, analyses and forecasts. Access to this information enables major trends to be identified at a very early stage.
4. Similar to the OECD iLibrary, the WTO's digital library covers **a wide variety of topics**, ranging from

agriculture and fisheries to information technology and gender issues. Both the WTO and OECD's iLibraries list 20 separate topics in their «Browse by theme» option, with **significant overlap** in terms of the topics covered. For example, OECD topics such as “agriculture and food”, “development”, “economics”, “environment”, “finance”, “trade”, “technology” and “services” also appear in the WTO's list.

5. In keeping with the target audiences for the OECD iLibrary, the WTO iLibrary offers a wide range of material suitable for **all types of users:**

- **Universities and research organizations**
- **Businesses, global law firms, chambers of commerce, professional associations and global consultancy firms, tax and audit companies**
- **Government and public administration**
- **Non-governmental organizations and think tanks**

Thousands of institutions worldwide make WTO content available to their users through the WTO iLibrary. More than 1,000 of these provide access to all books, papers and statistical databases, with a global reach of more than 5 million users. As part of the process of continuous improvement, **the WTO iLibrary continues to evolve**, with new features and enhancements being added all the time.

Why subscribe to the WTO iLibrary?

What does the WTO iLibrary offer that I cannot find on the WTO website?

FEATURES	WTO website	WTO iLibrary
1. Access to WTO publications in both HTML and PDF formats.	X	✓
2. Access to all WTO publications broken down by chapter.	X	✓
3. Access to all WTO titles co-published with Cambridge University Press (almost 40 titles comprising over 500 chapters).	X	✓
